The Board of Commissioners of the City of Las Vegas, Nevada, do ordain as follows:

SECTION 1. An excavation permit must first be secured from the Director of Public Works of the City of Las Vegas before any person, partnership, corporation, association, or others makes any excavation in any public street, alley, way, or easement. Permits must be secured at least twenty-four (24) hours prior to the beginning of the excavation, provided however that if an emergency arises necessitating an immediate excavation during the hours when the Department of Public Works office is not open for business, the person making such excavation must notify the Police and Fire Departments of the City, giving the location of the excavation, the time when the same will be made, and the extent thereof. A permit shall be secured from the Department of Public Works on the next succeeding business day, whether the emergency work has been completed or not.

SECTION 2. All pavement replacement will be completed by the Department of Public Works, unless special permission is given by said department for completion of the street surface restoration.

SECTION 3. All excavations must be made and completed in accordance with the Code of Standard Specifications for Public Improvements (Ordinance 621). All pavement cuts shall be outlined with vertical edges. Backfill shall be completed by mechanical compaction, with 90% density. All trenches shall be made safe for traffic at the completion of backfill.

SECTION 4. A charge shall be made for each permit and for the restoration of streets, alleys, public ways, and easements in accordance with city specifications for sewer, water, gas or other public utility excavations consistent with the type of pavement in existence at the time of the street cut and setting forth the schedule graded on the size of the cut, and with a minimum cost for each permit.
