Rick Williams stated the intent of the home occupations provisions is to allow restricted commercial uses which are clearly incidental to the main residential use and that most of the business activity be performed within the dwelling. Staff feels the proposed business clearly exceeds the intent of the ordinance. Staff recommends denial.

Michael McLean appeared. He stated he made his appointments and kept his files there.

Rick Williams stated staff could find no justification for supporting this request. The applicant has ample room in the rear of the property to construct this shade roof. Because the shade roof structure has been constructed next to the wall, a portion of this structure is also in the right-of-way. Staff recommends denial.

Unanimous
(Ashworth excused)

Rick Willams stated that in each of the 20 buildings the second floor units have a mezzanine above the main living area. The overall hieght of the building, to the peak of the roof, is 37 feet. There are no windows in the mezzanine area so the outside appearance is that of a two story building with a high pitched roof. Staff does not find the mezzanine objectionable, however, there is no justification to support the extra two feet. Staff recommends denial.

Ernie Becker, Jr., appeared. He stated he had met with people in the neighborhood and read into the record the conditions he was willing to do as stated above.
