THE CITY COUNCIL OF THE CITY OF LAS VEGAS DOES HEREBY
ORDAIN AS FOLLOWS:

SECTION 1: Title 6, Chapter 20, of the Municipal Code of the City of Las Vegas, Nevada, 1983 Edition, is hereby amended by adding thereto a section reading as follows:

The City Council makes the following findings:

(A) On October 5, 1992, Congress enacted the Cable Television Consumer Protection and Competition Act (92 ACT), empowering local franchising authorities to regulate rates in accordance with rules to be promulgated by the FCC.

(B) On May 5, 1993, the FCC promulgated rules granting the City of Las Vegas, in its capacity as franchising authority, power to regulate rates for cable television basic services and related equipment, in the absence of effective competition.

(C) Effective competition as defined by Congress is not present in the City

1 of Las Vegas.

2 (D) On January 26, 1994, the City of Las Vegas filed with the FCC a
3 petition for certification to regulate basic service rates and related equipment charges. Pursuant
4 to FCC regulations the City of Las Vegas was deemed certified on or about March 1, 1994, to
5 regulate these rates and charges.

6 (E) On December 5, 1979, the City of Las Vegas entered into an eighteen
7 (18) year non-exclusive Franchise Agreement, including a two (2) year option to renew clause,
8 with Community Cable TV (dba Prime Cable) authorizing the business of installing, operating and
9 providing a cable communications system.

10 SECTION 2: Title 6, Chapter 20, of the Municipal Code of the City of Las
11 Vegas, Nevada, 1983 Edition, is hereby amended by adding thereto a section reading as follows:

12 (A) The rules promulgated by the FCC pursuant to the Cable Television
13 Consumer Protection and Competition Act adopted by Congress on October 5, 1992, published
14 at 47 CFR 76.900 et seq., as may be amended from time to time, are hereby adopted and
15 incorporated by reference in their entirety. The provisions set forth in Sections 2 through 7 are
16 intended to be consistent with these rules and shall be interpreted to that effect.

17 (B) A copy of the FCC rules referred to in Subsection (A) shall be kept at
18 the Cable Administrator's office.

19 (C) A cable communications company shall timely file with the City all
20 basic service rate and related equipment charge justification documentation as required by the
21 FCC rules referred to in subsection (A).

22 SECTION 3: Title 6, Chapter 20, of the Municipal Code of the City of Las
23 Vegas, 1983 Edition, is hereby amended by adding thereto a section reading as follows:

24 As franchising authority, the City, in the administration of the FCC
25 regulations, shall not authorize changes in rates or accept existing rates as being justified for basic
26 cable services or related equipment, either at the request of a cable communications company or

1 the Cable Administrator, without public notice and a public hearing as herein after provided:

2 (A) The public notice of proposed rate changes or existing rate justification
3 must:

4 (1) Inform members of the public that written comments on existing

8 (2) Include a statement of the present rates for basic cable services
9 and related equipment, and the proposed changes, if any, to these rates;

10 (3) State that additional information may be obtained from the cable
11 communications company or Cable Administrator, depending on who made the request for change
12 in rates or the request to justify existing rates; and

13 (4) Be given by any person requesting the rate change or seeking
14 to justify existing rates within thirty days following the filing of either request, by two of the three
15 following methods:

16 (a) Inclusion in the regular bill of charges to the cable
17 communications company customers;

18 (b) Separate mailing to each of the cable communications
19 company customers; or

20 (c) Prominent presentation in one or more forms of the
21 media, such as newspapers, television or radio. A cable communications company franchised by
22 the City must permit the Cable Administrator to include in its customer bill of charges or on its
23 public television information channels the public notice required by this Section without charge
24 to the City.

25 (B) A public hearing on the request for rate change or on a request seeking
26 to justify existing rates shall be conducted by the City Council, not less than thirty days after a

1 request for rate change or rate justification is filed by the Cable Administrator or the cable
2 communications company with the City Clerk's Office, in conjunction with the adoption of an
3 ordinance setting forth rates determined by the City Council to be just and reasonable for basic
4 cable services and related equipment consistent with the mandate of Congress and the FCC rules.

5 SECTION 4: Title 6, Chapter 20, of the Municipal Code of the City of Las
6 Vegas, Nevada, 1983 Edition, is hereby amended by adding a section thereto reading as follows:

8 rules, files with the City documentation in justification of its current rates for basic cable service
9 and related equipment, but such documentation is facially incomplete, the Cable Administrator
10 shall order the cable communications company to furnish the missing information. Until the
11 requested information is received from the cable communications company, the deadline imposed
12 on the City's approval of the reasonableness of the rates will be suspended and extended, in
13 accordance with the FCC rules, for a period of time equal to the actual time it takes the cable
14 communications company to furnish the requested information. If the facially incomplete
15 documentation is filed by the cable communications company in justification of a request for an
16 increase in rates for basic cable service and related equipment, the Cable Administrator shall
17 summarily deny the request and notify the cable communications company of the reasons for the
18 denial.

19 (B) In the event the Cable Administrator requests clarification of or
20 substantiating information regarding the information contained in the documents filed by the cable
21 communications company in accordance with Subsection (A) of this Section or Section 5, the City
22 may delay, in accordance with FCC rules, final action on the justification of the rates being
23 charged or a request to change such rates, if the information sought is of such significance as to
24 delay examination of the rest of the rate justification promptly. A cable communications company
25 shall provide all information requested by the City pursuant to this subsection within ten calendar
26 days following receipt of the request.

1 (C) A cable communications company which fails to file a request seeking
2 justification of its basic cable service and related equipment rate currently being charged its
3 customers in accordance with FCC rules will be considered by the City to be non-responsive and

Summary: Authorizes the City of Las Vegas, as a franchising authority, to set rates for basic cable service and related equipment in accordance with FCC rules adopted pursuant to the Cable Television Consumer Protection and Competition Act, enacted by Congress on October 5, 1992.

THE CITY COUNCIL OF THE CITY OF LAS VEGAS DOES HEREBY
ORDAIN AS FOLLOWS:

SECTION 1: Title 6, Chapter 20, of the Municipal Code of the City of Las Vegas, Nevada, 1983 Edition, is hereby amended by adding thereto a section reading as follows:

The City Council makes the following findings:

(A) On October 5, 1992, Congress enacted the Cable Television Consumer Protection and Competition Act (92 ACT), empowering local franchising authorities to regulate rates in accordance with rules to be promulgated by the FCC.

(B) On May 5, 1993, the FCC promulgated rules granting the City of Las Vegas, in its capacity as franchising authority, power to regulate rates for cable television basic services and related equipment, in the absence of effective competition.

(C) Effective competition as defined by Congress is not present in the City

1 of Las Vegas.

2 (D) On January 26, 1994, the City of Las Vegas filed with the FCC a
3 petition for certification to regulate basic service rates and related equipment charges. Pursuant
4 to FCC regulations the City of Las Vegas was deemed certified on or about March 1, 1994, to
5 regulate these rates and charges.

6 (E) On December 5, 1979, the City of Las Vegas entered into an eighteen
7 (18) year non-exclusive Franchise Agreement, including a two (2) year option to renew clause,
8 with Community Cable TV (dba Prime Cable) authorizing the business of installing, operating and
9 providing a cable communications system.

10 (F) On April 25, 1994, the City of Las Vegas, in accordance with FCC
11 regulations, notified Prime Cable of its FCC certification to regulate rates of basic cable service
12 and related equipment charges.

13 SECTION 2: Title 6, Chapter 20, of the Municipal Code of the City of Las
14 Vegas, Nevada, 1983 Edition, is hereby amended by adding thereto a section reading as follows:

15 (A) The rules promulgated by the FCC pursuant to the Cable Television
16 Consumer Protection and Competition Act adopted by Congress on October 5, 1992, published
17 at 47 CFR 76.900 et seq., as may be amended from time to time, are hereby adopted and
18 incorporated by reference in their entirety.

19 (B) A copy of the FCC rules referred to in Subsection (A) shall be kept at
20 the Cable Administrator's office.

21 (C) A cable communications company shall provide all information
22 requested by the City in the exercise of its regulatory authority to set just and reasonable rates
23 pursuant to this Chapter within ten calendar days following receipt of the request.

24 SECTION 3: Title 6, Chapter 20, of the Municipal Code of the City of Las
25 Vegas, 1983 Edition, is hereby amended by adding thereto a section reading as follows:

26 As franchising authority, the City, in the administration of the FCC

1 regulations, shall not authorize changes in rates or accept existing rates as being justified for basic
2 cable services or related equipment, either at the request of a cable communications company or
3 the Cable Administrator, without public notice and a public hearing as herein after provided:

4 (A) The public notice of proposed rate changes or existing rate justification
5 must:

6 (1) Inform members of the public that written comments on existing
7 rates or proposed rate changes will be made part of the record of the public hearing required by
8 this Section if received by the City Clerk's Office within thirty days after public notice is given
9 in accordance with this Section;

10 (2) Include a statement of the present rates for basic cable services
11 and related equipment, and the proposed changes, if any, to these rates;

12 (3) State that additional information may be obtained from the cable
13 communications company or Cable Administrator, depending on who made the application for
14 change in rates or the application to justify existing rates; and

15 (4) Be given by any person requesting the rate change or seeking
16 to justify existing rates within thirty days following the filing of either application, by two of the
17 three following methods:

18 (a) Inclusion in the regular bill of charges to the cable
19 communications company customers;

20 (b) Separate mailing to each of the cable communications
21 company customers; or

22 (c) Prominent presentation in one or more forms of the
23 media, such as newspapers, television or radio. A cable communications company franchised by
24 the City must permit the Cable Administrator to include in its customer bill of charges or on its
25 public television information channels the public notice required by this Section without charge
26 to the City.

1 (B) A public hearing on the application for rate change or on an application
2 seeking to justify existing rates shall be conducted by the City Council, not less than thirty days
3 after an application for rate change or rate justification is filed by the Cable Administrator or the
4 cable communications company with the City Clerk's Office, in conjunction with the adoption of
5 an ordinance setting forth rates determined by the City Council to be just and reasonable for basic
6 cable services and related equipment consistent with the mandate of Congress and the FCC rules.

7 SECTION 4: Title 6, Chapter 20, of the Municipal Code of the City of Las
8 Vegas, Nevada, 1983 Edition, is hereby amended by adding a section thereto reading as follows:

9 (A) In the event a cable communications company, in accordance with FCC
10 rules, files with the City documentation in justification of its current rates for basic cable service
11 and related equipment, but such documentation is facially incomplete, the Cable Administrator
12 shall, within five days of the filing date of the documentation, order the cable communications
13 company to furnish the missing information. Until the requested information is received from the
14 cable communications company, the deadline imposed on the City's approval of the reasonableness
15 of the rates will be suspended and extended, in accordance with the FCC rules, for a period of
16 time equal to the actual time, not to exceed five days, it takes for the Cable Administrator to
17 request the information plus the time it takes the cable communications company to furnish the
18 requested information. If the facially incomplete documentation is filed by the cable
19 communications company in justification of an application for an increase in rates for basic cable
20 service and related equipment, the Cable Administrator shall summarily deny the application and
21 notify the cable communications company of the reasons for the denial.

22 (B) In the event the Cable Administrator requests clarification of or
23 substantiating information regarding the information contained in the documents filed by the cable
24 communications company in accordance with Subsection (A) of this Section or Section 5, the City
25 may delay, in accordance with FCC rules, final action on the justification of the rates being
26 charged or an application to change such rates, if the information sought is of such significance

1 as to delay examination of the rest of the rate justification promptly.

2 (C) A cable communications company which fails to file an application
3 seeking justification of its basic cable service and related equipment rate currently being charged
4 its customers in accordance with FCC rules will be considered by the City to be non-responsive
5 and in default. In such event, the City may find that the company's basic cable service and
6 related equipment rates to be unreasonable.

7 SECTION 5: Title 6, Chapter 20, of the Municipal Code of the City of Las
8 Vegas, Nevada, 1983 Edition, is hereby amended by adding a section thereto reading as follows:

9 Cable communications company applications seeking a rate change or
10 justification of existing rates for basic cable services or related equipment shall be filed with the
11 City Clerk's Office and the Cable Administrator's Office. An application of the Cable
12 Administrator seeking a rate change for basic cable service or related equipment must be filed
