EL AL

Application of SUNBELT BUILDERS, INC. ET AL for reclassification of property generally located on the south side of Owens Avenue, between Sandhill Avenue and Lamb Boulevard, from R-E to R-PD9.

Proposed Use: Single-Family Residential

Staff recommends APPROVAL, subject to:

1. Resolution of Intent with a twelve-month time limit.
2. Installation of street improvements on Owens Avenue and Lincoln Street, Van Buren Avenue and Spino Avenue, as required by the Division of Land Development and Flood Control of the Department of Community Planning and Development.

4. Standard conditions 1 - 8.

PROTESTS: 0

Bugbee -
APPROVED, subject to staff's conditions and amending the application to R-PD8.
Unanimous
(Coleman and Tracy excused)

MR. WILLIAMS said staff and the applicant have worked out a revised plan. The property to the east is R-PD9. They plan to build zero lot line single-family dwellings on each lot. Many of the lots are narrower than what the R-CL zone would require. Most of the lots are 30' to 35' wide. The R-CL zone requires that one-third of the lots be 40' wide. Because of the abnormal depth of the lots, which vary from 135' to 140' deep, even though they are narrow, they meet the minimum 4,000 square foot size. Each unit will be one story and contain two bedrooms/two baths. Each unit will have 924 square feet of living area. There will be a carport in the front for parking. The application can be amended to R-PD8 due to the revised plot plan.

DAVID CAUSEY, Causey Engineering, appeared and represented the applicant. They plan to follow the soils report in total and are in agreement with staff's recommendation.

No one appeared in protest.

To be heard by the City Council on 4-3-85.

MR. NULL stated this section of Oakey Boulevard has an existing right-of-way of 80 feet with a constructed street section of 60'. The Department of Design and Development indicates that due to the recent installation of a sanitary sewer in the south half of Oakey, they would need 5' of this 10' requested for vacation for a possible future storm drain. MR. WILLIAMS stated this property lies on the east side of Tenaya Way. It is an approved R-CL zoning with R-E zoning on the west side of the property. This is their first request for an Extension of Time. Staff would recommend approval.

G. C. WALLACE, Wallace Engineering, 1555 South Rainbow Boulevard, appeared and represented the applicant. They have been in negotiations with the Water District. Before they can commence construction they have to resolve the problems with the Water District, which could be over a year. Therefore, they would like a two-year Extension of Time.

MR. WILLIAMS stated this is a review of their parking requirement. This is the third phase of the Rhett Butler apartment development.
