

R E S O L U T I O N

TO ADOPT RECOMMENDATIONS FOR IMPLEMENTING WATER CONSERVATION PRACTICES AND PROMOTING WATER CONSERVATION EFFORTS IN COOPERATION WITH THE ENTITIES OF CLARK COUNTY, NEVADA.

WHEREAS, the rapid growth of the population and the limited supply of water in Clark County make the conservation of water resources vital to ensure the future growth, prosperity, health and safety of Southern Nevada; and

WHEREAS, outdoor water consumption constitutes more than half of the total water consumption, and a large portion of the outside water is wasted due to inefficient irrigation practices, poor landscape design, and lack of use of drought tolerant/low water use plants; and

WHEREAS, water rates should be designed to encourage conservation efforts; and

WHEREAS, water savings can be realized through building and development standards; and

WHEREAS, public education and knowledge of proper indoor and outdoor water use practices are crucial to achieving a successful water conservation program; and

WHEREAS, the Regional Water Conservation Committee with representatives from local government entities has forwarded a recommendation for the implementation of outdoor water conservation practices and policies.

NOW, THEREFORE, BE IT RESOLVED that Clark County, the Cities of Las Vegas, North Las Vegas, Boulder City, and Henderson, the Las Vegas Valley Water District, and the Clark County Sanitation District do hereby adopt the Conservation Action Plan, dated April 1990, developed by the Regional Water Conservation Committee, support the implementation of elements which address:

1. Development Regulations (lakes, landscaping)
2. Water Rates
3. Building Codes
4. Public Education

and encourage regional water conservation efforts in cooperation with the local government entities of Clark County, Nevada.

PASSED, APPROVED AND ADOPTED this 1st day of May, 1990.
