Summary: Amends the Supplemental Document to the Uniform Fire Code, 1991 Edition, to establish additional procedures and requirements for development-related blasting activities.

THE CITY COUNCIL OF THE CITY OF LAS VEGAS DOES ORDAIN

AS FOLLOWS:

SECTION 1: That certain document entitled "A Supplemental Document Amending the Uniform Fire Code, 1991 Edition," adopted as Part II of Title 16, Chapter 16 of the Municipal Code of the City of Las Vegas, Nevada, 1983 Edition, is hereby amended by adding thereto the following provisions:

Article 77 of the Uniform Fire Code is amended by adding thereto a new Division V, consisting of Sections 501 to 505, inclusive, reading as follows:

Division V. Development-Related Blasting Activities

Section 77.501 This Division establishes procedures and requirements applicable to blasting activities that are undertaken in connection with excavation or development.

All other provisions of this Article 77 shall apply to such activities as well, except in the event

1 of conflict, in which case the provisions of this Division shall govern.

2 **Section 77.502** (a) A blasting permit is required for any proposed
3 excavation or development activity that will involve the use of explosives. The permit must be
4 obtained by the blasting contractor before any blasting activity occurs. The application shall be
5 made to the fire department on a form supplied by the department. Upon proper filing of the
6 application, the fire department shall refer the application to the blasting committee established
7 pursuant to Section 77.503.

8 (b) Notwithstanding the provisions of Subsection (a) of this
9 Section, the fire department may authorize a blasting activity by permit or otherwise, without
10 prior review by the blasting committee, if an authorized representative of the fire department
11 determines that emergency remedial action is necessary to protect health, safety or property. The
12 emergency permit or authorization shall be reviewed by the blasting committee at a subsequent
13 meeting.

14 (c) The application for a blasting permit shall be accompanied
15 by a site plan of the area proposed for blasting, and proof that the applicant has been properly
16 licensed by the State Fire Marshal and in compliance with all requirements of the Nevada Revised
17 Statutes.

18 **Section 77.503** (a) There is hereby established a blasting
19 committee, which shall consist of two representatives from the fire department and one
20 representative from each of the following departments of the City: Community Planning and
21 Development, Public Works, and Building and Safety. One of the representatives from the fire
22 department shall be the chairperson of the committee.

23 (b) The blasting committee shall have the authority to review
24 permit applications to determine the applicant's compliance with the application requirements and
25 the applicant's ability to conduct blasting activities in a safe manner and in compliance with this
26 Code.

1 (c) The blasting committee shall approve or disapprove a permit
2 application within 5 working days after receipt of an application. The committee may impose
3 conditions to mitigate any possible impacts of the blasting activity, including time limits on the
4 activity and on the effectiveness of the permit.

5 (d) The issuance of a permit pursuant to Section 77.504 does not
6 preclude the blasting committee from investigating any blasting activity and, as a result thereof,
7 supplementing or modifying permit conditions or revoking a permit when the committee
8 determines such action is warranted.

9 **Section 77.504** Upon approval by the blasting committee of a permit
10 application, the fire department shall issue a permit. The permit is site-specific, nontransferable
11 and shall be limited in time to a period not to exceed 6 months, or such shorter period as may be
12 specified by the committee. The committee may approve an extension of the permit for good
13 cause shown.

14 **Section 77.505** The blasting contractor shall comply with the following
15 requirements in connection with any blasting activity governed by this Division:

16 (a) The contractor shall conduct or provide for inspections of
17 neighboring properties upon which are located structures in close proximity to the blasting area,
18 or when otherwise required by condition of the blasting committee prior to blasting operations;

19 (b) The contractor shall provide a minimum of 24 hours' prior
20 written notice to all residences, businesses and public uses within 1000 feet of the blasting area.
21 The contractor shall also provide a minimum of 24 hours' prior written notice to any utility
22 company that has facilities within 300 feet of the blasting area. The form and content of any such
23 notice must be consistent with a standard notice approved by the blasting committee.

24 (c) Except as otherwise authorized in advance by the blasting
25 committee for good cause shown, all blasting activities shall be limited to the hours of 8 a.m. to
26 4 p.m., Monday through Friday.

1 (d) The contractor shall provide for the monitoring of any blasting
2 that occurs within 1000 feet of any structure or within 300 feet of any utility installation. Such
3 monitoring must be done by a seismologist and shall measure blast-induced vibration by means
4 of an instrument that senses and records particle velocity in the three mutually perpendicular axes.
5 Sound levels shall also be recorded. Monitoring results shall be reported to the chairperson of
6 the blasting committee.

7 (e) Blast-induced, ground-borne vibrations shall not exceed a
8 single component peak particle velocity (vector sum) of 0.5 inches per second (ips) at the nearest
9 occupied structure.

10 (f) The contractor shall be responsible for removing and cleaning
11 up any blast-related debris from the blast site and from adjacent properties.

12 SECTION 2: Section 77.103 of the Uniform Fire Code, 1991 Edition, as
13 amended by that certain document entitled "A Supplemental Document Amending the Uniform
14 Fire Code, 1991 Edition," adopted as Part II of Title 16, Chapter 16 of the Municipal Code of
15 the City of Las Vegas, Nevada, 1983 Edition, is hereby amended by deleting from said Section
16 77.103 Subsection (c) thereof, in its entirety.

17 SECTION 3: Whenever in this ordinance any act is prohibited or is made
18 or declared to be unlawful or an offense or a misdemeanor, or whenever in this ordinance the
19 doing of any act is required or the failure to do any act is made or declared to be unlawful or an
20 offense or a misdemeanor, the doing of such prohibited act or the failure to do any such required
21 act shall constitute a misdemeanor and upon conviction thereof, shall be punished by a fine of not
22 more than \$1,000.00 or by imprisonment for a term of not more than six months, or by any
23 combination of such fine and imprisonment. Any day or any violation of this ordinance shall
24 constitute a separate offense.

25 SECTION 4: If any section, subsection, subdivision, paragraph, sentence,
26 clause or phrase in this ordinance or any part thereof is for any reason held to be unconstitutional

1 or invalid or ineffective by any court of competent jurisdiction, such decision shall not affect the
2 validity or effectiveness of the remaining portions of this ordinance or any part thereof. The City
3 Council of the City of Las Vegas, Nevada, hereby declares that it would have passed each section,
4 subsection, subdivision, paragraph, sentence, clause or phrase thereof irrespective of the fact that
5 any one or more sections, subsections, subdivisions, paragraphs, sentences, clauses, or phrases
6 be declared unconstitutional, invalid or ineffective.

7 SECTION 5: All ordinances or parts of ordinances, sections, subsections,
8 phrases, sentences, clauses or paragraphs contained in the Municipal Code of the City of Las
9 Vegas, Nevada, 1983 Edition, in conflict herewith are hereby repealed.
