MR. FOSTER stated there is developed R-3 to the north and south. To the south there is a four-plex on the property which is owned by the applicant. Farther south at the corner is C-2 zoning for a commercial operation. Directly across the street there is C-2 zoning to Charleston Boulevard. There are five parking spaces off the alley, as well as five spaces off 11th Street that back directly into the street, which will have to be redesigned. There is a commercial zoning pattern evolving to the east that fronts on Decatur. The parcel immediately to the east is in the process of being annexed into the city. The parcel to the north is zoned and developed on an R-3 basis. The parcel to the west is R-PD21. This will be a sixty-unit development. This project has one driveway off Hawk Street and staff feels there should be another access and the zoning should not go any higher than R-3. Staff would recommend approval, subject to: 1) Application being amended to R-3, 2) Resolution of Intent with a twelve-month time limit, 3)

15. Z-38-84

Proposed Use: Medium Low Density Detached
Single-Family Residences

MR. FOSTER stated this involves a 2½-acre site immediately east of the 10-acre site that was approved for R-CL. They are requesting R-CL on the entire parcel. There is developed R-1 to the north, scattered R-1 to the east and south. Staff feels the easterly side of the parcel should be R-1 size lots to be compatible with the R-1 development to the east. Staff would recommend approval, subject to: 1) Resolution of Intent with a twelve-month time limit, 2) Recording of a subdivision map, 3) Application amended to west consisting of 165.5 feet of the north 200 feet for R-CL and the remainder R-1, and 4) Standard conditions 1, 5, 6, 7 and 8. Staff has one protest on record.

16. Z-39-84

(Continued)

CHARLES BRECHLER, 3343 Losee Road, appeared and represented the owner of the property. The lots to the east are narrower than a normal R-1 lot. However, they contain 7,000 square feet. MR. FOSTER stated this involves a site that is in an area that is transitioning to R-3. They are requesting R-3 zoning for the construction of 4 four-plexes. There is R-1 to the north, commercial zoning to the west and south, and developed apartments in an R-3 zone to the east. Staff would recommend approval, subject to: 1) Resolution of Intent with a twelve-month time limit, 2) Conformance to the plot plan and elevations amended to provide a full mansard and provision of a 20-foot rear yard setback unless a setback variance is approved, 3) Dedicate a 15-foot property line radius at Pecos Road and Johnson Avenue as required by the Department of Engineering Services, 4) Install street improvements on Pecos Road and Johnson Avenue as required by the Department of Engineering Services, and 5) Standard conditions 2 through 8. REVIEW OF
CONDITION

APPROVED

Request of LOUDERMILK INVESTMENTS for a Review of Condition to delete Condition 1 pertaining to the screening requirements for the office building on property generally located southwest of Westcliff Drive and Rainbow Boulevard, C-1 Zone.

MR. FOSTER stated this involves a request to eliminate the screening requirement along the westerly portion of the proposed office facility that is on the southwest portion of the shopping center. There are single-family homes that abut the shopping center to the west. The purpose of the screening was so the persons on the second story of the office building would not be able to look into the rear yards of the abutting homes. There is a grade difference between the office building and the R-1 properties. Staff would recommend approval of deleting the screening requirement.

MICHAEL LOUDERMILK, 3803 Monument Street, appeared and represented the application. He showed a rendering of a 6-foot person looking from the office building into the back yards of the abutting homes. The finished elevation of the office building is 4 feet lower than the finished elevation at the bottom of this block wall. The homes are 100 feet away from the office building. The homes are 15 feet from the existing block walls that separate each home, so persons can look into the back yards of the homes from the second story of the homes. He would like to eliminate the screening of the windows.

MR. JOHNSTON made a Motion for APPROVAL of Z-5-69, Review of Condition, to delete the screening requirement.

Voting was as follows:

7. Z-80-83

PLOT PLAN
REVIEW

APPROVED

Request of MICHAEL ASHE for a Plot Plan Review on property generally located on the northwest corner of Eastern Avenue and St. Louis Avenue, P-R Zone.

MR. FOSTER stated this involves a change in the plot plan that was approved when the P-R zoning was approved on this site at the northwest corner of Eastern and St. Louis. There was a variance approved for an addition to the front portion of the property extending closer to St. Louis Avenue. Now they are proposing to remove the structure and construct a new building that is within 5-feet of the north property line. The parking would be off St. Louis Avenue. The property owner to the north indicated he would have a representative in attendance at this meeting to request this item be held in abeyance so he could work out a different plot plan in regard to the 5-foot setback. Staff does not have any objection to holding this item in abeyance.

MICHAEL ASHE, 1638 East Charleston Boulevard, appeared and represented the application. Basically, this will be the same type of building, but the parking and access to the building would be better if they had those at one location rather than all around the building. He spoke to the abutting property owner who was concerned that this proposed building would hide his professional office building.

MR. JOHNSTON made a Motion for APPROVAL of Z-80-83, Plot Plan Review.

Voting was as follows:

"AYES" Chairman Mack, Mr. Johnston, Mr. Kennedy, Mr. Guthrie
"NOES" None

Motion for APPROVAL carried unanimously.

CHAIRMAN MACK announced this item would be heard by the City Council on June 20, 1984.

(Atty. John Foley appeared at the end of the meeting stating the abutting property owner objects to this application.)

8. Z-55-81

PLOT PLAN
REVIEW

APPROVED

Request of DONALD M. KIMBER for a Plot Plan Review of a proposed four-bedroom home on property located at 4233 Blackmon Circle. R-PD2 Zone.

MR. FOSTER stated this involves a change to the rear setback. Initially when the R-PD2 zoning was approved on this site, it showed a 30-foot front setback and a 50-foot rear setback. They are requesting a 40-foot rear setback. Because of the significant yard area to the north, staff feels there wouldn't be any problem with the 40-foot setback. Staff would recommend approval, subject to: 1) Conformance to the revised plot plan.

DONALD M. KIMBER, 8385 South Hauk Street, appeared and represented the application.

MR. GUTHRIE made a Motion for APPROVAL of Z-55-81, Plot Plan Review, subject to staff's condition.

REVIEW

APPROVED

Request of DR. JERRY GUMFORY for a Plot Plan Review on property generally located on the northeast corner of Cheyenne Avenue and Bronco, N-U Zone (under Resolution of Intent to P-R).

WILLIAM DOUGLAS ELY, 3599 Polaris Avenue, appeared and represented the applicant.

MR. JOHNSTON made a Motion for APPROVAL of Z-38-82, Plot Plan Review, subject to staff's condition.

PLOT PLAN
REVIEW

APPROVED

Request of PONDEROSA CONSTRUCTION CO., INC. for a Plot Plan Review to construct a 70-unit apartment project on property generally located on the northeast corner of Garwood Avenue and Torrey Pines Drive, R-3 Zone.

MR. FOSTER stated there is R-1 zoning to the south. On the easterly portion of the R-3 site there is an apartment project just being completed. There is a small vacant parcel between the apartment project and this site. Staff would recommend approval, subject to: 1) Conformance to the plot plan and elevations; 2) Provide a cul-de-sac for Crestline Drive as required by the Department of Engineering Services, and 3) Install half-street improvements to conform to the City's standards and specifications on Garwood and Crestline.

JERRY HILLCREST, 1628 Vegas Valley, appeared and represented Ponderosa Construction Company. They are in agreement with staff's recommendations.

MR. KENNEDY made a Motion for APPROVAL of Z-17-62, Plot Plan Review, subject to staff's recommendations.

Voting was as follows:

"AYES" Chairman Mack, Mr. Johnston, Mr. Kennedy, Mr. Guthrie
"NOES" None

Motion for APPROVAL carried unanimously.

CHAIRMAN MACK announced this item would be heard by the City Council on June 20, 1984.

11. Z-50-83

PLOT PLAN
REVIEW

APPRVED

Request of GREENE & SHROFF, ARCHITECTS, LTD., for a Plot Plan Review on property generally located on the east side of Edmond Street, between El Parque Avenue and O'Bannon Drive, R-E and N-U Zones (under Resolution of Intent to R-PD21).

MR. FOSTER stated this is a revised plot plan with changed elevations. There is enough square footage for a half unit on the overall site and the zoning ordinance allows the

Planning Commission to approve another unit. Staff would recommend approval of the request, subject to: 1) Conformance to the amended plot plan and elevations, and 2) This action constitutes an administrative variance allowing 86 units on this site.

HIMANSH SHROFF, Green and Shroff, architect, 2770 South Maryland Parkway, appeared and represented the applicant.

MR. GUTHRIE made a Motion for APPROVAL of Z-50-83, Plot Plan Review, subject to staff's conditions.

Voting was as follows:

"AYES" Chairman Mack, Mr. Johnston, Mr. Kennedy, Mr. Guthrie
"NOES" None

Motion for APPROVAL carried unanimously.

CHAIRMAN MACK announced this is final action.

12. Z-26-84

ALTERATION
OF CONDITIONS

APPROVED

Request of S.F.S. INVESTMENT COMPANY, ET AL to alter the conditions of approval for zoning application Z-26-84 on property generally located on the north side of Cory Place, between Upland Boulevard and Mohawk Street, as follows:

1. To delete the requirement for R-1 setbacks on the side yards for all R-CL lots (Condition #3).
2. To eliminate providing temporary paved access from this development to Upland Boulevard (Condition #4).
3. To eliminate the requirement that all houses be a minimum of 1,200 square feet in size (Condition #11).
4. Clarify that the required paving on Cory Place to Mohawk and then on Mohawk south to Charleston be of a temporary type and limited to paving only (Condition #12).

MR. FOSTER stated this application was approved by the City Council approximately two months ago. Staff would recommend approval of Item One because the lots are 50 feet wide and this will provide a little more flexibility. In the R-1 zone there is a total setback of 14 feet required and in the R-CL it is 10 feet. In regard to the second item, the property owner to the southwest who had constructed several homes through a parcel map development was going to install street paving. Later it was found that property owner was only required to sign an Assessment District Agreement to put in the paving by the City. There was concern by the property owners to the east about traffic that would be generated east of this development to Mohawk and then south to Charleston creating a dust factor. Based on that, the applicant indicated he would provide temporary paving 25 feet wide, east on Cory and south on Mohawk to Charleston as a condition of approval on the basis that he would not have to put paving in to the west. Normally, when there is no paved access to a development only one means of paved access is required. The developer has agreed to put in the temporary paving for the longer distance. Staff would recommend approval of Item 2. In regard to Item 3, staff feels 1,200 square feet should be required. On Item 4 the temporary paving should be 25 feet wide, 2 inch paving on type 2 base. Staff notified the surrounding property owners of these changes.

12. Z-26-84

(Continued)

DAN KEISERMAN, National Heritage Corporation, 720 South 4th Street, appeared and represented the application. They have one unit that will be 1,152 square feet. By increasing the lot size to 50 feet, the garages could be moved and the houses expanded in order to give a better street scene, which is the reason for removal of the R-1 setback requirement in R-CL lots.

W. H. PAINTER, 2112 DeOsma, appeared in protest. He objected to any small homes facing Cory Place.

NITA BURROWS, 917 Mohawk, appeared in protest. The surrounding property owners would be in agreement to having the R-CL homes at least 1,150 square feet and the larger homes on the outside of this parcel.

DAN KEISERMAN said they will be having their model homes on Cory Place and one of the homes will be an R-CL size.

MR. GUTHRIE made a Motion for APPROVAL on Item 1 to delete the R-1 setback on the side yard.

Voting was as follows:

"AYES" Chairman Mack, Mr. Johnston, Mr. Kennedy, Mr. Guthrie
"NOES" None

Motion for APPROVAL carried unanimously.

MR. GUTHRIE made a Motion for APPROVAL on Item 2 to eliminate temporary paving to Upland Boulevard.

Voting was as follows:

"AYES" Chairman Mack, Mr. Johnston, Mr. Kennedy, Mr. Guthrie
"NOES" None

Motion for APPROVAL carried unanimously.

MR. GUTHRIE made a Motion for APPROVAL on Item 3 that one house on Cory Place can be 1,150 square feet and 1,150 square feet be the minimum on the remaining R-CL lots.

Voting was as follows:

"AYES" Chairman Mack, Mr. Johnston, Mr. Kennedy, Mr. Guthrie
"NOES" None

Motion for APPROVAL carried unanimously.

MR. GUTHRIE made a Motion for APPROVAL on Item 4 as stated by staff.

Voting was as follows:

"AYES" Chairman Mack, Mr. Johnston, Mr. Kennedy, Mr. Guthrie
"NOES" None

Motion for APPROVAL carried unanimously.

DIRECTOR'S BUSINESS:

1. ZONING ORDINANCE
AMENDMENT

APPROVED

Front and side setbacks in the R-MH District.

MR. FOSTER stated the R-MH district allows mobile homes to be placed on R-1 size lots. Those setbacks are different from the R-1. They require a 10 foot front, 10 foot side setback, where the R-1 has a 20 foot front and a total of 14 feet side yard setback. Staff is recommending the R-MH zone have the same front and side setbacks as the R-1 zone.

MR. JOHNSTON made a Motion for APPROVAL of the Zoning Ordinance Amendment.

Voting was as follows:

"AYES" Chairman Mack, Mr. Johnston, Mr. Kennedy, Mr. Guthrie
"NOES" None

Motion for APPROVAL carried unanimously.

2. PLANNING
COMMISSION
MEETING

APPROVED

Consider cancelling the June 26, 1984 meeting.

MR. FOSTER stated that earlier this year it was decided to allocate the second meetings in June, July and August to implementing the new General Plan. Since no other items are scheduled for the June 26 meeting, staff would recommend the second meeting in June be cancelled because the General Plan will not be completed until the latter part of the summer.

MR. JOHNSTON made a Motion for APPROVAL of cancelling the City Planning Commission meeting of June 26, 1984.

Voting was as follows:

"AYES" Chairman Mack, Mr. Johnston, Mr. Kennedy, Mr. Guthrie
"NOES" None

Motion for APPROVAL carried unanimously.

NEW BUSINESS:

11. Z-33-84

This proposal is to add a lot immediately south of the approved four-story office building approved for Nick Pandelis. There have been several rezonings and a variance in the creation of this site. This lot will add 10 additional parking spaces. It appears that he might be modifying the site plan slightly due to this increase in area but that is not a part of this request and would have to be handled as a separate plot plan review. This 50'x 142' addition to the southeast corner of the site is in keeping with the special activity center plan for the area and established zoning pattern.

Staff recommends approval subject to:

1. ROI with a 12 month time limit.
2. Install sidewalk on Shadow Lane as required by the Department of Engineering Services.

Standard conditions 1-8

CC: 7/5/84

12. Z-35-84

Mark Bivins followed our recommendation and requested P-R rather than C-1 for office use. The new community profile reflects service commercial limited to office. The zoning pattern in the area has office to the south, a parking lot to the east and a fourplex to the north. This is in keeping with the area and the proposed general plan.

Staff recommends approval subject to:

1. ROI with a 12 month time limit.
2. Install street lighting as required by the Dept. of Engineering services.

13, Z-36-84

This proposal is for offices only but we have a C-1 pattern to the north and south so it is appropriate. Attractive elevations. Parking required.

Staff recommends approval subject to:

14. Z-37-84

This proposal model area for a larger R-CL development north and west is in an area shown as medium density in the proposed community profile. The site plan reflects 20' setbacks but a note indicates 16 is possible, but 18' should be required. There are no elevations. The site is less than 5 acres so requires a waiver by the City Council.

Staff recommends approval subject to:

1. ROI with a 12 month time limit.
2. Conformance to the site plan amended to provide a minimum 16' setback from the front property line to any proposed garages.
3. Approval of the building elevations by the Dept. of Community Planning and Development.
4. Dedicate 10' of right-of-way for Westcliff Drive as required by the Department of Engineering Services.
5. Install street improvements on Westcliff Drive as required by the Department of Engineering Services.

Standard conditions 5-8

PROTESTS:

CC: 7/5/84

15. Z-38-84

This proposal is north of a 60 unit project that was annexed from the County as R-4, to the north Tiberti was granted R-3 and sought a variance for a higher density than R-3 which was denied. R-3 allowed 49 units on the Tiberti site, An R-3 density will occur to the west of this site on a 5 acre parcel. There are 4 two story apartment buildings containing 16 two bedroom units and 54 one bedroom units. Parking is according to Code and the buildings are attractive.

Staff would recommend that two units on the southeast and two units on the southwest be eliminated for a total of 56 units which is a middle position between the 60 units to the south and the 49 units permitted to the north. There is an R-4 pattern which eliminates the spot zoning implications. In the Tiberti case we had prospective 10 units per acre north and west.

Staff recommends approval of R-3 subject to:

1. ROI with a 12 month time limit.
2. Conformance to the plot plan amended to reduce the number of units to an R-3 density.
3. Reduce the wall height in the required front yard to 4' with the top 2' 50% open.
4. Dedicate 30' of right-of-way for El Parque Avenue and Hawk Street and the radius corner at El Parque and Hawk as required by the Department of Engineering Services.
5. Install street improvements on El Parque and Hawk as required by the Department of Engineering Services.

Standard conditions 2-8

PROTESTS:

CC: 7/5/84

16. Z-39-84 There is R-1 to the south, north and east and R-C1 was granted to the west. Interestingly, this design allows all lots to be 6,500-7,000 square feet which is the area requirement for R-1. The proposed buildings are aesthetically okay.

Staff recommends approval subject to:

1. ROI with a 12 month time limit.
2. Recording of a subdivision map.
3. The application be amended to the west 165.5 of the north 200' with the balance remaining R-1.

Standard conditions 1, 5, 6, 7 & 8

PROTESTS:

CC: 7/5/84

17. Z-40-84 There is commercial to the south and R-3 to the east. This is in keeping with the zoning pattern in the area. The buildings are two story - two bedroom fourplexes. They are set too close to the rear property line. A waiver was granted to the east for the rear setback. The 1/4 mansard does not screen the roof mechanics effectively.

Staff recommends approval subject to:

1. ROI with a 12 month time limit.
2. Conformance to the plot plan and elevations amended to provide a full mansard and provision of a 20' rear yard setback unless a setback variance is approved.
3. Dedicate a 15' property line radius at Pecos Road and Johnson Avenue as required by the Department of Engineering Services.

18. He will provide window boxes and beam appliques to the wall. A public hearing should not be necessary.

Staff recommends approval subject to:

1. Condition #2 of the resolution is hereby amended to "Conformance to the plot plan and elevations amended to provide window boxes and Tudor style beam appliques to the north side of the two north buildings and provide added landscaping along the Vegas Drive side of the property as required by the Department of Community Planning and Development."

19. Z-5-69 The 12/11/80 PC and the 1/12/81 CC actions provided that the view from the second stories on the south and west sides of the office buildings be obscured as required by the department. The veterinarians office installed a door with plain glass which staff required to be changed to bathroom window type glass prior to finalizing. We received a complaint relative to openings and advised those people of the condition. Staff feels that a hearing be conducted as we went from a one story plan to the two story office without rehearing but with the view obstruction provision. 4. Z-24-81 This is the third request for an extension of time. No reason cited.

Staff recommends approval subject to:

- ✓ 1. Extension of Time shall expire July 6, 1985.

NOT A PUBLIC HEARING

CC: 7/5/84

7. Z-80-83 This involves the shifting of the building from the southeast corner where a variance was granted for proximity, i.e., closer than 20', to the north side of the property. I asked the applicant to obtain a waiver of notice statement from the adjacent property owners as it is a major change. I received a call from the property owner to the north so he is attempting that so if we get statements from those property owners we won't have to notify. Staff feels that the amended plan is acceptable but would want the adjacent property owners input. North and west property owners aware of June 14, 1984 meeting. R-1 approves.

Staff recommends approval subject to:

- ✓ 1. Conformance to the revised plot plan.

PROTESTS:
MODIFIED PUBLIC HEARING

CC: 6/20/84

8. Z-55-81 This is an R-PD2 development limited to R-1 accessory buildings and setbacks. They are proposing a 40' rear yard setback which is less than the 50' shown on the original plan. PC and CC have the right to authorize. Close call. Staff does not see any problem and would therefore recommend approval subject to:

- ✓ 1. Conformance to the plot plan.

PROTESTS: N/A
NOT A PUBLIC HEARING

CC: 7/5/84

9. Z-38-82 This is a major elevation change but the building is attractive. The plot plan basically is the same. The applicant is aware that the sign is improper. The property owners signed letters in the file agreeing to the changes.

Staff recommends approval subject to:

1. Conformance to the revised elevations.

PROTESTS: N/A
NOT A PUBLIC HEARING

PC FINAL

10. Z-17-62 A parcel map is pending on the creation of this site and it properly puts the easterly portion together with the apartment project to the east. The landscaped area is R-1 zoned. The 40' distance on the south is an access easement connecting the apartment area to Crestline and Torrey Pines Drive. The parcel will contain 4.96 acres but 4.6 area of R-3, 1 and 2 story buildings but the second floor will be part of first floor units. Ample parking and buildings are attractive. There are 70 units proposed which is 60% of allowed density.

Staff recommends approval subject to:

1. Conformance to the plot plan and elevations.

2. Provide a cul-de-sac for Crestline Drive as required by the Department of Engineering Services.

3. *see test 2*
PROTESTS: N/A

NOT A PUBLIC HEARING

CC: 6/20/84

11. Z-50-83 This proposal contains 86 units and the site contains 4.62 acres net. 18.49999×4.62 acres is 85.47 units. Planning Commission can allow the last full unit by administrative variance. The buildings are two story, two bedroom units and are attractive. Parking is adequate.

Staff recommends approval subject to:

1. Conformance to the amended plot plan and elevations.

2. This action constitutes an administrative variance allowing 86 units on this site.

PROTESTS: N/A
NOT A PUBLIC HEARING

PC FINAL

12. Z-26-84 This proposal to modify conditions will require CC approval.

#1 - the amendment to 5' R-CL setbacks should present no problem.

#2 - the paved access to Charleston via Mohawk should be sufficient for this 58 unit tract.

#3 - the 1,200 square foot minimum house size requirement should be allowed to be reduced but only to the degree that it compares favorably with other developments within the area.

#4 - the paving of Cory from Barton Street to Mohawk Street and Charleston Boulevard be of a temporary type as approved by the Department of Engineering Services.

Staff recommends approval of Items 1, 2 and 4 and denial of item #3 (1,200 sq. ft. reduction) subject to:

1. Amend Condition #3 of the resolution to read, "Front and rear R-1 setbacks shall apply to all R-CL lots".

2. Condition #4 of the resolution is hereby expunged.

3. Condition #11 of the resolution is amended to read, "Houses to be a minimum of _____ square feet".

4. Condition #12 of the resolution is amended to read, "The paving of Cory Place from Barton Street to Mohawk Street to Charleston Boulevard be of a temporary type a minimum of 25' wide with 2' a/c on a 6" Type II Base.
