STAFF PRESENT:

Howard Null, Chief, Planning Division  
Robert C. Clemmer, Acting Chief, Zoning Division  
Harry VonBusch, Planner  
Val Steed, Deputy City Attorney  
Linda Owens, Recording Secretary

ANNOUNCEMENT:

MR. FOSTER stated the agenda for this regular meeting of the City Planning Commission has been posted and mailed in accordance with NRS Chapter 241 and affidavits are on file in the office of the Department of Community Planning and Development.

REZONING CONDITIONS:

MR. FOSTER read the normal conditions that would apply to any approved rezoning items heard at this meeting.

MINUTES:

MRS. COLEMAN made a Motion for APPROVAL of the Minutes for August 11, 1983 with the following correction: Page 5, Item 6, VAC-9-83, Line 9 should read "approved" instead of "improved." Motion for APPROVAL carried unanimously.

OLD BUSINESS:

1. Z-100-64(131)

(Abeyance Item  
from 9/8/83)

Request of HOPPE REALTY, INC. for a Plot Plan Review to construct a commercial building on property generally located on the southwest corner of 1st Street and Bonneville Avenue, R-4 Zone (under Resolution of Intent to C-2).

PLOT PLAN REVIEW

This item was withdrawn by the applicant.

WITHDRAWN

2. Z-59-82

(Abeyance Item  
from 9/8/83)

PLOT PLAN REVIEW

APPROVED

Request of TIME DEVELOPMENT for a Plot Plan Review to construct a temporary doctor's office on property generally located on the north side of West Oakley Boulevard, between Arville Street and Marcus Drive, R-1 Zone (under Resolution of Intent to P-R).

MR. FOSTER stated this item was held in abeyance from the previous meeting because the applicant was not present. This proposal involves a request for a temporary office facility which will be two mobile homes put together to be used for a doctor's office while the medical facility is being constructed on the westerly portion of the property. When the temporary office is removed, the balance of the lot will be used for parking. The applicant is requesting a six-month time period. Staff would not accept the temporary facility if it was for a long duration, but since it will only be in existence for six months, it would not oppose it. Therefore, staff would recommend approval, subject to: 1) Conformance to the plot plan and elevations, 2) This use shall cease March 8, 1984 and the temporary office shall be removed, and 3) Standard Condition No. 8.

DR. LARRY FOREMAN, 5701 West Charleston Boulevard, appeared for the application on behalf of the Clark County Physicians. They are in the process of constructing a 19,000 square foot professional plaza building on this site. Due to the termination of their lease at the Red Rock Medical Center, they are in need of a facility until the professional plaza building is completed. The building should be ready in 3 months.

GORDON ROBERTS, 1013 Ron Evans, appeared to represent Time Development. They have made arrangements for their long-term financing.

MR. FOSTER stated Condition No. 2 should be amended to read: "or completion of the new building, whichever is sooner."

MR. JOHNSTON made a Motion for APPROVAL of Z-59-82, Plot Plan Review, subject to staff's conditions with the amendment to Condition No. 2.

Voting was as follows:

"AYES" Vice Chairman Mack, Mr. Johnston,  
Mr. Guthrie, Mrs. Coleman  
"NOES" None

Motion for APPROVAL carried unanimously.

NEW BUSINESS:

1. Z-84-83

APPROVED

Application of METROPOLITAN DEVELOPMENT CORPORATION for reclassification of property generally located on the east side of Rainbow Blvd. between Charleston Blvd. and Alta Dr., from R-1 (Single-Family Residence) to R-CL (Single-Family Compact Lot).  
Proposed Use: Medium Density Single-Family Residences  
(Detached)

Mr. Foster stated this parcel is the south end of the Metropolitan parcel. They own property up to Alta on the north, Rainbow on the west, and Lorenzi on the east. The parcel to the north was approved for R-CL zoning recently. At the time that parcel was approved, they indicated that on this parcel they would request a higher density, but have changed their minds and submitted this application for R-CL. They are proposing 102 lots. All the access will be on Lorenzi for

1. Z-84-83

(Continued)

this application. When the zoning request for the parcel to the north was heard before the City Council, the smaller home containing 922 square feet was deleted and the next larger size home became the minimum size with about 1,150 square feet. Staff feels this requirement should be applied to this remaining parcel. Staff would recommend approval, subject to: 1) Resolution of Intent with a twelve-month time limit, 2) Conformance to the plot plan and elevations amended to provide for minimum 18 foot curb cuts and driveway widths to provide two parking spaces on each site, 3) Standard conditions 6 through 8, 4) Install street improvements on Lorenzi Blvd. and sidewalk on Rainbow Blvd. as required by Engineering Services, 5) Approval of the drainage from the two culverts through this property as required by the Department of Engineering Services. Staff does not have any protests on record.

G. C. WALLACE, Wallace Engineering, 1100 East Sahara Avenue, appeared to represent the applicant. They are in accord with staff's recommendations. The setbacks and elevations of the homes will be attractive so the homes will be readily marketable.

No one appeared in opposition.

Proposed Use: 150-Unit Motel.

MR. FOSTER stated this is the parcel just south of the alley where the Vacation was approved in Item 11 on the north side of Bonanza. They are proposing a 150-unit motel on the parcel. On the corner at Las Vegas Boulevard and Bonanza they are proposing a 4,000 square foot casino, which is not part of this application. The motel will be four stories with off-street parking on the ground level. This parcel is all C-2, except for the center portion. The general zoning pattern in this area is C-2. Staff would recommend approval, subject to: 1) Resolution of Intent with a twelve-month time limit, 2) Conformance to the plot plan and elevations amended in the following manner: a. Provision of two-way access from the most easterly curb cut permitted by the Traffic Engineer, and b. 13. Z-77-83  
APPROVED

Application of CAVA, INC. for reclassification of property generally located on the northwest corner of 8th Street and Charleston Boulevard (721 East Charleston Boulevard), from R-4 (Apartment Residence) to C-1 (Limited Commercial).  
Proposed Use: Commercial Shopping Complex

MR. FOSTER stated this has been an office complex for a long time by means of a Use Permit. They want to rezone it to C-1 so they can have retail sales. There is C-1 and C-2 zoning in this area. They have 49 off-street parking spaces which meets the Code requirement. Staff would recommend approval, subject to: 1) Resolution of Intent with a twelve-month time limit, 2) Conformance to the plot plan amended to provide landscaping along the street frontages in the waste spaces as required by the Department of Community Planning and Development, and 3) Standard Condition No. 8. Staff has one protest on record who is primarily concerned about the parking situation.

DR.E.F. CAVA, 3021 Alta Drive, appeared for the application. There will be small shops in the shopping complex with a sign in the front of the complex.

No one appeared in opposition.

MR. JOHNSTON made a Motion for APPROVAL of Z-77-83, subject to staff's conditions.

Mr. Guthrie, Mrs. Coleman

Motion for APPROVAL carried unanimously.

VICE CHAIRMAN MACK announced this item would be heard by the City Council on October 19, 1983.

14. Z-78-83  
DENIED

Application of WALLACE S. WALTERS for reclassification of property located at 614 Willow Trail, from C-2 (General Commercial) to R-3 (Limited Multiple Residence).  
Proposed Use: Medium-High Density Residential  
(Five-Unit Apartment Building)

MR. FOSTER stated this property is located in an area the City inherited from the County containing C-2 zoning. It extends about 660 feet from the center of Rancho Drive and runs parallel to the highway and crosses property lines, which has caused problems in the area primarily because many of the properties have been developed with single-family homes. There is a single-family home on this site. However, at the south end of Willow Trail some of the property was rezoned to R-3 for apartments and on the

(Continued)

west side of Willow Trail at the south end there is an R-2 pattern. Immediately south of this site there was a rezoning to R-1. Staff recommends abeyance until the General Plan Update is completed, which will determine the ultimate land use pattern for this area. Staff has 10 protests and 1 approval on record.

WALLACE S. WALTERS, 614 Willow Trail, appeared for the application. He prefers to proceed with the R-3 rezoning or build on the present C-2 zoning rather than hold this item in abeyance. He feels the proposed five-unit building will be more compatible with the area than the thirteen-unit building he would be allowed in the C-2 zoning.

STAN STEELE, S. E. Steele Designing, 40 Elena Avenue, Riverside, California, appeared on behalf of the applicant. They may have a problem with their financing if this item was held in abeyance until January.

VICTOR HARLAN, 617 Willow Trail, appeared in protest. There is a problem in the area with water pressure and with increased density there will be an even greater problem. Ned Barker of the Fire Department advised him there is not enough water pressure to take care of any additional density. The nearest fire hydrant is 600 feet and 300 feet is the minimum distance.

There were six persons in the audience in protest.

MR. FOSTER said the Fire Department indicated that fire hydrants would have to be installed in accordance with the current fire codes and water for fires would have to be determined when final construction plans are submitted.

MARY DIXON, 618 Willow Trail, appeared in protest. This building will create additional traffic for the area.

GLADYS COLLINS, Village Realty, 3900 West Charleston Blvd., appeared on behalf of the applicant because she sold this property to Mr. Walters several years ago. These units will be condominiums and not rentals.

STAN STEELE AND WALLACE S. WALTERS appeared in rebuttal. They had a letter from the Eastland Heights Water Association advising that the water service in the area is ample to supply this building as well as the entire area. They will have to comply with the water requirements or the City will not let them proceed with construction. They still prefer to proceed with this application and not hold it in abeyance.

MR. GUTHRIE made a Motion for DENIAL of Z-78-83.

Voting was as follows:

"AYES" Vice Chairman Mack, Mr. Johnston,  
Mr. Guthrie, Mrs. Coleman  
"NOES" None

Motion for DENIAL carried unanimously.

VICE CHAIRMAN MACK announced this item would be heard by the City Council on October 19, 1983.

15. Z-79-83

APPROVED

Application of WENDY'S OF LAS VEGAS, INC. for reclassification of property generally located 155 feet west of Arville Street on the north side of Sahara Avenue, from R-1 (Single-Family Residence) to C-1 (Limited Commercial).  
Proposed Use: Parking Lot Expansion

MR. FOSTER stated this request is west of the existing Wendy's facility on the property. They would like to expand their parking lot to provide for 26 additional spaces. Staff would recommend approval, subject to: 1) Resolution of Intent with a twelve-month time limit, 2) Standard conditions 1 through 8, 3) Install sidewalk on Sahara Avenue as required by the Department of Engineering Services, and 4) Construct a 6 foot block wall along the north property line. Staff does not have any protests on record.

LOU BONFANTE, 4039 Meadow Grove Avenue, appeared to represent the application. They are in accord with staff's recommendations.

No one appeared in opposition.

Voting was as follows:

"AYES" Vice Chairman Mack, Mr. Johnston,

16. Z-80-83

APPROVED

Application of SOL AND SARAH SHAPIRO for reclassification of property generally located on the northwest corner of Eastern Avenue and St. Louis Avenue, from R-1 (Single-Family Residence) to P-R (Professional Offices and Parking).  
Proposed Use: Office

MR. FOSTER stated the applicant is proposing to construct a major addition to the existing residence. The zoning requirement would necessitate a 20-foot front setback which means there has to be a slight reduction in the addition along the St. Louis Avenue side of the property. Staff would recommend approval, subject to: 1) Resolution of Intent with a twelve-month time limit, 2) Conformance to the plot plan and elevations as follows: a. Provide a 20 foot setback from St. Louis Avenue, b. Reduce the 6-foot wall height on the west side to 4 feet with the top 2 feet 50% open in the south 20 feet, c. Shift the north parking spaces westerly to eliminate the space backing on to Eastern Avenue, and 3) Standard conditions 2 through 8. Staff does not have any protests on record.

MICHAEL ASHE, 1638 East Charleston Boulevard, appeared to represent the applicants. They are in accord with staff's recommendations. This will be an insurance office. This property has an Eastern Avenue address.

No one appeared in opposition.

17. Z-81-83  
APPROVED

Application of WALLACE D. AND MAGDALIN R. EKANGER for reclassification of property generally located on the east side of Tonopah Drive between Bonanza Road and Washington Avenue, from R-E (Residence Estates) to R-PD3 (Residential Planned Development).

Proposed Use: Low Density Detached Single-Family  
Residential (Planned Unit Development)

MR. FOSTER stated this property is across from a planned development which has been approved for 17 units per acre. North of that are two R-3 parcels: one is developed on the west side of Tonopah and the other one to the north is vacant. There is R-E to the north of this application and R-E to the east and south. Staff has some concern about the density in this neighborhood. The applicant is proposing to divide this parcel into four lots ranging from 13,000 to 17,000 square feet in size. There is an existing house on the front portion. The R-PD zoning requires a five-acre minimum site and they only have 1.3 acres. Staff feels the waiver is appropriate and would recommend approval of the application, subject to: 1) Resolution of Intent with a twelve-month time limit, 2) Standard conditions 5 through 8, 3) Recording of a parcel map and providing CC&R's on the planned development, 4) Removal of the miscellaneous yard fencing that transcends the property lines, 5) Establish building setback lines on the parcel map, 6) Building elevations shall be approved by the Department of Community Planning and Development, and 7) Install street improvements on Tonopah Drive as required by the Department of Engineering Services. Staff does not have any protests on record.

DAVID EKANGER, 804 North Tonopah Drive, appeared to represent the applicants. They are in accord with staff's conditions.

No one appeared in opposition.

MRS. COLEMAN made a Motion for APPROVAL of Z-81-83, subject to staff's recommendations.

Voting was as follows:

"AYES" Vice Chairman Mack, Mr. Guthrie,  
Mrs. Coleman, Mr. Johnston  
"NOES" None

Motion for APPROVAL carried unanimously.

VICE CHAIRMAN MACK announced this item would be heard by the City Council on October 19, 1983.

18. Z-82-83

APPROVED

Application of BETH JOHNSON and MARCELLA ANN LANE for reclassification of property located at 1904 South Maryland Parkway, from R-1 (Single-Family Residence) to P-R (Professional Offices and Parking).  
Proposed Use: Office

MR. FOSTER stated this is a property on Maryland Parkway where office use is being requested. The three lots to the south have been approved for P-R zoning. There is a small storage building on the premises where they need to have an additional parking space and the applicants have agreed to remove the building. Staff would recommend approval, subject to: 1) Resolution of Intent with a twelve-month time limit, 2) Standard conditions 1 through 8, and 3) Provision of 5 parking spaces. Staff does not have any protests on record.

NANCY TUPPER, 5765 North Campbell Road, and NAN KING, 2020 Fontana, appeared for the applicants. They are in accord with staff's recommendations.

No one appeared in opposition.

MR. JOHNSTON made a Motion for APPROVAL of Z-82-83, subject to staff's conditions.

Voting was as follows:

"AYES" Vice Chairman Mack, Mr. Johnston,  
Mr. Guthrie, Mrs. Coleman  
"NOES" None

Motion for APPROVAL carried unanimously.

VICE CHAIRMAN MACK announced this item would be heard by the City Council on October 19, 1983.

19. Z-83-83

DENIED

Application of KATHLEEN HARDWICK, ET AL for reclassification of property generally located on the north side of Johnson Avenue between Pecos Road and Pearl Street, from R-1 (Single-Family Residence) to R-3 (Limited Multiple Residence).  
Proposed Use: Medium-High Density Residential  
(Apartments)

MR. FOSTER stated there is R-1 to the north and east of this property. There is R-1 and C-1 to the south. To the south-east is multi-family and east of that is R-3 that is developed. To the west is a large parcel of C-1 that is vacant. This request is for 7 two-story fourplexes. All the units will be two bedrooms for a total of 28 units. Staff feels that multi-family should be allowed on the south side of Johnson Avenue and the north side of Johnson Avenue should be R-1. Therefore, staff would recommend denial and has 67 signatures in protest.

JIM KEITH, 1454 San Felipe Drive, appeared for the applicant. Due to the scattered development in the area, they felt this would be the best use of this land to provide moderate income housing.

BOB SCHOFIELD, 154 Greenbriar, appeared to represent the developer as a partner in the development.

DAVID PHILLIPS, 100 North Pecos Street, appeared in protest. This project will devalue the homes in the area. They feel Johnson Avenue should be the dividing line between commercial and residential zoning.

19. Z-83-83

(Continued)

JAMES BANNER, 2223 Poplar, appeared in protest. They do not want any more changes in the area, nor more density.

ROBERT DIETZ, 170 Pecos Drive, appeared in protest. He feels Johnson Avenue should be the dividing line between the residential and commercial properties.

LEONARD LEAVITT, co-owner of the property, appeared stating he has owned this property for five years and has not seen any type of development in the area in that length of time. Tenants prefer to be located on a secondary street such as this property rather than on a main thoroughfare. This will upgrade the area.

MRS. COLEMAN made a Motion for DENIAL of Z-83-83.

Voting was as follows:

"AYES" Vice Chairman Mack, Mr. Johnston,  
Mr. Guthrie, Mrs. Coleman

"NOES" None

Motion for DENIAL carried unanimously.

VICE CHAIRMAN MACK announced this item would be heard by the City Council on October 19, 1983.

20. Z-83-77

PLOT PLAN REVIEW

APPROVED

Request of IRVIN R. REEVES for a Plot Plan Review to allow a storage room addition to the side (west) property line on property located at 621 North Eastern Avenue, C-1 Zone.

MR. FOSTER stated this is a minor addition to an existing commercial building. There is R-1 to the west and the adjoining property owner to the west does not object. There is C-1 to the south. Staff would recommend approval, subject to: 1. Conformance to the revised plot plan and elevations. Staff has one letter of approval.

DENNIS RUSK, architect, 1208 South Eastern Avenue, appeared to represent the applicant. They agree with staff's recommendation.

MR. JOHNSTON made a Motion for APPROVAL of Z-83-77, Plot Plan Review, subject to staff's conditions.

Voting was as follows:

"AYES" Vice Chairman Mack, Mr. Johnston,

OF TIME  
  
APPROVED

Request of BEDFORD CONSTRUCTION COMPANY for an Extension of Time on property generally located on the southwest corner of Decatur Boulevard and Doe Avenue, R-1 and R-3 Zones (under Resolution of Intent to C-1).

MR. FOSTER stated the applicant is requesting a two-year extension. It has been the policy of the City to only allow a one-year extension. This request is due to economic conditions. Staff would recommend approval, subject to: 1) Resolution of Intent be extended to 10/19/84, and 2) Conformance to all ordinance amendments enacted subsequent to the original approval.

BARRY BECKER, 50 South Jones Boulevard, Suite 101, appeared for the application. This zoning also included another strip of land which professional offices have been constructed. They have a plot plan which is acceptable to the residents in the area and are requesting two years so they will be able to utilize their plan. Construction should start this spring.

MR. GUTHRIE commented that if construction is started, it would keep the zoning active.

MR. JOHNSTON made a Motion for APPROVAL of Z-76-79, Extension of Time, subject to staff's conditions.

"AYES" Vice Chairman Mack, Mr. Johnston,  
Mr. Guthrie, Mrs. Coleman

WILMA LITTLEFORD, 6600 Pickford, appeared to represent the application as one of the owners. They need an extension due to lack of funds.

JERRY P. GUMFORY, 5735 Sheila, appeared for the application. He is in agreement with staff's conditions.

Request of GARY GUY WILSON ON BEHALF OF ROBERT LEMMON for a Parking Review on property located at 119 North Maryland Parkway, C-2 Zone.

MR. FOSTER stated this involves a request to reduce the parking on this site. This is on the west side of Maryland Parkway about a half block north of Fremont Street. They are proposing a 59-unit apartment project and would like to provide 50 parking spaces, which is 9 less than the ordinance requires. However, the ordinance says the parking can be reduced to 1 space for every 2 units upon approval by the City. Staff would recommend approval, subject to: 1) Conformance to the plot plan and elevations. This will be a three-story building with parking underneath and around the periphery to the north.

RICHARD HERMAN, Gary Guy Wilson Architects, appeared for their client. They concur with staff's recommendation. There will be 47 studio apartments and 12 one-bedroom apartments.

MR. GUTHRIE made a Motion for APPROVAL of PK-2-83, Parking Review, subject to staff's condition.

AND EXTENSION  
OF TIME  
APPROVED

MR. FOSTER stated this request is for an office complex. When the applicant came in for a building permit, he discovered his zoning had expired on this property, but he was within the reinstatement period. Staff would recommend approval, subject to:  
1) Resolution of Intent shall expire October 19, 1984,

PLOT PLAN  
REVIEW

APPROVED

Request of JOHN T. MORAN, JR. for a Plot Plan Review on  
property generally located on the northwest corner of  
4th Street and Garces Avenue, R-4 Zone (under Resolution  
of Intent to C-2).

MR. FOSTER stated this is a proposed two-story office  
building. The plot plan proposes some tandem parking,  
which is not recognized by the ordinance. They only  
have five off-street parking spaces. With the amount of  
building area, it would require 19 spaces. They are  
proposing satellite parking at the Valley Bank building parking  
lot across the alley to the northwest. It would require City Council  
action on the satellite parking. Staff would recommend  
approval of this plot plan under the Downtown Resolution.  
Staff would recommend approval, subject to: 1) Conformance  
to the plot plan and elevations amended to shift the  
building 10 feet westerly, 2) Nineteen parking spaces  
shall be provided as required by Code prior to construction,  
and 3) Standard conditions 2 through 8.

JOHN T. MORAN, JR., applicant, and MICHAEL MORRIS, general  
contractor, appeared for the application. They concur with  
staff's recommendations.

MR. JOHNSTON made a Motion for APPROVAL of Z-100-64(132),  
Plot Plan Review.

Voting was as follows:

"AYES" Vice Chairman Mack, Mr. Johnston,  
Mr. Guthrie, Mrs. Coleman  
"NOES" None

Motion for APPROVAL carried unanimously.

VICE CHAIRMAN MACK announced this is final action.

## INTER-OFFICE MEMORANDUM

September 26, 1983

## TO:

HAROLD P. FOSTER, DIRECTOR

## FROM:

ROBERT C. CLEMMER, ACTING CHIEF  
ZONING DIVISION

## SUBJECT:

PLANNING COMMISSION MEETING OF  
SEPTEMBER 27, 1983

## COPIES TO:

✓CITY CLERK'S OFFICE  
CITY ATTORNEY  
CINDY  
RICKOLD BUSINESS:

## 1. Z-100-64(131)

This item was held from September 8th as the applicant was not represented. The applicant has telephonically indicated that this request would be formally withdrawn.

This is a proposed two story office building with ground floor used for parking, lobby and storage. The second floor office area is only 3,400 sq. ft. and the first floor is 600 sq. ft. which requires 10 spaces. They are providing 12 individually accessible spaces and four locked in tandem. The aesthetics are very good.

Staff recommends APPROVAL subject to:

1. Standard conditions 1-8.

PROTESTS: N/A

NOT A PUBLIC HEARING ITEM. SET FOR P. C. FINAL ACTION.

## 2. Z-59-82

This item was held in abeyance as the applicant was not present at the September 8th meeting.

This proposal is to allow a temporary medical office on the lot immediately east of the office development approved approximately one month ago. When the temporary office is removed the balance of the lot will be incorporated into the office development as parking area. The reason for this is that the major building will not be completed in time for one of the tenants who has to partially vacate an existing location. All of the parking behind will be developed prior to occupancy of the temporary building.

Z-59-82(continued)

The temporary building elevations are not of a quality we would accept for a long duration, but due to the very temporary nature we would not oppose it. The landscaping will be installed in the Oakley planter prior to occupancy. Additional parking is positive (42 spaces).

Staff has no objection. If approved subject to:

1. Conformance to the plot plan and elevations.
2. This use shall cease March 8, 1984 and the temporary office shall be removed.
3. Standard condition #8.

PROTESTS: 0

NOT A PUBLIC HEARING ITEM. SET FOR P.C. FINAL ACTION.

NEW BUSINESS:

1. Z-84-83

This is in keeping with staff's recommendation on the 18 unit per acre and P-R proposal on this site, i.e. R-CL of a density of 6-7 units per acre. There are 54 whole lots plus 10 segments possibly constituting two more lots. Assuming a 56 lot yield this proposal is 6.4 units per gross acre or 7.78 units per the remaining acreage when the major streets are excluded.

As before, although the General Plan maximum population will be slightly exceeded that is a result of past high density developments and in that this is an appropriate land use, the excess is only about 4% which is inconsequential or acceptable. In that this is a minor project the impact data is not being prepared. The protestants in the last R-CL case to the north only opposed the possibility of higher than R-CL density probability which is not the case.

The plans reflect one and two story two and three bedroom detached models with the smallest unit 1,150 sq. ft. Some of the models have no garages or carports and have single land drives. The square footage is appropriate. The lot sizes (40' x 100') require that the driveways be a minimum of 18' wide with corresponding curb cut widths for two individually accessible parking spaces.

Z-84-83(continued)

Staff recommends APPROVAL subject to:

1. Resolution of Intent with a twelve (12) month time limit.
2. Conformance to the plot plan and elevations amended to provide minimum 18' curb cuts and driveway widths to provide two parking spaces.
3. Standard conditions 6-8.
4. Install street improvements on Lorenzi Street and sidewalk on Rainbow Boulevard as required by the Department of Engineering Services.
5. Approval of the drainage from the two culverts through this property by the Department of Engineering Services.

PROTESTS: 0

PUBLIC HEARING ITEM. SET FOR CITY COUNCIL OCTOBER 19, 1983.

12. Z-76-83

This proposal is for a four story 150 room "Motel" which is more of a motor hotel in design. Not a part of this application is a proposed 4,000 sq. ft. casino on the service station site to the west. Included with this proposal, they have filed a Vacation of an easement and right-of-way segments (VAC-13-83). The majority of the property had been rezoned under Z-49-66, but save where the baseball batting facility was located, expired. The easterly 150' which is classified C-1 was not included in that request (measured along the north line).

C-2 is appropriate zoning for this site and with the advent of the east leg of the Freeway (I-515) roadside businesses of this nature will occur in this area. A major entry should be as far east as possible on Bonanza. The four story section should be shifted toward Bonanza as there is single family development to the north. That would keep the building 75' from the north property line rather than 20'. There are windows on the north side.

Staff recommends APPROVAL subject to:

1. Resolution of Intent with a twelve (12) month time limit.
2. Conformance to the plot plan and elevations amended in the following manner:

Z-76-83 (continued)

- (a) Provision of two way access from the most easterly curb cut permitted by the Traffic Engineer.
  - (b) Provision of a 6' block wall along Encanto Drive to restrict access.
3. Approval of and the recording of the Order of Vacation of the alley easement and right-of-way under VAC-13-83.
4. Standard conditions 2-8.
5. Dedication of 10' of right-of-way for Bonanza Road as required by the Department of Engineering Services.
6. Install street improvements as required by the Department of Engineering Services.

PROTESTS: 0 APPROVALS: 2  
PUBLIC HEARING ITEM. SET FOR CITY COUNCIL OCTOBER 19, 1983.

13. Z-77-83

This is a conversion from an R-4 professional office complex to commercial and office use with little change to the existing facilities. There is C-1 to the west and C-2 to the east with P-R to the south and the area north transitioning to offices. C-1 is an appropriate classification. This development occurred prior to landscaping requirements and is devoid of landscaping, yet there are wasted spaces which could be utilized to enhance the appearance. Buildings 9,630 sq. ft., parking provided 49 spaces, okay.

Staff recommends APPROVAL subject to:

1. Resolution of Intent with a twelve (12) month time limit.
2. Conformance to the plot plan amended to provide landscaping along the street frontages in the waste spaces.
3. Standard condition #8.

PROTESTS: *W. J.*  
PUBLIC HEARING ITEM. SET FOR CITY COUNCIL OCTOBER 19, 1983.

14. Z-78-83

This is a proposed five unit development of an 11,634 sq. ft. C-2 lot on Willow Trail (614) which is the area of considerable zoning problems due to the 660' C-2 strip which the County granted thirty years ago. The C-C is awaiting a General Plan study in this area for direction. This is an R-3 density and the design is very good.

Staff recommends that his be held in ABEYANCE until the completion of the General Plan.

Z-78-83 (continued)

If approved subject to:

1. Resolution of Intent with a twelve (12) month time limit.
2. Standard conditions 1-8.
3. Dedication of five (5') feet of right-of-way for Willow Trail as required by the Department of Engineering Services.
4. Install street improvements on Willow Trail as required by the Department of Engineering Services.

15. Z-79-83

This is a request for 45' of additional frontage on Sahara (C-1) to provide 26 more parking spaces. One quarter acre of additional commercial does not affect the General Plan.

Staff recommends APPROVAL subject to:

1. Resolution of Intent with a twelve (12) month time limit.
2. Standard conditions 1-8.
3. Install sidewalk on Sahara Avenue as required by the Department of Engineering Services.
4. Construct a 6' block wall along the north property line.

PUBLIC HEARING ITEM. SET FOR CITY COUNCIL OCTOBER 19, 1983.

16. Z-80-83

This proposed P-R is in keeping with the established pattern along Eastern Avenue. There is P-R to the north, south and east and R-1 to the west. The proposed addition will have to be reduced 5'8" on the south side to hold the required 20' front setback. This expanded building will be 2,288 sq. ft. requiring six (6) spaces, whereas, ten (10) are provided. One story with attractive residential flavor. Shift the north row of parking to avoid backing into Eastern.

Staff recommends APPROVAL subject to:

1. Resolution of Intent with a twelve (12) month time limit.
2. Conformance to the plot plan and elevations as follows:
  - (a) Provide a 20' setback from St. Louis Avenue.

Z-80-83 (continued)

- (b) Reduce the 6' wall height on the west side to 4' with the top 2' fifty percent (50%) open in the south 20'.
- (c) Shift the north parking spaces westerly to eliminate the space backing on to Eastern Avenue.

3. Standard conditions 2-8.

17. Z-81-83

This is a large and excessively deep lot in an area transitioning from R-E to higher densities. There is R-3 to the north end and R-PD17 to the west. The owners on this side of Tonopah did not object to the R-PD17 as they expected the changes to affect their properties.

This site is 1.33 acres so will need the five acre waiver. The parcels will be 13,000 to 17,000 sq. ft. with a private drive for access. The building on the second lot east of Tonopah will be expanded. The chicken yard fencing must be removed. Parcel Map required. C. C. & R's needed and can be obtained during Parcel Map process for maintenance of the private drive. Custom buildings, setbacks variable in R-PD areas. This is still below densities allowed by the General Plan.

Staff recommends APPROVAL subject to:

1. Resolution of Intent with a twelve (12) month time limit.
2. Standard conditions 5-8.
3. Recording of a Parcel Map and C.C. & R's.
4. Removal of the chicken yard fencing transcending the property lines.
5. Establish building setback lines on the Parcel Map.
6. Building elevations shall be approved by the Department of Community Planning and Development.
7. Install street improvements on Tonopah Drive as required by the Department of Engineering Services.

1. Resolution of Intent with a twelve (12) month time limit.
2. Standard conditions 1-8.
3. Provision of five (5) parking spaces.

19. Z-83-83

This proposal is in the south portion of the same block that R-3 was denied at Sunrise Avenue and Pecos Street (Z-63-83). There is C-1 zoning to the west, but R-1 zoning to the north and east. The possibility of R-3 exists to the south. The General Plan analysis does not reflect an overpopulation or excess medium high density zoning or developments, but there are vacant parcels more appropriately located on Charleston, Lamb and Stewart for medium high density developments. Pecos is a minor street. Seven two story, two bedroom fourplexes, parking okay, elevations okay.

Staff recommends DENIAL. If approved subject to:

1. Resolution of Intent with a twelve (12) month time limit.
2. Standard conditions 1-8.
3. Dedicate 30' of right-of-way for Pearl Street and Johnson Avenue and a 15' radius corner at the intersection of Johnson Avenue and Pecos Drive as required by the Department of Engineering Services.
4. Install street improvements on Johnson Avenue, Pecos Drive and Pearl Street as required by the Department of Engineering Services.
5. Provide paved access to Pearl Street from either Johnson Avenue or Sunrise Avenue as required by the Department of Engineering Services.

20. Z-83-77

This is an amendment to the original plan which had a 10,75' setback from the R-1 property to the west. The property owner to the west is in agreement as evidenced by the letter in the file. The 806 sq. ft. addition brings the total building area to 2,106 sq. ft. which requires five spaces and six are provided.

Staff recommends APPROVAL subject to:

1. Conformance to the revised plot plan and elevations.

A Variance has been applied for and approved by the B.Z.A. September 22, 1983 (V-91-83) to allow C-1 type signs and a bank which is scheduled concurrently October 19, 1983 with this item. The primary thrust of this review is the ingress to the property from 6th Street. The major problem staff had with the original plan was that ingress and egress to 6th would involve circulation through the residential area as the special island design at 6th and Charleston precludes left turns. The fact that this is for ingress only would eliminate much of that problem, but a route along 6th from Sahara or from Park Paseo might still generate some traffic. Further, this might be the camel's head under the tent, i.e. if ingress is allowed they might later request egress. They are under construction with no access to 6th Street and the Fire Department and Engineering Services have approved the construction, yet the applicants might say that Fire and Traffic must have this access which is obviously not so.

Staff recommends DENIAL. If approved subject to:

1. Conformance to the plot plan.
2. Provision of one way traffic control spikes allowing ingress only.

There have been several requests for an Extension of Time and several developments of the properties involved in this zoning case. one-half space per unit if approved by the City Council. These are studio and one bedroom units in a three story building. Aesthetics okay. This proposal is 85% of requirement. Recall PK-1-83 across the street was DENIED at 50% on 23 spaces for 46 units.

Staff feels that the 85% rate is more realistic as there are some employment opportunities within walking distance.

This proposal is for a 7,600 sq. ft. office building which requires 19 parking spaces and there are only 5 provided. They show 5 more locked in tandem which do not apply. There is also a problem of the front steps which if constructed as shown would extend 2' over the curb.

This item should be held for revised plans and an agreement to use other parking or the P. C. can approve this as submitted subject to conditions.

Staff recommends APPROVAL subject to:

1. Conformance to the plot plan and elevations amended to shift the building 10' westerly.
2. Nineteen (19) parking spaces shall be provided as required by Code prior to construction.
