

BILL NO. 86-61

ORDINANCE NO. 3262

AN ORDINANCE RELATING TO THE NAMING OF STREETS AND THE ASSIGNMENT OF ADDRESSES; AMENDING TITLE 13 OF THE MUNICIPAL CODE OF THE CITY OF LAS VEGAS, NEVADA, 1983 EDITION, BY REPEALING CHAPTER 28 THEREOF AND ADDING THERETO A NEW CHAPTER 28 TO ESTABLISH COMPREHENSIVE GUIDELINES AND REQUIREMENTS FOR STREET NAMES AND ADDRESS ASSIGNMENTS; ADOPTING BY REFERENCE THAT CERTAIN DOCUMENT ENTITLED "CITY OF LAS VEGAS STREET NAMING AND ADDRESS ASSIGNMENT REGULATIONS, 1986 EDITION"; PROVIDING FOR WAIVERS; PROVIDING PENALTIES FOR VIOLATIONS HEREOF; PROVIDING FOR OTHER MATTERS PROPERLY RELATING THERETO; AND REPEALING ALL ORDINANCES AND PARTS OF ORDINANCES IN CONFLICT HERewith.

Sponsored By:	Summary:
Councilman Ron Lurie	Establishes guidelines and requirements for the naming of streets and the assignment of addresses.

THE CITY COUNCIL OF THE CITY OF LAS VEGAS DOES HEREBY ORDAIN AS FOLLOWS:

SECTION 1: Title 13, Chapter 28, of the Municipal Code of the City of Las Vegas, Nevada, 1983 Edition, is hereby repealed in its entirety.

SECTION 2: Title 13, of the Municipal Code of the City of Las Vegas, Nevada, 1983 Edition, is hereby amended by adding thereto a new chapter, designated as Chapter 28 and consisting of Sections 10 to 90, inclusive, reading as follows:

13.28.010: The naming of streets and the assignment of addresses and building numbers within the City shall conform to the provisions of this Chapter.

13.28.020: The intersection of Main and Fremont Streets shall be the initial point of numbering all blocks and buildings in the City.

13.28.030: (A) All buildings that front on east-west streets which intersect or start from Main Street shall be numbered beginning at that point with the numbers one and zero and thereafter shall be numbered progressively through each block.

Following each intersection with a numbered street, the numbering shall begin again with the numbers one and zero, with the number

1 of hundreds indicated by the number of the intersecting street.

2 (B) All numbers on east-west streets shall be even on
3 the north side and odd on the south side.

4 (C) Where Main Street terminates at Las Vegas Boulevard
5 South, Las Vegas Boulevard South shall be the base line for num-
6 bering along east-west streets to the southerly City limits.

7 13.28.040: (A) All buildings that front on north-south
8 streets which intersect or start from Fremont Street shall be
9 numbered beginning at that point with the numbers one hundred and
10 one hundred one and thereafter shall be numbered progressively
11 through each block. Approximately eight blocks shall be assigned
12 per mile; provided, however, that in areas in which other juris-
13 dictions have established a different pattern, the numbers shall
14 be apportioned accordingly.

15 (B) Buildings on north-south streets shall be numbered
16 with even numbers on the east side and odd numbers on the west
17 side.

18 (C) Where Fremont Street intersects Charleston Boule-
19 vard, Charleston Boulevard shall become the base line for num-
20 bering along north-south streets to the easterly City limits.

21 (D) The numbering of buildings on north-south streets
22 south of Charleston Boulevard shall begin with eleven hundred.
23 Thereafter, the base numbering of each succeeding block shall
24 increase by one hundred over the preceding block's base number.

25 (E) The numbering of buildings on north-south streets
26 north of Charleston Boulevard shall begin with one and zero and
27 numbering up to one hundred shall continue on those streets until
28 their intersection with Sunrise Avenue.

29 (F) The numbering of buildings on north-south streets
30 north of Sunrise Avenue shall begin with two hundred and,
31 thereafter, the base numbering of each succeeding block shall
32 increase by one hundred over the preceding block's base number.

1 13.28.050: In internal areas of the City in which numbering
2 conflicts with the rules set out in Sections 13.28.030 and
3 13.28.040, the assignment of new numbers shall conform to the
4 existing pattern where possible.

5 13.28.060: That certain document entitled "City of Las Vegas
6 Street Naming and Address Assignment Regulations, 1986 Edition,"
7 a copy of which shall be maintained in the Office of the City
8 Clerk, is hereby adopted by reference and made a part of this
9 Code, as if fully set forth herein. The provisions thereof, as
10 they may be amended and supplemented from time to time by resolu-
11 tion of the City Council, shall govern the naming of streets and
12 other rights-of-way and the assigning of addresses within the
13 City.

14 13.28.070: Any requirement imposed by this Chapter may be
15 waived by the City Council. Applications for waivers shall be
16 processed in accordance with Chapter 19.82 of this Code. The
17 City Council may grant a requested waiver upon a showing that
18 there are exceptional circumstances so as to justify the waiver
19 and that the granting of the waiver will not be materially detri-
20 mental to the public safety or welfare.

21 13.28.080: It is unlawful for any person to:

22 (A) Use or display a street name, building number or
23 address number that does not conform to the provisions of this
24 Chapter;

25 (B) Display a street name, building number or address
26 number in a manner that does not conform to the provisions of
27 this Chapter; or

28 (C) Fail to display a street name, building number of
29 address number in the manner required by this Chapter.

30 13.28.090: The Las Vegas Metropolitan Police Department, and
31 the City's Department of Fire Services, Department of Community
32 Planning and Development and Department of Building and Safety

1 shall have the authority to enforce the provisions of this
2 Chapter.

3 SECTION 3: Title 18, Chapter 28, Section 130, of the
4 Municipal Code of the City of Las Vegas, Nevada, 1983 Edition, is
5 hereby repealed in its entirety.

6 SECTION 4: Whenever in this ordinance any act is
7 prohibited or is made or declared to be unlawful or an offense or
8 a misdemeanor, or whenever in this ordinance the doing of any act
9 is required or the failure to do any act is made or declared to
10 be unlawful or an offense or a misdemeanor, the doing of any such
11 prohibited act or the failure to do any such required act shall
12 constitute a misdemeanor and upon conviction thereof, shall be
13 punished by a fine of not more than \$1,000.00 or by imprisonment
14 for a term of not more than six (6) months, or by any combination
15 of such fine and imprisonment. Any day of any violation of this
16 ordinance shall constitute a separate offense.

17 SECTION 5: If any section, subsection, subdivision,
18 paragraph, sentence, clause or phrase in this ordinance or any
19 part thereof, is for any reason held to be unconstitutional or
20 invalid or ineffective by any court of competent jurisdiction,
21 such decision shall not affect the validity or effectiveness of
22 the remaining portions of this ordinance or any part thereof.
23 The City Council of the City of Las Vegas, Nevada, hereby
24 declares that it would have passed each section, subsection, sub-
25 division, paragraph, sentence, clause or phrase thereof irrespec-
26 tive of the fact that any one or more sections, subsections, sub-
27 divisions, paragraphs, sentences, clauses or phrases be declared
28 unconstitutional, invalid or ineffective.

29 SECTION 6: All ordinances or parts of ordinances,
30 sections, subsections, phrases, sentences, clauses or paragraphs

31 . . .

32 . . .

1 contained in the Municipal Code of the City of Las Vegas, Nevada,
2 1983 Edition, in conflict herewith are hereby repealed.

3 PASSED, ADOPTED AND APPROVED this 17th day of December,
4 1986.

APPROVED:

BY William H. Briare
WILLIAM H. BRIARE, MAYOR

Approved

8 ATTEST:

9 Carol G. Hawley
10 CAROL ANN HAWLEY, CITY CLERK

11 The above and foregoing ordinance was first proposed and
12 read by title to the City Council on the 19th day of November,
13 1986, and referred to the following committee composed of
14 Councilmen Nolen and
15 Bunker for recommendation; thereafter the
16 said committee reported favorably on said ordinance on the 17th
17 day of December, 1986, which was a regular meeting of
18 said Council; that at said regular meeting, the proposed
19 ordinance was read by title to the City Council as first intro-
20 duced and adopted by the following vote:

21 VOTING "AYE" Councilmen: Levy, Lurie, Nolen and Mayor Briare

22 VOTING "NAY" Councilmen: NONE

CITY OF LAS VEGAS STREET NAMING
AND ADDRESS ASSIGNMENT REGULATIONS
(1986 Edition)

ARTICLE ONE - DEFINITIONS

Bubble Street - A type of cul-de-sac which measures no more than 100 feet from the point of radius of the turnaround to the centerline of the connecting street.

Directional Prefix - The portion of a street name which indicates the primary direction of the street.

Primary Name - The portion of a street name which is neither a directional prefix or a suffix. Such as:

(East)	<u>Charleston</u>	(Blvd.)
directional prefix	primary name	suffix

Residential, commercial or industrial complex - A residential, commercial or industrial development having three or more units per lot.

Street - Any public or private right-of-way, unless the context requires a different meaning.

Suffix - That portion of a street name which indicates that it is a right-of-way, such as "Street", "Avenue", "Lane", "Road", "Circle", "Court", "Way", etc.

ARTICLE TWO - STREET NAMING GUIDELINES & DISPLAY REQUIREMENTS

I. GENERAL RESTRICTIONS ON USE OF NAMES

- A. A street name combination (Primary name and suffix) may be used only once and may not be used in any other alignment.
- B. Once a name is assigned to any alignment, it may not change anywhere along the extension of that alignment, regardless of jurisdiction, unless the subject segment does not and cannot in the future connect to an existing street segment along the alignment.
- C. Names that are the same, or are pronounced the same or similarly with different spellings, may be used only once (e.g. Ellis or Allice, Allen or Alan, Hinson or Henson).
- D. In the case of compound street names (composed of more than one word), repetition of one of the words in the compound name will be permitted not more than 10 times (e.g. Woodhaven, Woodcrest, Woodland, Woodlawn, Parkdale, Fawndale, Rettingdale, Rosedale, etc.).
- E. Only the common spelling of street names will be accepted (e.g. Jane not Jayne, Green not Greene).
- F. Street names in a foreign language will not be accepted unless their meaning is polite and reasonable.
- G. Due to the physical restrictions of the size of standard street name signs and the capabilities of various emergency services' computers, street names are restricted to a maximum of 20 letters and spaces (including street name and suffix).
- H. Names that tend to be slurred or difficult to pronounce may not be used.

- I. Directional prefixes (e.g. east, west) shall not be used unless the street actually crosses existing north-south or east-west boundaries (see figure 1).
- J. Directions are not permitted as street names or as part of the street name proper (e.g. South Hampton).
- II. USE OF SUFFIXES
- A. When used, "Avenue" shall represent a generally east-west street.
- B. When used, "Street" shall represent a generally north-south street.
- C. For cul-de-sacs which are not an extension of an existing street, the suffix shall be either "Court" or "Circle."
- III. GUIDELINES AND CONFIGURATIONS FOR STREET NAMING
- A. Offset Alignments
1. When a street changes its alignment at an intersection by no more than 150 feet, it shall take on the name of the original alignment to provide traffic and addressing continuity (see figure 2A).
 2. When a street changes its alignment at an intersection and then returns to its original sectional alignment, it shall retain the same name (see figure 2B).
- B. Straight Streets
1. A newly developed street shall assume the name of the street on which it aligns unless the street does not and cannot in the future connect to an existing street segment along the alignment (see figure 3A).
 2. A separate street name shall be assigned to any new street which is neither in alignment with, nor an extension of, any existing street (see figure 3B).
 3. Once a street name is assigned to a particular alignment, it may not be assigned to any other alignment (see figure 3C).
- C. Cul-De-Sacs and Bubbles
1. When a cul-de-sac is located at the end of an existing street right-of-way or alignment, it shall be given the name of that street, including the suffix, whether the cul-de-sac is straight, curves, or meanders (see figure 4A).
 2. When two cul-de-sacs are located in such a manner as to be connected to each other by a straight or arcing street right-of-way (connecting street) which is more or less perpendicular to an adjoining street alignment, forming a "T", said cul-de-sacs and the connecting street shall be given the same name if the connecting street bears no addresses (see figure 4B).
 3. When two cul-de-sacs approach each other from opposite directions and are in the same alignment, but do not join in any manner, they shall be assigned different street names (see figure 4C).

4. When two cul-de-sacs are in direct alignment, bisected perpendicularly by a street, the cul-de-sacs shall be assigned one name (see figure 4D).
5. When a bubble is located off any given street, it shall assume the name and numbering of the street which it adjoins (see figure 4E).

D. Circles, horseshoes and loops

1. A circular or horseshoe-shaped street shall not be assigned the same or similar primary name as that of the principal street it intersects (see figure 5A).
2. A horseshoe-shaped street shall be split into two or more street names. Whenever possible, the name change shall occur at natural breaking points, such as intersections (see figure 5A).
3. When circular streets are segmented into halves or quarters by intersecting streets, then each quadrant street shall be assigned a different name not to be duplicated in any other quadrant (see figure 5B).
4. In the case of loop streets having only one access, each segment of the loop must bear the same name (see figure 5C and Section I(C) of Article III).

E. Curvilinear Streets

1. A street which leaves its alignment by not more than 150 feet shall retain the name of the original alignment (see figure 6A).
2. A street which leaves its alignment by more than 150 feet but returns to its original section alignment shall use the name of the original alignment (see figure 6B).
3. A street which leaves its alignment by more than 150 feet may retain the name of the original alignment if it continues in the same general direction and the original alignment cannot be extended at some later date (see figure 6C).

IV. STREET NAME DISPLAY REQUIREMENTS

- A. It shall be the developer's responsibility to provide and install street signs in accordance with City requirements.
- B. In addition to the street name, street name signs shall identify the appropriate hundred block. In the case of cul-de-sacs, the address range shall be identified.

ARTICLE THREE - ADDRESS ASSIGNMENT GUIDELINES &
DISPLAY REQUIREMENTS

I. STANDARD ADDRESS ASSIGNMENT GUIDELINES

- A. Addresses shall be assigned within the appropriate hundred block in accordance with LVMC Chapter 13.28.
- B. For the purpose of address assignment, curved streets shall be treated as if they were straight.
- C. Lots fronting on a loop street shall be addressed without regard to the change in direction. The numbers

assigned shall be within the address range available within the appropriate hundred blocks along the primary direction of the loop. The addresses shall be assigned starting at the entrance to the loop and continuing counter-clockwise around the outside of the loop, with the opposite even or odd numbers being assigned continuously around the inside of the loop.

II. STANDARD ADDRESS DISPLAY REQUIREMENTS

- A. Requirements for commercial or industrial developments with less than three units per lot
 - 1. All addresses shall be conspicuously displayed, in a color contrasting with the background, either on a free-standing sign or attached to the building.
 - 2. All numbers must be clearly visible to traffic in either direction from the street to which each unit is addressed. Buildings having parking and access areas provided at their side or rear shall have additional numbers displayed on the building in a manner visible from any and all such parking and access areas.
 - 3. Size requirements - address displays located no farther than 100 feet from the curb line of the street shall have numbers of not less than eight inches in height. Address signs set back more than 100 feet shall have numbers of not less than twelve inches in height.
- B. Requirements for residential developments with less than three units per lot
 - 1. All addresses shall be conspicuously displayed, in a color contrasting with the background, on a mailbox and either on a free-standing sign or attached to the building.
 - 2. All numbers must be clearly visible to traffic in either direction from the street to which each unit is addressed.
 - 3. Size requirements - Address displays located no farther than 25 feet from the curb line shall have numbers not less than three inches in height. If the only address display for a unit is farther than 25 feet from the curb line, the numbers shall not be less than six inches in height.

C. Duty to Procure & Display Numbers

It shall be the duty of the developer to procure and display address numbers and signs. Final approval of any building or unit shall be withheld until the required numbers and signs have been permanently displayed.

III. ADDRESS ASSIGNMENT IN RESIDENTIAL, COMMERCIAL AND INDUSTRIAL COMPLEXES

A. Preferred Addressing System (Except Apartments)

- 1. All separate and distinct commercial developments having multiple tenant accommodations (shopping centers, medical centers, industrial parks, etc.), or residential condominiums or townhouses shall be assigned an address (street number, direction (if

necessary), street name) for each development corresponding to the appropriate hundred block. This address shall be called the "General Address."

2. All buildings or major physical divisions within a development shall have an address assigned to each building or major division corresponding to the appropriate hundred block. This building or division address shall be called the "Building Address." When the development is composed of only one building, the General Address and the Building Address shall be one and the same. The General Address may be assigned to minor accessory buildings throughout the complex. The addition of another building(s) to such a development shall require the creation of an additional Building Address(es) and the creation of a new and separate General Address. When more than one address is assigned, the main building may have the same address as the General Address if specifically required by the developer and agreed to by the City. When there are sufficient numbers available for all buildings and appurtenant structures, the Building Address shall be assigned to the primary dedicated street from which the major ingress and egress occurs, and no Building Address may be assigned to any private street in the development. Should there not be sufficient numbers available on said primary street, the Building Address may be assigned to a private street.
3. All units within any building or major division shall be assigned a unique number which represents the level or story of each unit within its building and a unit number. This address shall be referred to as the "Unit Address." An alphabetic suffix to the unit address may be assigned if a straight numeric arrangement proves unworkable for the specific application.

B. Alternate Address System

1. All apartment buildings, apartment complexes and other separate and distinct residential and commercial developments having multiple tenant accommodations, (shopping centers, medical centers, industrial parks, etc.) or condominiums or townhouses shall be assigned an address (street number, direction, street name) corresponding to the appropriate hundred block. This development address shall be called the "General Address."
2. No "Building Address" shall be assigned.
3. All units within a development shall be assigned a unique number which represents the level or story of each unit within its building and a unit number. This address shall be referred to as the "Unit Address." An alphabetic suffix may be assigned if a straight numeric arrangement proves unworkable for the specific application.

C. Unit Addressing (see figure 7)

1. For 99 or fewer units/floor, assign numbers starting at the primary entrance and continuing counter-clockwise as follows:
 - a. Single Story: 1-99
 - b. Multi-Story: 101-199, 201-299, etc.

2. For more than 99 units/floor, assign numbers starting at the primary entrance and continuing counter-clockwise as follows:
 - a. Single Story: 1-999
 - b. Multi-Story: 1001-1999, 2001-2999, etc.
3. Unit address numbers shall not exceed five characters including an alphabetic suffix. Projects which are large enough to create the possibility of larger unit address numbers will be assigned numbers on a case-by-case basis while holding to as many of the established standards as possible.

IV. ADDRESS DISPLAY REQUIREMENTS IN RESIDENTIAL, COMMERCIAL AND INDUSTRIAL COMPLEXES

A. Preferred Address System Display

1. Single General Display - All individual building addresses, or the range of those addresses (e.g. 5300-5360) contained in a given development, shall be conspicuously displayed, in a color contrasting with the background, either on a free-standing sign or attached to an appropriately located building.
2. Individual Display
 - a. All building numbers must be clearly visible to traffic in either direction from the primary street to which each building is addressed.
 - b. The building address shall be conspicuously displayed, in a color contrasting with the background, either on a free-standing sign or attached to the building.

B. Alternate Address System Display

The general address for the development shall be conspicuously displayed, in a color contrasting with the background, either on a free-standing sign or attached to an appropriately located building. The range of unit addresses contained within each building shall be displayed in the same manner. The unit address ranges must be clearly visible from the street which serves as the primary access to the building.

C. Directional Signs

1. An orientation of buildings within a given development which obscures certain buildings from the primary street to which said development is addressed and from parking and access areas will require the placement of directional signs.
2. A directional sign shall be required at each primary entry to the obscured buildings.
3. Each directional sign shall carry appropriate address(es) or a range of addresses and a directional arrow or location instructions as the minimum direction information.

D. Additional Signs

Buildings having parking and access areas provided at their side or rear may be required to have additional numbers displayed on the building so as to be visible from any and all such parking and access areas.

E. Size Requirements

1. General address and building address signs located no farther than 100' from the curb line of the street shall have numbers of not less than eight inches in height. Address signs set back farther than 100' shall have numbers of not less than twelve inches in height.
2. "Directional Signs" shall have numbers of not less than six inches in height.
3. "Additional Signs" shall have numbers of not less than six inches in height.
4. Unit numbers shall be permanently displayed near the appropriate entrance, having numbers a minimum of three inches in height.

F. All address numbers and signs must be illuminated at night, either individually or by street lights, security lights, etc.

G. Duty to Procure and Display Number

It shall be the duty of the developer to procure and display the address numbers and signs. Final approval of any building or unit constructed in a residential, commercial or industrial complex shall be withheld until the numbers and signs required have been permanently displayed.

ARTICLE FOUR - STREET NAMING & ADDRESS ASSIGNMENT PROCEDURES

I. NEW SUBDIVISION DEVELOPMENTS

Street names and address numbers will be assigned through the subdivision review process.

A. Tentative Map Review

1. All proposed street names must be indicated on the Tentative Map.
2. Street names will be checked for acceptability. They must conform with the provisions of these regulations and LVMC Chapter 13.28 and must be approved by the Fire Alarm Office and the Post Office.

B. Final Map review

1. Street names are confirmed.
2. Any unusual addressing requirements will be specified.

C. Pre-Recording Procedure

Plats will not be sent for recording until clearance is received from the Fire Alarm Office and Post Office regarding the proposed street names.

D. Post-Recording Procedure

1. The developer shall furnish a reproducible copy and the required number of paper copies of the recorded plat to the City's Department of Community Planning and Development.

2. The Department of Community Planning and Development will assign address numbers on the recorded plat, will return an addressed copy to the developer and will send new addresses to the utility companies and various public agencies.
3. The developer is required to furnish copies of the plats with address and unit numbers to the Fire Alarm Office and the Post Office.
4. The developer is responsible for furnishing a reduced copy (8½" x 11") of the plat with address and unit numbers to the Fire Alarm Office, the Post Office and the Las Vegas Metropolitan Police Department Planning Bureau.
5. New street names and address ranges will be sent to Clark County to be entered into the DIME file.

E. Permit Approval

Assigned address numbers are required information on all building permits and utility connection applications.

II. OTHER DEVELOPMENTS

- A. Addresses will be assigned through the building permit review process.
- B. For residential, commercial and industrial complexes, which are not recorded subdivisions, the developer is responsible for furnishing an 8½" x 11" copy of the complex layout, showing address and unit numbers, to the Fire Alarm Office, the Post Office and the Las Vegas Metropolitan Police Department Planning Bureau.
