UNIFORM STANDARD SPECIFICATIONS FOR PUBLIC WORKS CONSTRUCTION
OFF-SITE IMPROVEMENTS, CLARK COUNTY AREA, NEVADA, 1976

In 1966 the first Uniform Standard Specifications for Public Works Construction were written and adopted for use by all public entities in Southern Nevada. These specifications have provided the background for improved construction practices and better quality control.

During the past 18 months we have been in the process of rewriting these specifications to cover new construction practices and update material and testing methods.

A representative of the Public Works staff, Douglas Peterson has worked on the Technical Staff which has aided in the writing of these revised specifications.

The draft copy was submitted to the utility companies, the Associated General Contractors, and the Southern Nevada Homebuilders Association for their review and comment.

The Technical Committee of the Regional Street and Highway Commission of Clark County which is composed of the Public Works Administrators from the 4 cities and Clark County has recommended that these standard specifications be approved.

The Regional Street and Highway Commission of Clark County on July 15, 1976 approved these specifications for use on all Regional Street and Highway Commission projects. We are requesting each entity to adopt these specifications by resolution so the date and resolution number can be included in the printed book.

RESOLUTION

WHEREAS, it has been recognized that the existing Codes, Ordinances, and other pertinent regulations for public works construction in the various political subdivisions in the County of Clark, State of Nevada, have been inadequate, incomplete, confusing, contradictory, and did not provide equal facilities throughout the County, and

WHEREAS, appropriate officials from the various political subdivisions in Clark County took this matter under study to compile uniform standard specifications which could be applicable to public works construction throughout the County without regard to the boundaries of the various political subdivisions located therein, and

WHEREAS, a UNIFORM STANDARD SPECIFICATIONS FOR PUBLIC WORKS CONSTRUCTION, CLARK COUNTY AREA, 1976 has been prepared and submitted for adoption by the various political subdivisions in Clark County to facilitate such construction in an orderly and equal manner throughout the County;

NOW, THEREFORE, BE IT RESOLVED, that the City of Las Vegas, accepts and approves the UNIFORM STANDARD SPECIFICATIONS FOR PUBLIC WORKS CONSTRUCTION, CLARK COUNTY AREA, 1976 attached hereto; and

BE IT FURTHER RESOLVED that the appropriate officers of the City of Las Vegas Commission are hereby authorized and directed to take such action as is necessary and appropriate to indicate and effectuate such approval.

- ✓ City Attorney - Carl Lovell
- Department of Public Services - Larry Hampton
- EMC/dmk

REGIONAL STREET and HIGHWAY COMMISSION

07/21/76

Mrs. Edwina Cole

Page 2

Transmitted with this letter is a sample resolution of the type used by the Regional Street and Highway Commission of Clark County.

Also transmitted with this letter is one copy of the specifications for your files. When adopted these will be printed in a book form and copies will be made available.

I will be happy to appear before your Commission to discuss this with them.

Mayor Briare: The order of business, ladies and gentlemen - we are now back in session - will be to make one request and one statement to Mr. Brechler, who is the Director of the Regional Street & Highway Commission. Then we are going to take the remaining items on the agenda in the order of what would appear to be of the greatest interest to the people who are here, namely, the reconsideration of the Valley Hospital matter and, following that, the application for the YMCA.

Mr. Brechler, would you come forward, please?

Commissioner Woofter: Thank you, Your Honor. I know this is sort of out of context but, like most of us, we have this and that to do and sometimes it escapes our mind.

Since Mr. Brechler is here, I would ask the Commission at this time for consideration of adopting a Resolution to send to Mr. Brechler, to encourage that not in the future, but in the immediate future, that the Regional Street & Highway Commission consider whatever development is needed to go into a Plan at the present time - to see that it is done - for the increase of Lake Mead Blvd. to a 4-lane roadway wherever, whenever is possible in that regard.

I do know that most of the Lake Mead Blvd. roadway going toward Colville Bay and the Lake Mead area is certainly out of our jurisdiction as a City Commission, but certainly we have representation on the Regional Street & Highway Commission in Mayor Briare and Commissioner Lurie and I would like the Commission, as a whole, to go on record and encourage our representation, as well as the Planning Commission as a whole, to get to work as soon as possible to enlarge Lake Mead Blvd.

As we all know, there was a serious accident wherein five lives, I believe, were lost caused by the fact that - possibly speeding - I don't know - but I do know that I travel it to a great extent and many of you in the audience travel it to a great extent going to the Lake, and there is a definite need at this time - not in the sometime future - to increase this roadway to four (4) lanes all the way to the Lake.

I would therefore at this time request the Commission to consider adopting a Resolution to encourage our members on the Regional Street & Highway Commission, as well as the Commission itself, to go to work right away as to seeing to the feasibility of developing this immediately.

Mayor Briare: Are there any questions or comments relative to adopting such a Resolution?

Commissioner Christensen: Yes - can we include the Federal Government and the National Park Services in that Resolution? They control a large piece of that at the other end and I think they should also made a part of any such Resolution.

Mr. Brechler: I think we should qualify this - that East Lake Mead Blvd. from the end of the present 4-lane portion to the North Shore Road.

Commissioner Christensen: That's what we had in mind - that would include the National Park Services for roughly half of it, wouldn't it?

Mr. Brechler: A good portion of it - I couldn't say if it is half -

Mayor Briare: If the Resolution is adopted, perhaps we might

LAKE MEAD
BLVD. -
PROPOSED
WIDENING

LAKE MEAD
BLVD.
(continued)

refer it to Mr. Hampton, who is a member of the Technical Committee for the Regional Street & Highway Commission, and he could put it into its proper form to submit to the Regional Street & Highway Commission - also to the Park Services and also the Bureau of Reclamation.

Are there any further questions or comments on the motion?

(No response).

Please cast your vote on the preparation of such a Resolution.

Motion carried by the following vote:
Commissioners Christensen, Leavitt, Woofter,
Lurie and Mayor Briare voting aye; noes, none.

R E S O L U T I O N

WHEREAS, a great many citizens of the Las Vegas Valley use and depend upon Lake Mead Boulevard to travel to and from the Lake Mead Recreation Area and,

WHEREAS, there is a great need for an adequate facility to provide a safe route for an increasing number of motorists using this route and,

WHEREAS, several serious accidents have recently occurred on said route and the outlook for the future is bleak without highway improvements and,

WHEREAS, it is imperative that plans be started immediately to effect a timely solution to the problem and,

THEREFORE BE IT RESOLVED, that the Board of City Commissioners for the City of Las Vegas, meeting in regular session on the 16th day of June, 1976, does hereby unanimously request that the agency responsible for Lake Mead Boulevard from the end of the 4-lane section near Mt. Hood Street to its intersection with the North Shore Road be requested to take immediate steps to improve said facility by widening it wherever possible to accommodate four lanes of traffic.

BE IT FURTHER RESOLVED, that copies of this Resolution be sent to the Regional Streets and Highway Commission, Nevada Highway Department, Board of County Commissioners of County of Clark, and the National Park Service inasmuch as it is desirable that all responsible agencies work together to effectuate a timely solution to this problem.

BE IT FURTHER RESOLVED, that the Regional Streets and Highway Commission be requested to coordinate this effort inasmuch as it is the logical body to deal with such a regional problem.

ADOPTED AND APPROVED this June 16 1976

William H. Briare
WILLIAM H. BRIARE, MAYOR
