

R E S O L U T I O N

A RESOLUTION MAKING A PROVISIONAL ORDER TO THE EFFECT THAT THE WORK OF IMPROVEMENT OF CERTAIN STREETS AND ALLEYS, AND PARTS THEREOF, WITH INTERSECTIONS, WITHIN THE PROPOSED CITY OF LAS VEGAS, NEVADA, SPECIAL IMPROVEMENT DISTRICT NO. 1413 SHALL BE DONE.

WHEREAS, the City Council of the City of Las Vegas (the "City Council" and the "City", respectively, herein), in the County of Clark and State of Nevada, pursuant to Chapter 271 of the Nevada Revised Statutes, and all laws that are supplemental thereto, has directed the City Engineer of the City (the "City Engineer" herein) to file with the City Clerk, who is also the Clerk of the City Council (the "City Clerk" herein), certain preliminary plans, assessment plats, typical sections of certain contemplated improvements, preliminary estimates of the costs and estimates of the maximum benefits that will inure from such improvements to the respective assessable lots and parcels of property that will be benefited thereby, all in connection with the proposed construction and installation, by way of a special improvement district that consists of twelve (12) separate and distinct assessment units, of certain public improvements along certain streets within certain areas of the City, such improvements being more specifically described as follows:

Providing for the grading, gravelling, macadamizing, paving, draining and otherwise improving of those certain streets, and portions thereof, including street intersections, that are identified with particularity in the notice of hearing (the

"Notice of Hearing" herein) that is provided for in Section 4 of this Resolution as ASSESSMENT UNIT NO. I,

Providing for the installation of curbs and gutters along those certain streets, and portions thereof, that are identified with particularity in the Notice of Hearing as ASSESSMENT UNIT NO. II,

Providing for the installation of sidewalks along those certain streets, and portions thereof, that are identified with particularity in the Notice of Hearing as ASSESSMENT UNIT NO. III,

Providing for the installation of a street lighting system and all facilities that are incidental thereto along that certain street, and portions thereof, that is identified with particularity in the Notice of Hearing as ASSESSMENT UNIT NO. IV,

Providing for the installation of commercial driveway approaches along those certain streets, and portions, that are identified with particularity in the Notice of Hearing as ASSESSMENT UNIT NO. V,

Providing for the installation of residential driveway approaches along those certain streets, and portions, thereof that are identified with particularity in the Notice of Hearing as ASSESSMENT UNIT NO. VI,

Providing for the installation of an alley driveway approach along that certain street that is identified with particularity in the Notice of Hearing as ASSESSMENT UNIT NO. VII,

Providing for the installation of potable water laterals along those certain streets, and portions thereof, that are

identified with particularity in the Notice of Hearing as ASSESSMENT UNIT NO. VIII,

Providing for the installation of sanitary sewer laterals along those certain streets, and portions thereof, that are identified with particularity in the Notice of Hearing as ASSESSMENT UNIT NO. IX,

Providing for the installation of a sanitary sewer collection main along those certain streets, and portions thereof, that are identified with particularity in the Notice of Hearing as ASSESSMENT UNIT NO. X,

Providing for the grading, gravelling, macadamizing, paving, draining and otherwise improving of, and the installation of curbs and gutters, sidewalks and commercial and residential driveway approaches along, that certain street, and portions thereof, that is identified with particularity in the Notice of Hearing as ASSESSMENT UNIT NO. XI, and

Providing for the grading, gravelling, macadamizing, paving, draining and otherwise improving of, and the installation of curbs and gutters, sidewalks and commercial and residential driveway approaches along, that certain street, and portions thereof, that is identified with particularity in the Notice of Hearing as ASSESSMENT UNIT NO. XII; and

WHEREAS, the City Engineer, on the 5th day of May, 1993, filed in the Office of the City Clerk, in connection with such improvements and with the City's proposed "City of Las Vegas, Nevada, Special Improvement District No. 1413" (the "District" herein), the following:

A. Preliminary plans that show typical sections of the contemplated improvements, the type or types of material, together with the approximate thickness and width of each, and preliminary estimates of the cost of constructing and installing such improvements;

B. Preliminary estimates of the total cost of each type of construction, such estimates having been made in a lump sum or by unit prices, including without limitation the advertising, appraising, engineering, legal and printing expenses in connection therewith and such other costs and expenses as in the judgment of the City Engineer are necessary or appropriate to the completion of the proposed work of improvement and the payment of the cost thereof;

C. Assessment plats that show the areas that are proposed to be assessed and the amount of the estimated costs that is proposed to be assessed against, and the estimated amount of the maximum benefits that are anticipated will be derived from such improvements by, each assessable lot or parcel of property within each assessment unit of the District, such estimates as have heretofore been designated by the City Council having been computed, for the respective assessment units, on the bases that are set forth in Section 2 of this Resolution; and

D. The City Engineer's report with respect to benefits which sets forth the City Engineer's conclusions concerning the benefits that will be derived from such improvements by the respective assessable lots and parcels of property and the proper method of assessment; and

WHEREAS, an equitable adjustment shall be made for any assessment that is levied against any irregular lot or parcel of property in order that assessments that are levied according to the benefits that will be derived from such improvements by the respective lots and parcels will be equal and uniform; and

WHEREAS, the City Council has examined such plans, assessment plats, typical sections of the contemplated improvements, preliminary estimates of the costs and estimates of the maximum benefits that have been so filed with the City Clerk and the City Engineer's report with respect to such benefits and has found, and hereby does declare, all of the same to be satisfactory in all respects;

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Las Vegas, Nevada, at this regular meeting thereof that is being held on this 5th day of May, 1993, that the City Council shall, and hereby does, accept such plans, assessment plats, typical sections of the contemplated improvements, preliminary estimates of the costs and the amount of such estimated costs that is proposed to be assessed against, and the estimated amount of the maximum benefits that are anticipated will be derived from such improvements by, each assessable lot or parcel of property in the respective assessment units of the District; and

BE IT FURTHER RESOLVED that the City Council shall, and hereby does, PROVISIONALLY ORDER THAT:

SECTION 1. Those improvements, at an estimated cost of \$671,995.00, including engineering, legal and incidental

expenses, all as the same are more particularly hereinafter set forth and are described in the plans that are herein accepted, reference to which is hereby made, and are available for public examination at the Office of the City Clerk, shall be constructed and installed.

SECTION 2. Such estimated costs and estimated amount of maximum benefits shall be apportioned among the respective assessment units of the District as follows:

<u>Assessment Unit No.</u>	<u>Estimated Costs</u>	<u>Estimated Amount of Maximum Benefits *</u>
I	\$288,858.00	\$382,737.00
II	\$ 44,549.00	\$ 59,028.00
III	\$122,048.00	\$161,713.00
IV	\$ 6,798.00	\$ 9,008.00
V	\$ 2,373.00	\$ 3,144.00
VI	\$ 11,195.00	\$ 14,834.00
VII	\$ 0.00	\$ 0.00
VIII	\$ 4,381.00	\$ 5,804.00
IX	\$ 16,793.00	\$ 22,251.00
X	\$ 48,918.00	\$ 64,817.00
XI	\$ 49,944.00	\$ 66,176.00
XII	\$ 76,138.00	\$100,883.00
Total		Total
Assessable	\$671,995.00	Benefits \$890,395.00
Other Street		
Work	<u>\$ 19,161.00</u>	
Total Project		
Cost	\$691,156.00	

- * The actual costs of constructing and installing the improvement in any individual assessment unit may exceed the estimated cost for such improvement, or the estimated amount of the maximum benefits that are anticipated will be derived therefrom, or both, that is stated above, but in no event shall the aggregate assessment that is levied against any lot or parcel of property for all of the assessment units exceed the aggregate amount of the estimates of the maximum benefits to such lot or parcel by virtue of the construction and installation of the improvements in all of the assessment units.

The amounts that are proposed to be assessed shall be assessed against all of the assessable lots and parcels of property that are benefited, proportionately to the benefits that each such lot or parcel receives, and shall be assessed against the assessable lots and parcels of property that abut such improvements on the following bases:

ASSESSMENT UNIT NO. I (Street Paving)

Such estimates shall be computed on a front foot basis, i.e., on the basis that each lot or parcel of property that is to be assessed in the assessment unit shall be assessed a portion of the aggregate dollar amount that is being levied against the entire assessment unit in the proportion that the frontage of such lot or parcel that abuts, and is benefited by, the improvement bears to the total of the frontage of all of the assessable properties that abut, and are benefited by, the improvement in the assessment unit; provided, however, that, if any such lot or parcel is divided, after the date of the hearing as to the propriety and advisability of making such improvement but prior to the date on which the assessments are levied by ordinance, pursuant to NRS 271.390, into sublots or subparcels, the assessment against such lot or parcel shall be apportioned among such sublots or subparcels on an area basis, i.e., on the basis that each such sublot or subparcel shall be assessed a portion of the aggregate dollar amount that is being levied against the entire lot or parcel in the proportion that the area of such sublot or subparcel bears to the aggregate area of the entire lot or parcel. The cost of acquiring the necessary

rights-of-way that are required in order to construct and install the improvement and the cost of paving street intersections shall be included in the total costs and expenses that are proposed to be levied in the assessment unit and shall be assessed against the respective lots and parcels therein on the aforesaid front foot basis.

ASSESSMENT UNIT NO. II (Curbs and Gutters)

Such estimates shall be computed on a lineal foot basis, i.e., on the basis that each lot or parcel of property that is to be assessed in the assessment unit shall be assessed a portion of the aggregate dollar amount that is being levied against the entire assessment unit in the proportion that the number of lineal feet of such lot or parcel that abut, and are benefited by, the improvement bears to the total of the number of lineal feet of all of the assessable properties that abut, and are benefited by, the improvement in the assessment unit; provided, however, that, if any such lot or parcel is divided, after the date of the hearing as to the propriety and advisability of making such improvement but prior to the date on which the assessments are levied by ordinance, pursuant to NRS 271.390, into sublots or subparcels, the assessment against such lot or parcel shall be apportioned among such sublots or subparcels on an area basis, i.e., on the basis that each such subplot or subparcel shall be assessed a portion of the aggregate dollar amount that is being levied against the entire lot or parcel in the proportion that the area of such subplot or subparcel bears to the aggregate area of the entire lot or parcel. The cost of

acquiring the necessary rights-of-way that are required in order to construct and install the improvement shall be included in the total costs and expenses that are proposed to be levied in the assessment unit and shall be assessed against the respective lots and parcels therein on the aforesaid lineal foot basis.

ASSESSMENT UNIT NO. III (Sidewalks)

Such estimates shall be computed on a lineal foot basis, i.e., on the basis that each lot or parcel of property that is to be assessed in the assessment unit shall be assessed a portion of the aggregate dollar amount that is being levied against the entire assessment unit in the proportion that the number of lineal feet of such lot or parcel that abut, and are benefited by, the improvement bears to the number of lineal feet of all of the assessable properties that abut, and are benefited by, the improvement in the assessment unit; provided, however, that, if any such lot or parcel is divided, after the date of the hearing as to the propriety and advisability of making such improvement but prior to the date on which the assessments are levied by ordinance, pursuant to NRS 271.390, into sublots or subparcels, the assessment against such lot or parcel shall be apportioned among such sublots or subparcels on an area basis, i.e., on the basis that each such subplot or subparcel shall be assessed a portion of the aggregate dollar amount that is being levied against the entire lot or parcel in the proportion that the area of such subplot or subparcel bears to the aggregate area of the entire lot or parcel. The cost of acquiring the necessary rights-of-way that are required in order to construct and install

the improvement shall be included in the total costs and expenses that are proposed to be levied in the assessment unit and shall be assessed against the respective lots and parcels therein on the aforesaid lineal foot basis.

ASSESSMENT UNIT NO. IV (Street Lighting)

Such estimates shall be computed on a front foot basis, i.e., on the basis that each lot or parcel of property that is to be assessed in the assessment unit shall be assessed a portion of the aggregate dollar amount that is being levied against the entire assessment unit in the proportion that the frontage of such lot or parcel that abuts the street along which the improvement is being installed, and is benefited by such improvement, bears to the total of the frontage of all of the assessable properties that abut the street along which the improvement is being installed, and are benefited by such improvement, in the assessment unit; provided, however, that, if any such lot or parcel is divided, after the date of the hearing as to the propriety and advisability of making such improvement but prior to the date on which the assessments are levied by ordinance, pursuant to NRS 271.390, into sublots or subparcels, the assessment against such lot or parcel shall be apportioned among such sublots or subparcels on an area basis, i.e., on the basis that each such subplot or subparcel shall be assessed a portion of the aggregate dollar amount that is being levied against the entire lot or parcel in the proportion that the area of such subplot or subparcel bears to the aggregate area of the entire lot or parcel. The cost of acquiring the necessary

rights-of-way that are required in order to construct and install the improvement shall be included in the total costs and expenses that are proposed to be levied in the assessment unit and shall be assessed against the respective lots and parcels therein on the aforesaid front foot basis.

ASSESSMENT UNIT NO. V (Commercial Driveway Approaches)

Such estimates shall be computed on the basis that each lot or parcel of property that is served by, and is to be assessed for, any Option A Driveway Approach, as that type of driveway approach is described in the Notice of Hearing, that is constructed and installed in the assessment unit shall be assessed a portion of the aggregate dollar amount that is being levied against the entire assessment unit for Option A Driveway Approaches in the proportion that the square footage of the Option A Driveway Approach or Approaches that is or are installed to serve such lot or parcel bears or bear to the aggregate square footage of all of the Option A Driveway Approaches that are installed to serve all of the assessable properties in the assessment unit and on the basis that each lot or parcel of property that is served by, and is to be assessed for, any Option B Driveway Approach, as that type of driveway approach is described in the Notice of Hearing, that is constructed and installed in the assessment unit shall be assessed a portion of the aggregate dollar amount that is being levied against the entire assessment unit for Option B Driveway Approaches in the proportion that the square footage of the Option B Driveway Approach or Approaches that is or are installed to serve such lot

or parcel bears or bear to the aggregate square footage of all of the Option B Driveway approaches that are installed to serve all of the assessable properties in the assessment unit.

ASSESSMENT UNIT NO. VI (Residential Driveway Approaches)

Such estimates shall be computed on the basis that each lot or parcel of property that is served by, and is to be assessed for, any improvement that is constructed and installed in the assessment unit shall be assessed a portion of the aggregate dollar amount that is being levied against the entire assessment unit in the proportion that the number and length of the driveway approaches that are installed to serve such lot or parcel bears to the total number and aggregate length of all of the driveway approaches that are installed to serve all of the assessable properties in the assessment unit.

ASSESSMENT UNIT NO. VII (Alley Driveway Approach)

Such estimate shall be computed on the basis that the lot or parcel of property that is served by the alley gutter that is constructed and installed in the assessment unit shall be assessed the entire cost and expense of constructing and installing such alley gutter.

ASSESSMENT UNIT NO VIII (Potable Water Laterals)

Such estimates shall be computed on the basis that each lot or parcel of property that is to be assessed in the assessment unit for 5/8ths-inch or 3/4ths-inch potable water laterals shall be assessed a portion of the aggregate dollar amount that is being levied against the entire assessment unit for 5/8ths-inch or 3/4ths-inch water laterals in the proportion that the

number of 5/8ths-inch or 3/4ths-inch water laterals that are installed to serve such lot or parcel bears to the total number of 5/8ths-inch or 3/4ths-inch water laterals that are installed to serve all of the assessable properties in the assessment unit, on the basis that each lot or parcel of property that is to be assessed in the assessment unit for 1-inch to 2-inch potable water laterals shall be assessed a portion of the aggregate dollar amount that is being levied against the entire assessment unit for 1-inch to 2-inch water laterals in the proportion that the number of 1-inch to 2-inch water laterals that are installed to serve such lot or parcel bears to the total number of 1-inch to 2-inch water laterals that are installed to serve all of the assessable properties in the assessment unit, on the basis that each lot or parcel of property that is to be assessed in the assessment unit for 6-inch potable water laterals shall be assessed a portion of the aggregate dollar amount that is being levied against the entire assessment unit for 6-inch water laterals in the proportion that the number of 6-inch water laterals that are installed to serve such lot or parcel bears to the total number of 6-inch water laterals that are installed to serve all of the assessable properties in the assessment unit and on the basis that each lot or parcel of property that is to be assessed in the assessment unit for 8-inch potable water laterals shall be assessed a portion of the aggregate dollar amount that is being levied against the entire assessment unit for 8-inch water laterals in the proportion that the number of 8-inch water laterals that are installed to serve such lot or parcel bears to

the total number of 8-inch water laterals that are installed to serve all of the assessable properties in the assessment unit.

ASSESSMENT UNIT NO. IX (Sanitary Sewer Laterals)

Such estimates shall be computed on the basis that each lot or parcel of property that is to be assessed in the assessment unit for 6-inch sanitary sewer laterals shall be assessed a portion of the aggregate dollar amount that is being levied against the entire assessment unit for 6-inch sewer laterals in the proportion that the number of 6-inch sewer laterals that are installed to serve such lot or parcel bears to the total number of 6-inch sewer laterals that are installed to serve all of the assessable properties in the assessment unit and on the basis that each lot or parcel of property that is to be assessed in the assessment unit for 8-inch sanitary sewer laterals shall be assessed a portion of the aggregate dollar amount that is being levied against the entire assessment unit for 8-inch sewer laterals in the proportion that the number of 8-inch sewer laterals that are installed to serve such lot or parcel bears to the total number of 8-inch sewer laterals that are installed to serve all of the assessable properties in the assessment unit.

ASSESSMENT UNIT NO. X (Sanitary Sewer Collection Mains)

Such estimates shall be computed on a front foot basis, i.e., on the basis that each lot or parcel of property that will be served by either of the sanitary sewer collection mains and is to be assessed in the assessment unit shall be assessed a portion of the aggregate dollar amount that is being levied against the entire assessment unit in the proportion that the frontage of

such lot or parcel that abuts either of the streets along which a sewer collection main is being installed bears to the frontage of all of the assessable property that will be served by either of such sewer collection mains and abut either of the streets along which the same are being installed in the assessment unit; provided, however, that, if any such lot or parcel is divided, after the date of the hearing as to the propriety and advisability of making such improvement but prior to the date on which the assessments are levied by ordinance, pursuant to NRS 271.390, into sublots or subparcels, the assessment against such lot or parcel shall be apportioned amount such sublots or subparcels on an area basis, i.e., on the basis that each such sublot or subparcel shall be assessed a portion of the aggregate dollar amount that is being levied against the entire lot or parcel in the proportion that the area of such sublot or subparcel bears to the aggregate area of the entire lot or parcel.

ASSESSMENT UNIT NO. XI (Scholl Drive Improvements)

Such estimates for the street paving, curbs and gutters and sidewalks shall be computed on a front foot basis, i.e., on the basis that each lot or parcel of property that is to be assessed in the assessment unit shall be assessed a portion of the aggregate dollar amount that is being levied against the entire assessment unit in the proportion that the frontage of such lot or parcel that abuts, and is benefited by, the improvement bears to the total of the frontage of all of the assessable properties that abut, and are benefited by, the improvement in the

assessment unit (with an appropriate reduction, both in the number of the front feet of the curbs and gutters and sidewalks that abut any such lot or parcel and in the aggregate number of the front feet of the curbs and gutters and sidewalks that abut all of the assessable properties in the assessment unit, that corresponds to the length of any driveway approach that serves such lot or parcel and to the aggregate length of all of the driveway approaches that serve all of the assessable properties in the assessment unit, respectively) and such estimates for the driveway approaches shall be computed on the basis that each lot or parcel of property that is served by, and is to be assessed for, any Option A Driveway Approach, as that type of driveway approach is described in the Notice of Hearing, that is constructed and installed in the assessment unit shall be assessed a portion of the aggregate dollar amount that is being levied against the entire assessment unit for Option A Driveway Approaches in the proportion that the square footage of the Option A Driveway Approach or Approaches that is or are installed to serve such lot or parcel bears or bear to the aggregate square footage of all of the Option A Driveway Approaches that are installed to serve all of the assessable properties in the assessment unit, on the basis that each lot or parcel of property that is served by, and is to be assessed for, any Option B Driveway Approach, as that type of driveway approach is described in the Notice of Hearing, that is constructed and installed in the assessment unit shall be assessed a portion of the aggregate dollar amount that is being levied against the entire assessment

unit for Option B Driveway Approaches in the proportion that the square footage of the Option B Driveway Approach or Approaches that is or are installed to serve such lot or parcel bears or bear to the aggregate square footage of all of the Option B Driveway Approaches that are installed to serve all of the assessable properties in the assessment unit and on the basis that each lot or parcel of property that is to be assessed in the assessment unit for residential driveway approaches shall be assessed a portion of the aggregate dollar amount that is being levied against the entire assessment unit for residential driveway approaches in the proportion that the number and length of the residential drive approaches that are installed to serve such lot or parcel bear to the total number and aggregate length of all of the residential driveway approaches that are installed to serve all of the assessable properties in the assessment unit, provided, however, that, if any such lot or parcel is divided, after the date of the hearing as to the propriety and advisability of making such improvement but prior to the date on which the assessments are levied by ordinance, pursuant to NRS 271.390, into sublots or subparcels, the assessment against such lot or parcel shall be apportioned among such sublots or subparcels on an area basis, i.e., on the basis that each such sublot or subparcel shall be assessed a portion of the aggregate dollar amount that is being levied against the entire lot or parcel in the proportion that the area of such sublot or subparcel bears to the aggregate area of the entire lot or parcel. The cost of acquiring the necessary rights-of-way that

are required in order to construct and install the improvements and the cost of paving street intersections shall be included in the total costs and expenses that are proposed to be levied in the assessment unit and shall be assessed against the respective lots and parcels therein on the same bases as aforesaid.

ASSESSMENT UNIT NO. XII Lorenzi Boulevard Improvements

Such estimates for the street paving, curbs and gutters and sidewalks shall be computed on a front foot basis, i.e., on the basis that each lot or parcel of property that is to be assessed in the assessment unit shall be assessed a portion of the aggregate dollar amount that is being levied against the entire assessment unit in the proportion that the frontage of such lot or parcel that abuts, and is benefited by, the improvement bears to the total of the frontage of all of the assessable properties that abut, and are benefited by, the improvement in the assessment unit (with an appropriate reduction, both in the number of the front feet of the curbs and gutters and sidewalks that abut any such lot or parcel and in the aggregate number of the front feet of the curbs and gutters and sidewalks that abut all of the assessable properties in the assessment unit, that corresponds to the length of any driveway approach that serves such lot or parcel and to the aggregate length of all of the driveway approaches that serve all of the assessable properties in the assessment unit, respectively) and such estimates for the driveway approaches shall be computed on the basis that each lot or parcel of property that is served by, and is to be assessed for, any Option A Driveway Approach, as that type of driveway

approach is described in the Notice of Hearing, that is constructed and installed in the assessment unit shall be assessed a portion of the aggregate dollar amount that is being levied against the entire assessment unit for Option A Driveway Approaches in the proportion that the square footage of the Option A Driveway Approach or Approaches that is or are installed to serve such lot or parcel bears or bear to the aggregate square footage of all of the Option A Driveway Approaches that are installed to serve all of the assessable properties in the assessment unit, on the basis that each lot or parcel of property that is served by, and is to be assessed for, any Option B Driveway Approach, as that type of driveway approach is described in the Notice of Hearing, that is constructed and installed in the assessment unit shall be assessed a portion of the aggregate dollar amount that is being levied against the entire assessment unit for Option B Driveway Approaches in the proportion that the square footage of the Option B Driveway Approach or Approaches that is or are installed to serve such lot or parcel bears or bear to the aggregate square footage of all of the Option B Driveway Approaches that are installed to serve all of the assessable properties in the assessment unit and on the basis that each lot on or parcel of property that is to be assessed in the assessment unit for residential driveway approaches shall be assessed a portion of the aggregate dollar amount that is being levied against the entire assessment unit for residential driveway approaches in the proportion that the number and length of the residential driveway approaches that are installed to

serve such lot or parcel bears to the total number and aggregate length of all of the residential driveway approaches that are installed to serve all of the assessable properties in the assessment unit, provided, however, that, if any such lot or parcel is divided, after the date of the hearing as to the propriety and advisability of making such improvement but prior to the date on which the assessments are levied by ordinance, pursuant to NRS 271.390, into sublots or subparcels, the assessment against such lot or parcel shall be apportioned among such sublots or subparcels on an area basis, i.e., on the basis that each such sublot or subparcel shall be assessed a portion of the aggregate dollar amount that is being levied against the entire lot or parcel in the proportion that the area of such sublot or subparcel bears to the aggregate area of the entire lot or parcel. The cost of acquiring the necessary rights-of-way that are required in order to construct and install the improvements and the cost of paving street intersections shall be included in the total costs and expenses that are proposed to be levied in the assessment unit and shall be assessed against the respective lots and parcels therein on the same bases as aforesaid.

In each assessment unit, an equitable adjustment will be made for any assessment that is levied upon any irregular lot or parcel of property in order that the assessments that are levied according to the benefits that will be derived from such improvements by the respective lots and parcels will be equal and uniform. The portion of the costs that is proposed to be

assessed against, and the estimated amount of the maximum benefits that are anticipated will be derived from such improvements by, each lot or parcel of property shall be as is stated in the aforesaid assessment plat. Regardless of the basis that is used for apportioning the assessments, in the case of a wedge, "V" or other irregularly shaped lot or parcel, the amount that is apportioned thereto shall be in proportion to the special benefits that will be derived thereby.

SECTION 3. The area that encompasses the streets that are proposed to be so improved and the properties that are proposed to be so assessed (i.e., all of such assessment units) shall be designated as "City of Las Vegas, Nevada, Special Improvement District No. 1413".

SECTION 4. On Wednesday, the 2nd day of June, 1993, at the hour of 2:00 o'clock p.m., at the Council Chambers in the Las Vegas City Hall Complex, 400 East Stewart Avenue, Las Vegas, Nevada, or at any time prior to such date and time at the Office of the City Clerk at said City Hall, the owner or owners of any lot or parcel of property that is proposed to be assessed, any other person who is interested in any thereof or any tenant of any mobile home park that is located on any of such lots or parcels may file a written protest or objection and may appear before the City Council at such time and place and be heard as to the propriety and advisability of constructing and installing such improvements, as to the cost thereof, as to the proposed method of payment therefor and as to the amount thereof that is proposed to be assessed against, and the estimated amount of the

maximum benefits that are anticipated will be derived from such improvements by, the respective lots and parcels of property that abut the improvements that are proposed to be so constructed and installed. Twenty (20) days' notice in writing of such time and place shall be given to such property owners, which notice shall be served by the City Clerk by mailing a copy thereof, postage prepaid as first-class mail, to the last known address of each last known owner of each lot or parcel of property within each assessment unit whose lot or parcel of property will be assessed for a portion of the cost of constructing and installing such improvements, the names and addresses of such property owners being those that appear on the local property assessment rolls for general (ad valorem) taxes that are on file in the Office of the County Assessor of Clark County, Nevada, wherein such property is located. Such notice shall also be given to each tenant of each mobile home park that is located on any of such lots or parcels and by the City Engineer's posting of a copy of such notice in three public places at or near the site of the proposed work within each assessment unit at least twenty (20) days prior to such hearing. Proof of such mailing and posting shall be made by the affidavit of the City Clerk or of the City Engineer, as the case may be, such proof to be filed with the City Clerk; provided, however, that the fact that the person to whom any such notice is addressed does not receive the same shall not invalidate or affect the legality of the notice that is given thereby and shall not invalidate or affect the legality of any assessment or of any other of the proceedings hereunder.

Notice of the time and place of such hearing shall also be given by publishing a copy of such notice in the Las Vegas Review-Journal, a newspaper that is published and of general circulation within the City, once each week for three consecutive weeks by three weekly insertions, the first such publication to be at least fifteen (15) days prior to the date of the protest hearing. Not less than fourteen (14) days shall intervene between the first publication and the last publication. Such service by publication shall be verified by the affidavit of the publisher of said newspaper and filed with the City Clerk. Such notice shall be, substantially, in the following form:

NOTICE OF HEARING ON THE IMPROVEMENT OF CERTAIN STREETS AND ALLEYS, AND PARTS THEREOF, AND PROPOSED ASSESSMENTS WITHIN THE PROPOSED CITY OF LAS VEGAS, NEVADA, SPECIAL IMPROVEMENT DISTRICT NO. 1413.

NOTICE IS HEREBY GIVEN to the owner or owners of each lot or parcel of property within the proposed "City of Las Vegas, Nevada, Special Improvement District No. 1413" (the "District" herein), to each tenant of each mobile home park that is located on any of such lots or parcels and to all other interested persons that:

The City Council of the City of Las Vegas, Nevada (the "City Council" and the "City", respectively, herein), has provisionally ordered that certain improvements be installed along those certain streets within those certain areas of the City that are hereinafter more particularly described as follows:

ASSESSMENT UNIT NO. I (Street Paving)

The improvement that is proposed to be constructed and installed in ASSESSMENT UNIT NO. I shall consist of the construction and installation of street paving along those certain streets and portion thereof, within the City, that are more particularly described as follows:

ALPINE STREET:

The proposed street paving in Alpine Street (60 feet wide) shall be 46 feet in width and shall be constructed and installed along the south side thereof from the centerline of Mohawk Street (60 feet wide) easterly to the centerline of Decatur Boulevard (120 feet wide);

CORY PLACE:

The proposed street paving in Cory Place (60 feet wide) shall be 46 feet in width and shall be constructed and installed along either side thereof from the centerline of Soprano Lane (60 feet wide) easterly to the centerline of Upland Boulevard (80 feet wide) and along the north side thereof from the centerline of Mohawk Street (60 feet wide) easterly to the centerline of Breanna Street (60 feet wide); and

TRENT AVENUE:

The proposed street paving in Trent Avenue (60 feet wide) shall be 46 feet in width and shall be constructed and installed along the south side thereof from the centerline of Soprano Lane (60 feet wide) easterly to the centerline of Upland Boulevard (80 feet wide),
except where adequate improvements have previously been installed, together with the acquisition, by purchase, the exercise of the City's power of eminent domain or otherwise, of all of the necessary rights-of-way that may be required in order to construct and install such improvement and the necessary installation, removal or relocation, or any combination thereof, of any and all utilities and any and all appurtenances that are deemed to be necessary in order to complete the same, as is more particularly shown on the plats, diagrams and plans of the work and of the localities that are to be so improved as filed in the Office of the City Clerk.

ASSESSMENT UNIT NO. II (Curbs and Gutters)

The improvement that is proposed to be constructed and installed in ASSESSMENT UNIT NO. II shall consist of the construction and installation of standard concrete "L" type curbs and gutters along those certain streets and portion thereof, within the City, that are more particularly described as follows:

ALPINE STREET:

The proposed curbs and gutters in Alpine Street (60 feet wide) shall be constructed and installed along the south side thereof from the centerline of Mohawk Street (60 feet wide) easterly to the centerline of Decatur Boulevard (120 feet wide);

CORY PLACE:

The proposed curbs and gutters in Cory Place (60 feet wide) shall be constructed and installed along either side thereof from the centerline of Soprano Lane (60 feet wide) easterly to the centerline of Upland Boulevard (80 feet wide) and along the north side thereof from the centerline of Mohawk Street (60 feet wide) easterly to the centerline of Breanna Street (60 feet wide);

TRENT AVENUE:

The proposed curbs and gutters in Trent Avenue (60 feet wide) shall be constructed and installed along the south side thereof from the centerline of Soprano Lane (60 feet wide) easterly to the centerline of Upland Boulevard (80 feet wide); and

SOPRANO LANE:

The proposed curbs and gutters in Soprano Lane (60 feet wide) shall be constructed and installed along the east side thereof from the centerline of Cory Place (60 feet wide) northerly to the centerline of Trent Avenue (60 feet wide), except where adequate improvements have previously been installed, together with the acquisition, by purchase, the exercise of the City's power of eminent domain or otherwise, of all of the necessary rights-of-way that may be required in order to construct and install such improvement and the necessary installation, removal or relocation, or any combination thereof, of any and all utilities and any and all appurtenances that are deemed to be necessary in order to complete the same, as is more particularly shown on the plats, diagrams and plans of the work and of the localities that are to be so improved as filed in the Office of the City Clerk.

ASSESSMENT UNIT NO. III (Sidewalks)

The improvement that is proposed to be constructed and installed in ASSESSMENT UNIT NO. III shall consist of the construction and installation of standard concrete sidewalks along those certain streets and portion thereof, within the City, that are more particularly described as follows:

ALPINE STREET:

The proposed sidewalks in Alpine Street (60 feet wide) shall be 5 feet in width and shall be constructed and installed along the south side thereof from the centerline of Mohawk Street (60 feet wide) easterly to the centerline of

Decatur Boulevard (120 feet wide);

CORY PLACE:

The proposed sidewalks in Cory Place (60 feet wide) shall be 5 feet in width and shall be constructed and installed along either side thereof from the centerline of Soprano Lane (60 feet wide) easterly to the centerline of Upland Boulevard (80 feet wide) and along the north side thereof from the centerline of Mohawk Street (60 feet wide) easterly to the centerline of Breanna Street (60 feet wide);

TRENT AVENUE:

The proposed sidewalks in Trent Avenue (60 feet wide) shall be 5 feet in width and shall be constructed and installed along the south side thereof from the centerline of Soprano Lane (60 feet wide) easterly to the centerline of Upland Boulevard (80 feet wide); and

SOPRANO LANE:

The proposed sidewalks in Soprano Lane (60 feet wide) shall be 5 feet in width and shall be constructed and installed along the east side thereof from the centerline of Cory Place (60 feet wide) northerly to the centerline of Trent Avenue (60 feet wide),

except where adequate improvements have previously been installed, together with the acquisition, by purchase, the exercise of the City's power of eminent domain or otherwise, of all of the necessary rights-of-way that may be required in order to construct and install such improvement and the necessary installation, removal or relocation, or any combination thereof,

of any and all utilities and any and all appurtenances that are deemed to be necessary in order to complete the same, as is more particularly shown on the plats, diagrams and plans of the work and of the localities that are to be so improved as filed in the Office of the City Clerk.

ASSESSMENT UNIT NO. IV (Street Lighting)

The improvement that is proposed to be installed in ASSESSMENT UNIT NO. IV shall consist of the installation of streetlights and any and all appurtenances in Cory Place (60 feet wide) and portions thereof, within the City, along either side thereof from the centerline of Soprano Lane (60 feet wide easterly to the centerline of Upland Boulevard (80 feet wide) and along the north side thereof from the centerline of Mohawk Street (60 feet wide) easterly to the centerline of Breanna Street (60 feet wide), except where adequate improvements have previously been installed, together with the acquisition, by purchase, the exercise of the City's power of eminent domain or otherwise, of all of the necessary rights-of-way that may be required in order to construct and install such improvement and the necessary installation, removal or relocation, or any combination thereof, of any and all utilities and any and all appurtenances that are deemed to be necessary in order to complete the same, as is more particularly shown on the plats, diagrams and plans of the work and of the localities that are to be so improved as filed in the Office of the City Clerk.

ASSESSMENT UNIT NO. V (Commercial Driveway Approaches)

The improvement that is proposed to be constructed and

installed in ASSESSMENT UNIT NO. V shall consist of the construction and installation of one of two elective types of standard concrete commercial driveway approaches along those certain streets and portion thereof, within the City, that are more particularly described as follows:

ALPINE STREET:

The proposed commercial driveway approaches in Alpine Street (60 feet wide) shall be constructed and installed along the south side thereof from the centerline of Mohawk Street (60 feet wide) easterly to the centerline of Decatur Boulevard (120 feet wide);

CORY PLACE:

The proposed commercial driveway approaches in Cory Place (60 feet wide) shall be constructed and installed along either side thereof from the centerline of Soprano Lane (60 feet wide) easterly to the centerline of Upland Boulevard (80 feet wide) and along the north side thereof from the centerline of Mohawk Street (60 feet wide) easterly to the centerline of Breanna Street (60 feet wide); and

TRENT AVENUE:

The proposed commercial driveway approaches in Trent Avenue (60 feet wide) shall be constructed and installed along the south side thereof from the centerline of Soprano Lane (60 feet wide) easterly to the centerline of Upland Boulevard (80 feet wide),
except where adequate improvements have previously been installed, together with the necessary installation, removal or

relocation, or any combination thereof, of any and all utilities and any and all appurtenances that are deemed to be necessary in order to complete the same, as is more particularly shown on the plats, diagrams and plans of the work and of the localities that are to be so improved as filed in the Office of the City Clerk.

ASSESSMENT UNIT NO. VI (Residential Driveway Approaches)

The improvement that is proposed to be constructed and installed in ASSESSMENT UNIT NO. VI shall consist of the construction and installation of standard concrete residential driveway approaches along those certain streets and portion thereof, within the City, that are more particularly described as follows:

ALPINE STREET:

The proposed residential driveway approaches in Alpine Street (60 feet wide) shall be constructed and installed along the south side thereof from the centerline of Mohawk Street (60 feet wide) easterly to the centerline of Decatur Boulevard (120 feet wide);

CORY PLACE:

The proposed residential driveway approaches in Cory Place (60 feet wide) shall be constructed and installed along either side thereof from the centerline of Soprano Lane (60 feet wide) easterly to the centerline of Upland Boulevard (80 feet wide) and along the north side thereof from the centerline of Mohawk Street (60 feet wide) easterly to the centerline of Breanna Street (60 feet wide);

TRENT AVENUE:

The proposed residential driveway approaches in Trent Avenue (60 feet wide) shall be constructed and installed along the south side thereof from the centerline of Soprano Lane (60 feet wide) easterly to the centerline of Upland Boulevard (80 feet wide); and

SOPRANO LANE:

The proposed residential driveway approaches in Soprano Lane (60 feet wide) shall be constructed and installed along the east side thereof from the centerline of Cory Place (60 feet wide) northerly to the centerline of Trent Avenue (60 feet wide),

except where adequate improvements have previously been installed, together with the necessary installation, removal or relocation, or any combination thereof, of any and all utilities and any and all appurtenances that are deemed to be necessary in order to complete the same, as is more particularly shown on the plats, diagrams and plans of the work and of the localities that are to be so improved as filed in the Office of the City Clerk.

ASSESSMENT UNIT NO. VII (Alley Driveway Approach)

The improvement that is proposed to be constructed and installed in ASSESSMENT UNIT NO. VII shall consist of the construction and installation of a depressed standard concrete alley driveway approach in Alpine Street (60 feet wide) and portions thereof within the City, along the south side thereof to serve that certain lot or parcel of property that is identified by the Clark County, Nevada, Assessor's parcel number as parcel

030-110-041, together with the necessary installation, removal or relocation, or any combination thereof, of any and all utilities and any and all appurtenances that are deemed to be necessary in order to complete the same, as is more particularly shown on the plats, diagrams and plans of the work and of the localities that are to be so improved as filed in the Office of the City Clerk.

ASSESSMENT UNIT NO. VIII (Potable Water Laterals)

The improvement that is proposed to be installed in ASSESSMENT UNIT NO. VIII shall consist of the installation of potable water laterals that extend between the existing potable water distribution mains and the front property lines of the lots and parcels of property that abut those certain streets and portion thereof, within the City, that are more particularly described as follows:

ALPINE STREET:

The proposed potable water laterals in Alpine Street (60 feet wide) shall be installed along the south side thereof from the centerline of Mohawk Street (60 feet wide) easterly to the centerline of Decatur Boulevard (120 feet wide); and

CORY PLACE:

The proposed potable water laterals in Cory Place (60 feet wide) shall be installed along either side thereof from the centerline of Soprano Lane (60 feet wide) easterly to the centerline of Upland Boulevard (80 feet wide) and along the north side thereof from the centerline of Mohawk Street (60

feet wide) easterly to the centerline of Breanna Street (60 feet wide),
except where adequate improvements have previously been installed, together with the necessary installation, removal or relocation, or any combination thereof, of any and all utilities and any and all appurtenances that are deemed to be necessary in order to complete the same, as is more particularly shown on the plats, diagrams and plans of the work and of the localities that are to be so improved as filed in the Office of the City Clerk.

ASSESSMENT UNIT NO. IX (Sanitary Sewer Laterals)

The improvement that is proposed to be installed in ASSESSMENT UNIT NO. IX shall consist of the installation of sanitary sewer laterals that extend between the sanitary sewer collection mains that presently exist in Alpine Street and Cory Place and the sanitary sewer collection mains that are proposed to be installed in Trent Avenue and Soprano Lane by way of ASSESSMENT UNIT NO. X, as the case may be, and the front property lines of the lots and parcels of property that abut those certain streets and portion thereof, within the City, that are more particularly described as follows:

ALPINE STREET:

The proposed sanitary sewer laterals in Alpine Street (60 feet wide) shall be installed along the south side thereof from the centerline of Mohawk Street (60 feet wide) easterly to the centerline of Decatur Boulevard (120 feet wide);

CORY PLACE:

The proposed sanitary sewer laterals in Cory Place (60 feet wide) shall be installed along either side thereof from the centerline of Soprano Lane (60 feet wide) easterly to the centerline of Upland Boulevard (80 feet wide) and along the north side thereof from the centerline of Mohawk Street (60 feet wide) easterly to the centerline of Breanna Street (60 feet wide);

TRENT AVENUE:

The proposed sanitary sewer laterals in Trent Avenue (60 feet wide) shall be installed along the south side thereof from the centerline of Soprano Lane (60 feet wide) easterly to the centerline of Upland Boulevard (80 feet wide); and

SOPRANO LANE:

The proposed sanitary sewer laterals in Soprano Lane (60 feet wide) shall be installed along the east side thereof from the centerline of Cory Place (60 feet wide) northerly to the centerline of Trent Avenue (60 feet wide),
except where adequate improvements have previously been installed, together with the necessary installation, removal or relocation, or any combination thereof, of any and all utilities and any and all appurtenances that are deemed to be necessary in order to complete the same, as is more particularly shown on the plats, diagrams and plans of the work and of the localities that are to be so improved as filed in the Office of the City Clerk.

ASSESSMENT UNIT NO. X (Sanitary Sewer Collection Mains)

The improvement that is proposed to be installed in ASSESSMENT UNIT NO. X shall consist of the installation of sanitary sewer collections mains along those certain streets and portion thereof, within the City, that are more particularly described as follows:

TRENT AVENUE:

The proposed sanitary sewer collection main in Trent Avenue (60 feet wide) shall be installed therein from the centerline of Soprano Lane (60 feet wide) easterly to the centerline of Upland Boulevard (80 feet wide); and

SOPRANO LANE:

The proposed sanitary sewer collection main in Soprano Lane (60 feet wide) shall be installed therein from the centerline of Cory Place (60 feet wide) northerly to the centerline of Trent Avenue (60 feet wide), except where adequate improvements have previously been installed, together with the necessary installation, removal or relocation, or any combination thereof, of any and all utilities and any and all appurtenances that are deemed to be necessary in order to complete the same, as is more particularly shown on the plats, diagrams and plans of the work and of the localities that are to be so improved as filed in the Office of the City Clerk.

ASSESSMENT UNIT NO. XI (Scholl Drive Improvements)

The improvements that are proposed to be constructed and installed in ASSESSMENT UNIT NO. XI shall consist of the construction and installation of street paving, 37 feet in width,

standard concrete "L" type curbs and gutters, standard concrete sidewalks, 5 feet in width, one of two elective types of standard concrete commercial driveway approaches and standard concrete residential driveway approaches in Scholl Drive (51 feet wide) and portions thereof, within the City, along the east side thereof from the centerline of Charleston Boulevard (100 feet wide) northerly to a point that is approximately 452 feet north of the centerline of said Charleston Boulevard, except where adequate improvements have previously been installed, together with the acquisition, by purchase, the exercise of the City's power of eminent domain or otherwise, of all of the necessary rights-of-way that may be required in order to construct and install such improvements and the necessary installation, removal or relocation, or any combination thereof, of any and all utilities and any and all appurtenances that are deemed to be necessary in order to complete the same, as is more particularly shown on the plats, diagrams and plans of the work and of the localities that are to be so improved as filed in the Office of the City Clerk.

ASSESSMENT UNIT NO. XII (Lorenzi Boulevard Improvements)

The improvements that are proposed to be constructed and installed in ASSESSMENT UNIT NO. XII shall consist of the construction and installation of street paving, 46 feet in width, standard concrete "L" type curbs and gutters, standard concrete sidewalks, 5 feet in width, one of two elective types of standard concrete commercial driveway approaches and standard concrete residential driveway approaches in Lorenzi Boulevard (60 feet

wide) and portions thereof within the City, along the west side thereof from the centerline of Charleston Boulevard (100 feet wide) northerly to a point that is approximately 700 feet north of the centerline of said Charleston Boulevard, except where adequate improvements have previously been installed, together with the acquisition, by purchase, the exercise of the City's power of eminent domain or otherwise, of all of the necessary rights-of-way that may be required in order to construct and install such improvements and the necessary installation, removal or relocation, or any combination thereof, of any and all utilities and any and all appurtenances that are deemed to be necessary in order to complete the same, as is more particularly shown on the plats, diagrams and plans of the work and of the localities that are to be so improved as filed in the Office of the City Clerk.

Except as is shown on the plans and specifications, as the same have been filed in the Office of the City Clerk of the City (the "City Clerk" herein), such improvements are more particularly described as follows:

ASSESSMENT UNIT NO. I (Street Paving)

The street paving shall consist of a fog seal over 3 inches of asphaltic concrete pavement, a prime coat, 4 inches of Type II aggregate base and 6 inches of Type I or Type II aggregate base; together with the acquisition, by purchase, the exercise of the City's power of eminent domain or otherwise, of all of the necessary rights-of-way that may be required in order to construct and install such improvement and the installation,

removal and relocation of any and all utilities and any and all appurtenances that are deemed to be necessary in order to complete the same, as is more particularly shown by the plats, diagrams and plans of the work and of the locality that is to be improved as filed in the Office of the City Clerk.

ASSESSMENT UNIT NO. II (Curbs and Gutters)

The curbs and gutters shall be standard Portland cement Class "B" concrete "L" type over 6 inches of Type II aggregate base; together with the acquisition, by purchase, the exercise of the City's power of eminent domain or otherwise, of all of the necessary rights-of-way that may be required in order to construct and install such improvement and the installation, removal and relocation of any and all utilities and any and all appurtenances that are deemed to be necessary in order to complete the same, as is more particularly shown by the plats, diagrams and plans of the work and of the locality that is to be improved as filed in the Office of the City Clerk.

ASSESSMENT UNIT NO. III (Sidewalks)

The sidewalks shall consist of 4 inches of standard Portland cement Class "B" concrete slabs over 5 inches of Type II aggregate base; together with the acquisition, by purchase, the exercise of the City's power of eminent domain or otherwise, of all of the necessary rights-of-way that may be required in order to construct and install such improvement and the installation, removal and relocation of any and all utilities and any and all appurtenances that are deemed to be necessary in order to complete the same, as is more particularly shown by the plats,

diagrams and plans of the work and of the locality that is to be improved as filed in the Office of the City Clerk.

ASSESSMENT UNIT NO. IV (Street Lighting)

The street lighting system shall consist of 250 watt high pressure sodium vapor luminaires, steel lighting standards on concrete bases and underground circuits; together with the acquisition, by purchase, the exercise of the City's power of eminent domain or otherwise, of all of the necessary rights-of-way that may be required in order to construct and install such improvement and the installation, removal and relocation of any and all utilities and any and all appurtenances that are deemed to be necessary in order to complete the same, as is more particularly shown by the plats, diagrams and plans of the work and of the locality that is to be improved as filed in the Office of the City Clerk.

ASSESSMENT UNIT NO. V (Commercial Driveway Approaches)

Each commercial driveway approach shall consist, at the election of the owner or owners of the particular lot or parcel of property, of either 6 inches of standard Portland cement Class B concrete that is reinforced with #4 rebar over 6 inches of Type II aggregate base (an "Option A Driveway Approach" herein) or a radius driveway with a cross gutter, consisting of 6 inches of standard Portland cement Class B concrete that is reinforced with #4 rebar over 6 inches of Type II aggregate base, and a sidewalk with an access ramp on either side of the driveway for the handicapped, consisting of 4 inches of standard Portland cement Class B concrete over 5 inches of Type II aggregate base (an

"Option B Driveway Approach" herein); together with the installation, removal and relocation of any and all utilities and any and all appurtenances that are deemed to be necessary in order to complete the same, as is more particularly shown by the plats, diagrams and plans of the work and of the locality that is to be improved as filed in the Office of the City Clerk.

ASSESSMENT UNIT NO. VI (Residential Driveway Approaches)

Each residential driveway approach shall consist of 6 inches of standard Portland cement Class B concrete over 6 inches of Type II aggregate base; together with the installation, removal and relocation of any and all utilities and any and all appurtenances that are deemed to be necessary in order to complete the same, as is more particularly shown by the plats, diagrams and plans of the work and of the locality that is to be improved as filed in the Office of the City Clerk.

ASSESSMENT UNIT VII (Alley Driveway Approach)

The alley driveway approach shall consist of 8 inches of standard Portland cement Class B concrete over 8 inches of Type II aggregate base; together with the installation, removal and relocation of any and all utilities and any and all appurtenances that are deemed to be necessary in order to complete the same, as is more particularly shown by the plats, diagrams and plans of the work and of the locality that is to be improved as filed in the Office of the City Clerk.

ASSESSMENT UNIT NO. VIII (Potable Water Laterals)

The potable water laterals shall be 5/8ths-inch, 3/4ths-inch, 1-inch to 2-inch, 6-inch or 8-inch, as the same are required by

the City or are otherwise requested by the owners of the respective lots or parcels of property, polyvinyl chloride potable water laterals that extend between the potable water distribution mains that presently exist in Alpine Street and Cory Place and the front property lines; together with the installation, removal and relocation of any and all utilities and any and all appurtenances that are deemed to be necessary in order to complete the same, as is more particularly shown by the plats, diagrams and plans of the work and of the locality that is to be improved as filed in the Office of the City Clerk.

If the owner of any lot or parcel of property within the assessment unit fails to designate the size, number or location, or any combination thereof, of the potable water laterals that such owner desires to have installed to serve such lot or parcel or requests that no water lateral be installed to serve such lot or parcel, the size, number or location, as the case may be, of such lateral or laterals shall be determined by the City in the following manner:

A. The City will not require the installation of any water lateral to serve any lot or parcel if a water lateral that can be installed from a potable water distribution main that has been installed in a side street would provide adequate water service to such lot or parcel;

B. If the lot or parcel in question cannot adequately be served by a water lateral or laterals from a water main that has been installed in a side street and the potential use of such lot or parcel is not less restrictive than the site for a single

family residence, one 5/8ths-inch lateral shall be installed at the mid-point thereof unless the area thereof exceeds 4,700 square feet.

C. If the lot or parcel in question cannot adequately be served by a water lateral or laterals from a water main that has been installed in a side street, the potential use of such lot or parcel is not less restrictive than the site for a single family residence and the area of such lot or parcel exceeds 4,700 square feet, one 3/4ths-inch lateral shall be installed at the mid-point thereof unless the area thereof exceeds 7,000 square feet.

D. If the lot or parcel in question cannot adequately be served by a water lateral or laterals from a water main that has been installed in a side street, the potential use of such lot or parcel is not less restrictive than the site for a single family residence, a small multi-family residential development or not more than one commercial establishment and the area of such lot or parcel exceeds 7,000 square feet, one 1-inch to 2-inch lateral shall be installed at the mid-point thereof unless the area thereof exceeds 2.5 acres.

E. If the lot or parcel in question cannot adequately be served by a water lateral or laterals from a water main that has been installed in a side street and the potential use of such lot or parcel would be to serve as the site for more than one commercial establishment, one 6-inch lateral shall be installed at the mid-point of the frontage of such lot or parcel unless the area thereof exceeds 2.5 acres.

F. If the lot or parcel in question cannot adequately be served by a water lateral from a water main that has been installed in a side street and the area thereof exceeds 2.5 acres, one 8-inch water lateral shall be installed at the mid-point of the frontage of such lot or parcel unless the area thereof exceeds 5 acres; and

G. If the lot or parcel in question cannot adequately be served by a water lateral from a water main that has been installed in a side street and the area thereof exceeds 5 acres, one 8-inch lateral shall be installed at the lower side of the mid-point of such lot or parcel and one additional 8-inch lateral shall be installed at the lower side of such lot or parcel unless a lateral or laterals that would render such additional 8-inch lateral unnecessary can be installed to serve such lot or parcel from a water main that has been installed in a side street.

ASSESSMENT UNIT NO. IX (Sanitary Sewer Laterals)

The sanitary sewer laterals shall be 6-inch or 8-inch, as the same are required by the City or are otherwise requested by the owners of the respective lots or parcels of property, polyvinyl chloride sewer laterals that extend between the sanitary sewer collection mains that presently exist in Alpine Street and Cory Place or the sanitary sewer collection mains that are proposed to be installed in Trent Avenue and Soprano Lane by way of ASSESSMENT UNIT NO. X, as the case may be, and the front property lines; together with the installation, removal and relocation of any and all utilities and any and all appurtenances that are deemed to be necessary in order to complete the same, as is more

particularly shown by the plats, diagrams and plans of the work and of the locality that is to be improved as filed in the Office of the City Clerk.

If the owner of any lot or parcel of property within the assessment unit fails to designate the size, number or location, or any combination thereof, of the sanitary sewer laterals that such owner desires to have installed to serve such lot or parcel or requests that no sewer lateral be installed to serve such lot or parcel, the size, number or location, as the case may be, of such lateral or laterals shall be determined by the City in the following manner:

A. The City will not require the installation of any sewer lateral to serve any lot or parcel if a sewer lateral that can be installed from a sanitary sewer collection main that has been installed in a side street would provide adequate sewer service to such lot or parcel.

B. If the lot or parcel in question cannot adequately be served by a sewer lateral or laterals from a sewer main that has been installed in a side street, one 6-inch lateral shall be installed at the lower side of such lot or parcel unless the area thereof exceeds 2.5 acres;

C. If the lot or parcel in question cannot adequately be served by a sewer lateral or laterals from a sewer main that has been installed in a side street and the area thereof exceeds 2.5 acres, one 8-inch lateral shall be installed at the lower side of such lot or parcel unless the area thereof exceeds 5 acres; and

D. If the lot or parcel in question cannot adequately be served by a sewer lateral or laterals from a sewer main that has been installed in a side street and the area thereof exceeds 5 acres, one 8-inch lateral shall be installed at the lower side of such lot or parcel and one additional 8-inch lateral shall be installed at the lower side of the mid-point of such lot or parcel unless a lateral or laterals that would render such additional 8-inch lateral unnecessary can be installed to serve such lot or parcel from a sewer main that has been installed in a side street.

In no event, however, shall a sanitary sewer lateral be installed in the same trench in which a potable water lateral is installed.

ASSESSMENT UNIT NO. X (Sanitary Sewer Collection Mains)

The sanitary sewer collection mains shall consist of an 8-inch polyvinyl chloride sanitary sewer collection pipe; together with the installation, removal and relocation of any and all utilities and any and all appurtenances that are deemed to be necessary in order to complete the same, as is more particularly shown by the plats, diagrams and plans of the work and of the locality that is to be improved as filed in the Office of the City Clerk.

ASSESSMENT UNIT NO. XI (Scholl Drive Improvements)

The improvements shall consist, for the street paving, of a fog seal over 2 inches of asphaltic concrete pavement, a prime coat, 4 inches of Type II aggregate base and 6 inches of Type I or Type II aggregate base; for the curbs and gutters, of standard

Portland cement Class B concrete "L" type over 6 inches of Type II aggregate base; for the sidewalks, of 4 inches of standard Portland cement Class B concrete slabs over 5 inches of Type II aggregate base; for the commercial driveway approaches, at the election of the owner or owners of the particular lot or parcel of property, of either 6 inches of standard Portland cement Class B concrete that is reinforced with #4 rebar over 6 inches of Type II aggregate base (an "Option A Driveway Approach" herein) or of a radius driveway with a cross gutter, consisting of 6 inches of standard Portland cement Class B concrete that is reinforced with #4 rebar over 6 inches of Type II aggregate base, and a sidewalk with an access ramp on either side of the driveway for the handicapped, consisting of 4 inches of standard Portland cement Class B concrete over 5 inches of Type II aggregate base (an "Option B Driveway Approach" herein); and, for the residential driveway approaches, of 6 inches of standard Portland cement Class B concrete over 6 inches of Type II aggregate base; together with the acquisition, by purchase, the exercise of the City's power of eminent domain or otherwise, of all of the necessary rights-of-way that may be required in order to construct and install such improvements and the installation, removal and relocation of any and all utilities and any and all appurtenances that are deemed to be necessary in order to complete the same, as is more particularly shown by the plats, diagrams and plans of the work and of the locality that is to be improved as filed in the Office of the City Clerk.

ASSESSMENT UNIT NO. XII (Lorenzi Boulevard Improvements)

The improvements shall consist, for the street paving, of a fog seal over 3 inches of asphaltic concrete pavement, a prime coat, 4 inches of Type II aggregate base and 6 inches of Type I or Type II aggregate base; for the curbs and gutters, of standard Portland cement Class B concrete "L" type over 6 inches of Type II aggregate base; for the sidewalks, of 4 inches of standard Portland cement Class B concrete slabs over 5 inches of Type II aggregate base; for the commercial driveway approaches, at the election of the owner or owners of the particular lot or parcel of property, of either 6 inches of standard Portland cement Class B concrete that is reinforced with #4 rebar over 6 inches of Type II aggregate base (an "Option A Driveway Approach" herein) or of a radius driveway with a cross gutter, consisting of 6 inches of standard Portland cement Class B concrete that is reinforced with #4 rebar over 6 inches of Type II aggregate base, and a sidewalk with an access ramp on either side of the driveway for the handicapped, consisting of 4 inches of standard Portland cement Class B concrete over 5 inches of Type II aggregate base (an "Option B Driveway Approach" herein); and, for the residential driveway approaches, of 6 inches of standard Portland cement Class B concrete over 6 inches of Type II aggregate base; together with the acquisition, by purchase, the exercise of the City's power of eminent domain or otherwise, of all of the necessary rights-of-way that may be required in order to construct and install such improvements and the installation, removal and relocation of any and all utilities and any and all

appurtenances that are deemed to be necessary in order to complete the same, as is more particularly shown by the plats, diagrams and plans of the work and of the locality that is to be improved as filed in the Office of the City Clerk.

All of the plats, diagrams and plans that are on file in the Office of the City Clerk with respect to said described assessment units are deemed by the City Engineer of the City and by the City to be essential to the construction and installation of such improvements.

It is anticipated that, \$671,995.00 shall be apportioned among the several assessment units of the District and shall be assessed against and paid by the assessable lots and parcels of property within the respective assessment units, as follows:

<u>Assessment Unit No.</u>	<u>Estimated Costs</u>	<u>Estimated Amount of Maximum Benefits*</u>
I	\$288,858.00	\$382,737.00
II	\$ 44,549.00	\$ 59,028.00
III	\$122,048.00	\$161,713.00
IV	\$ 6,798.00	\$ 9,008.00
V	\$ 2,373.00	\$ 3,144.00
VI	\$ 11,195.00	\$ 14,834.00
VII	\$ 0.00	\$ 0.00
VIII	\$ 4,381.00	\$ 5,804.00
IX	\$ 16,793.00	\$ 22,251.00
X	\$ 48,918.00	\$ 64,817.00
XI	\$ 49,944.00	\$ 66,176.00
XII	\$ 76,138.00	\$100,883.00
Total		Total
Assessable	\$671,995.00	Benefits \$890,395.00
Other Street Work	<u>\$ 19,161.00</u>	
Total Project Cost	\$691,156.00	

- * The actual costs of constructing and installing the improvement in any individual assessment unit may exceed the estimated cost for such improvement, or the estimated amount of the maximum benefits that are anticipated will be derived therefrom, or both, that is stated above, but in no event shall the aggregate assessment that is levied against any lot or parcel of property for all of the assessment units exceed the aggregate amount of the estimates of the maximum benefits to such lot or parcel by virtue of the construction and installation of the improvements in all of the assessment units.

The amounts that are proposed to be assessed shall be assessed against all of the assessable lots and parcels of property that are benefited, proportionately to the benefits that each such lot or parcel receives, and shall be assessed against the assessable lots and parcels of property that abut such improvements on the following bases:

ASSESSMENT UNIT NO. I (Street Paving)

Such estimates shall be computed on a front foot basis, i.e., on the basis that each lot or parcel of property that is to be assessed in the assessment unit shall be assessed a portion of the aggregate dollar amount that is being levied against the entire assessment unit in the proportion that the frontage of such lot or parcel that abuts, and is benefited by, the improvement bears to the total of the frontage of all of the assessable properties that abut, and are benefited by, the improvement in the assessment unit; provided, however, that, if any such lot or parcel is divided, after the date of the hearing as to the propriety and advisability of making such improvement but prior to the date on which the assessments are levied by ordinance, pursuant to NRS 271.390, into sublots or subparcels, the assessment against such lot or parcel shall be apportioned

among such sublots or subparcels on an area basis, i.e., on the basis that each such sublot or subparcel shall be assessed a portion of the aggregate dollar amount that is being levied against the entire lot or parcel in the proportion that the area of such sublot or subparcel bears to the aggregate area of the entire lot or parcel. The cost of acquiring the necessary rights-of-way that are required in order to construct and install the improvement and the cost of paving street intersections shall be included in the total costs and expenses that are proposed to be levied in the assessment unit and shall be assessed against the respective lots and parcels therein on the aforesaid front foot basis.

ASSESSMENT UNIT NO. II (Curbs and Gutters)

Such estimates shall be computed on a lineal foot basis, i.e., on the basis that each lot or parcel of property that is to be assessed in the assessment unit shall be assessed a portion of the aggregate dollar amount that is being levied against the entire assessment unit in the proportion that the number of lineal feet of such lot or parcel that abut, and are benefited by, the improvement bears to the total of the number of lineal feet of all of the assessable properties that abut, and are benefited by, the improvement in the assessment unit; provided, however, that, if any such lot or parcel is divided, after the date of the hearing as to the propriety and advisability of making such improvement but prior to the date on which the assessments are levied by ordinance, pursuant to NRS 271.390, into sublots or subparcels, the assessment against such lot or

parcel shall be apportioned among such sublots or subparcels on an area basis, i.e., on the basis that each such sublot or subparcel shall be assessed a portion of the aggregate dollar amount that is being levied against the entire lot or parcel in the proportion that the area of such sublot or subparcel bears to the aggregate area of the entire lot or parcel. The cost of acquiring the necessary rights-of-way that are required in order to construct and install the improvement shall be included in the total costs and expenses that are proposed to be levied in the assessment unit and shall be assessed against the respective lots and parcels therein on the aforesaid lineal foot basis.

ASSESSMENT UNIT NO. III (Sidewalks)

Such estimates shall be computed on a lineal foot basis, i.e., on the basis that each lot or parcel of property that is to be assessed in the assessment unit shall be assessed a portion of the aggregate dollar amount that is being levied against the entire assessment unit in the proportion that the number of lineal feet of such lot or parcel that abut, and are benefited by, the improvement bears to the number of lineal feet of all of the assessable properties that abut, and are benefited by, the improvement in the assessment unit; provided, however, that, if any such lot or parcel is divided, after the date of the hearing as to the propriety and advisability of making such improvement but prior to the date on which the assessments are levied by ordinance, pursuant to NRS 271.390, into sublots or subparcels, the assessment against such lot or parcel shall be apportioned among such sublots or subparcels on an area basis, i.e., on the

basis that each such subplot or subparcel shall be assessed a portion of the aggregate dollar amount that is being levied against the entire lot or parcel in the proportion that the area of such subplot or subparcel bears to the aggregate area of the entire lot or parcel. The cost of acquiring the necessary rights-of-way that are required in order to construct and install the improvement shall be included in the total costs and expenses that are proposed to be levied in the assessment unit and shall be assessed against the respective lots and parcels therein on the aforesaid lineal foot basis.

ASSESSMENT UNIT NO. IV (Street Lighting)

Such estimates shall be computed on a front foot basis, i.e., on the basis that each lot or parcel of property that is to be assessed in the assessment unit shall be assessed a portion of the aggregate dollar amount that is being levied against the entire assessment unit in the proportion that the frontage of such lot or parcel that abuts the street along which the improvement is being installed, and is benefited by such improvement, bears to the total of the frontage of all of the assessable properties that abut the street along which the improvement is being installed, and are benefited by such improvement, in the assessment unit; provided, however, that, if any such lot or parcel is divided, after the date of the hearing as to the propriety and advisability of making such improvement but prior to the date on which the assessments are levied by ordinance, pursuant to NRS 271.390, into sublots or subparcels, the assessment against such lot or parcel shall be apportioned

among such sublots or subparcels on an area basis, i.e., on the basis that each such sublot or subparcel shall be assessed a portion of the aggregate dollar amount that is being levied against the entire lot or parcel in the proportion that the area of such sublot or subparcel bears to the aggregate area of the entire lot or parcel. The cost of acquiring the necessary rights-of-way that are required in order to construct and install the improvement shall be included in the total costs and expenses that are proposed to be levied in the assessment unit and shall be assessed against the respective lots and parcels therein on the aforesaid front foot basis.

ASSESSMENT UNIT NO. V (Commercial Driveway Approaches)

Such estimates shall be computed on the basis that each lot or parcel of property that is served by, and is to be assessed for, any Option A Driveway Approach that is constructed and installed in the assessment unit shall be assessed a portion of the aggregate dollar amount that is being levied against the entire assessment unit for Option A Driveway Approaches in the proportion that the square footage of the Option A Driveway Approach or Approaches that is or are installed to serve such lot or parcel bears or bear to the aggregate square footage of all of the Option A Driveway Approaches that are installed to serve all of the assessable properties in the assessment unit and on the basis that each lot or parcel of property that is served by, and is to be assessed for, any Option B Driveway Approach that is constructed and installed in the assessment unit shall be assessed a portion of the aggregate dollar amount that is being

levied against the entire assessment unit for Option B Driveway Approaches in the proportion that the square footage of the Option B Driveway Approach or Approaches that is or are installed to serve such lot or parcel bears or bear to the aggregate square footage of all of Option B Driveway Approaches that are installed to serve all of the assessable properties in the assessment unit.

ASSESSMENT UNIT NO. VI (Residential Driveway Approaches)

Such estimates shall be computed on the basis that each lot or parcel of property that is served by, and is to be assessed for, any improvement that is constructed and installed in the assessment unit shall be assessed a portion of the aggregate dollar amount that is being levied against the entire assessment unit in the proportion that the number and length of the driveway approaches that are installed to serve such lot or parcel bears to the total number and aggregate length of all of the driveway approaches that are installed to serve all of the assessable properties in the assessment unit.

ASSESSMENT UNIT NO. VII (Alley Driveway Approach)

Such estimate shall be computed on the basis that the lot or parcel of property that is served by the alley gutter that is constructed and installed in the assessment unit shall be assessed the entire cost and expense of constructing and installing such alley gutter.

ASSESSMENT UNIT NO VIII (Potable Water Laterals)

Such estimates shall be computed on the basis that each lot or parcel of property that is to be assessed in the assessment unit for 5/8ths-inch or 3/4ths-inch potable water laterals shall

be assessed a portion of the aggregate dollar amount that is being levied against the entire assessment unit for 5/8ths-inch or 3/4ths-inch water laterals in the proportion that the number of 5/8ths-inch or 3/4ths-inch water laterals that are installed to serve such lot or parcel bears to the total number of 5/8ths-inch or 3/4ths-inch water laterals that are installed to serve all of the assessable properties in the assessment unit, on the basis that each lot or parcel of property that is to be assessed in the assessment unit for 1-inch to 2-inch potable water laterals shall be assessed a portion of the aggregate dollar amount that is being levied against the entire assessment unit for 1-inch to 2-inch water laterals in the proportion that the number of 1-inch to 2-inch water laterals that are installed to serve such lot or parcel bears to the total number of 1-inch to 2-inch water laterals that are installed to serve all of the assessable properties in the assessment unit, on the basis that each lot or parcel of property that is to be assessed in the assessment unit for 6-inch potable water laterals shall be assessed a portion of the aggregate dollar amount that is being levied against the entire assessment unit for 6-inch water laterals in the proportion that the number of 6-inch water laterals that are installed to serve such lot or parcel bears to the total number of 6-inch water laterals that are installed to serve all of the assessable properties in the assessment unit and on the basis that each lot or parcel of property that is to be assessed in the assessment unit for 8-inch potable water laterals shall be assessed a portion of the aggregate dollar amount that

is being levied against the entire assessment unit for 8-inch water laterals in the proportion that the number of 8-inch water laterals that are installed to serve such lot or parcel bears to the total number of 8-inch water laterals that are installed to serve all of the assessable properties in the assessment unit.

ASSESSMENT UNIT NO. IX (Sanitary Sewer Laterals)

Such estimates shall be computed on the basis that each lot or parcel of property that is to be assessed in the assessment unit for 6-inch sanitary sewer laterals shall be assessed a portion of the aggregate dollar amount that is being levied against the entire assessment unit for 6-inch sewer laterals in the proportion that the number of 6-inch sewer laterals that are installed to serve such lot or parcel bears to the total number of 6-inch sewer laterals that are installed to serve all of the assessable properties in the assessment unit and on the basis that each lot or parcel of property that is to be assessed in the assessment unit for 8-inch sanitary sewer laterals shall be assessed a portion of the aggregate dollar amount that is being levied against the entire assessment unit for 8-inch sewer laterals in the proportion that the number of 8-inch sewer laterals that are installed to serve such lot or parcel bears to the total number of 8-inch sewer laterals that are installed to serve all of the assessable properties in the assessment unit.

ASSESSMENT UNIT NO. X (Sanitary Sewer Collection Mains)

Such estimates shall be computed on a front foot basis, i.e., on the basis that each lot or parcel of property that will be served by either of the sanitary sewer collection mains and is to

be assessed in the assessment unit shall be assessed a portion of the aggregate dollar amount that is being levied against the entire assessment unit in the proportion that the frontage of such lot or parcel that abuts either of the streets along which a sewer collection main is being installed bears to the frontage of all of the assessable property that will be served by either of such sewer collection mains and abut either of the streets along which the same are being installed in the assessment unit; provided, however, that, if any such lot or parcel is divided, after the date of the hearing as to the propriety and advisability of making such improvement but prior to the date on which the assessments are levied by ordinance, pursuant to NRS 271.390, into sublots or subparcels, the assessment against such lot or parcel shall be apportioned amount such sublots or subparcels on an area basis, i.e., on the basis that each such subplot or subparcel shall be assessed a portion of the aggregate dollar amount that is being levied against the entire lot or parcel in the proportion that the area of such subplot or subparcel bears to the aggregate area of the entire lot or parcel.

ASSESSMENT UNIT NO. XI (Scholl Drive Improvements)

Such estimates for the street paving, curbs and gutters and sidewalks shall be computed on a front foot basis, i.e., on the basis that each lot or parcel of property that is to be assessed in the assessment unit shall be assessed a portion of the aggregate dollar amount that is being levied against the entire assessment unit in the proportion that the frontage of such lot

or parcel that abuts, and is benefited by, the improvement bears to the total of the frontage of all of the assessable properties that abut, and are benefited by, the improvement in the assessment unit (with an appropriate reduction, both in the number of the front feet of the curbs and gutters and sidewalks that abut any such lot or parcel and in the aggregate number of the front feet of the curbs and gutters and sidewalks that abut all of the assessable properties in the assessment unit, that corresponds to the length of any driveway approach that serves such lot or parcel and to the aggregate length of all of the driveway approaches that serve all of the assessable properties in the assessment unit, respectively) and such estimates for the driveway approaches shall be computed on the basis that each lot or parcel of property that is served by, and is to be assessed for, any Option A Driveway Approach that is constructed and installed in the assessment unit shall be assessed a portion of the aggregate dollar amount that is being levied against the entire assessment unit for Option A Driveway Approaches in the proportion that the square footage of the Option A Driveway Approach or Approaches that is or are installed to serve such lot or parcel bears or bear to the aggregate square footage of all of the Option A Driveway Approaches that are installed to serve all of the assessable properties in the assessment unit, on the basis that each lot or parcel of property that is served by, and is to be assessed for, any Option B Driveway Approach that is constructed and installed in the assessment unit shall be assessed a portion of the aggregate dollar amount that is being

levied against the entire assessment unit for Option B Driveway Approaches in the proportion that the square footage of the Option B Driveway Approach or Approaches that is or are installed to serve such lot or parcel bears or bear to the aggregate square footage of all of the Option B Driveway Approaches that are installed to serve all of the assessable properties in the assessment unit and on the basis that each lot or parcel of property that is to be assessed in the assessment unit for residential driveway approaches shall be assessed a portion of the aggregate dollar amount that is being levied against the entire assessment unit for residential driveway approaches in the proportion that the number and length of the residential drive approaches that are installed to serve such lot or parcel bear to the total number and aggregate length of all of the residential driveway approaches that are installed to serve all of the assessable properties in the assessment unit, provided, however, that, if any such lot or parcel is divided, after the date of the hearing as to the propriety and advisability of making such improvement but prior to the date on which the assessments are levied by ordinance, pursuant to NRS 271.390, into sublots or subparcels, the assessment against such lot or parcel shall be apportioned among such sublots or subparcels on an area basis, i.e., on the basis that each such subplot or subparcel shall be assessed a portion of the aggregate dollar amount that is being levied against the entire lot or parcel in the proportion that the area of such subplot or subparcel bears to the aggregate area of the entire lot or parcel. The cost of acquiring the necessary

rights-of-way that are required in order to construct and install the improvements and the cost of paving street intersections shall be included in the total costs and expenses that are proposed to be levied in the assessment unit and shall be assessed against the respective lots and parcels therein on the same bases as aforesaid.

ASSESSMENT UNIT NO. XII (Lorenzi Boulevard Improvements)

Such estimates for the street paving, curbs and gutters and sidewalks shall be computed on a front foot basis, i.e., on the basis that each lot or parcel of property that is to be assessed in the assessment unit shall be assessed a portion of the aggregate dollar amount that is being levied against the entire assessment unit in the proportion that the frontage of such lot or parcel that abuts, and is benefited by, the improvement bears to the total of the frontage of all of the assessable properties that abut, and are benefited by, the improvement in the assessment unit (with an appropriate reduction, both in the number of the front feet of the curbs and gutters and sidewalks that abut any such lot or parcel and in the aggregate number of the front feet of the curbs and gutters and sidewalks that abut all of the assessable properties in the assessment unit, that corresponds to the length of any driveway approach that serves such lot or parcel and to the aggregate length of all of the driveway approaches that serve all of the assessable properties in the assessment unit, respectively) and such estimates for the driveway approaches shall be computed on the basis that each lot or parcel of property that is served by, and is to be assessed

for, any Option A Driveway Approach that is constructed and installed in the assessment unit shall be assessed a portion of the aggregate dollar amount that is being levied against the entire assessment unit for Option A Driveway Approaches in the proportion that the square footage of the Option A Driveway Approach or Approaches that is or are installed to serve such lot or parcel bears or bear to the aggregate square footage of all of the Option A Driveway Approaches that is or are installed to serve all of the assessable properties in the assessment unit, on the basis that each lot or parcel of property that is served by, and is to be assessed for, any Option B Driveway Approach that is constructed and installed in the assessment unit shall be assessed a portion of the aggregate dollar amount that is being levied against the entire assessment unit for Option B Driveway Approaches in the proportion that the square footage of the Option B Driveway Approach or Approaches that is or are installed to serve such lot or parcel bears or bear to the aggregate square footage of all of the Option B Driveway Approaches that are installed to serve all of the assessable properties in the assessment unit and on the basis that each lot on or parcel of property that is to be assessed in the assessment unit for residential driveway approaches shall be assessed a portion of the aggregate dollar amount that is being levied against the entire assessment unit for residential driveway approaches in the proportion that the number and length of the residential driveway approaches that are installed to serve such lot or parcel bears to the total number and aggregate length of all of the

residential driveway approaches that are installed to serve all of the assessable properties in the assessment unit, provided, however, that, if any such lot or parcel is divided, after the date of the hearing as to the propriety and advisability of making such improvement but prior to the date on which the assessments are levied by ordinance, pursuant to NRS 271.390, into sublots or subparcels, the assessment against such lot or parcel shall be apportioned among such sublots or subparcels on an area basis, i.e., on the basis that each such sublot or subparcel shall be assessed a portion of the aggregate dollar amount that is being levied against the entire lot or parcel in the proportion that the area of such sublot or subparcel bears to the aggregate area of the entire lot or parcel. The cost of acquiring the necessary rights-of-way that are required in order to construct and install the improvements and the cost of paving street intersections shall be included in the total costs and expenses that are proposed to be levied in the assessment unit and shall be assessed against the respective lots and parcels therein on the same bases as aforesaid.

In each assessment unit, an equitable adjustment will be made for any assessment that is levied upon any irregular lot or parcel of property in order that the assessments that are levied according to the benefits that will be derived from such improvements by the respective lots and parcels will be equal and uniform. The portion of the costs that is proposed to be assessed against, and the estimated amount of the maximum benefits that are anticipated will be derived from the proposed

improvements by, each lot or parcel of property shall be as is stated in the aforesaid assessment plat. Regardless of the basis that is used for apportioning the assessments, in the case of a wedge, "V" or other irregularly shaped lot or parcel, the amount that is apportioned thereto shall be in proportion to the special benefits that will be derived thereby.

The areas that are proposed to be assessed within the respective assessment units which the City Council proposes to have so improved are as follows:

ASSESSMENT UNIT NO. I (Street Paving)

Each lot or parcel of real property lying and being situate in the City of Las Vegas, County of Clark, State of Nevada, and being a portion of Section 36, Township 20 South, Range 60 East, M.D.M., that is benefited by the improvement and abuts (i) Alpine Street (60 feet wide) along the south side thereof from the centerline of Mohawk Street (60 feet wide) easterly to the centerline of Decatur Boulevard (120 feet wide); (ii) Cory Place (60 feet wide) along either side thereof from the centerline of Soprano Lane (60 feet wide) easterly to the centerline of Upland Boulevard (80 feet wide) and along the north side thereof from the centerline of said Mohawk Street easterly to the centerline of Breanna Street (60 feet wide); and (iii) Trent Avenue (60 feet wide) along the south side thereof from the centerline of said Soprano Lane easterly to the centerline of said Upland Boulevard.

ASSESSMENT UNIT NO. II (Curbs and Gutters)

Each lot or parcel of real property lying and being situate in the City of Las Vegas, County of Clark, State of Nevada, and

being a portion of Section 36, Township 20 South, Range 60 East, M.D.M., that is benefited by the improvement and abuts (i) Alpine Street (60 feet wide) along the south side thereof from the centerline of Mohawk Street (60 feet wide) easterly to the centerline of Decatur Boulevard (120 feet wide); (ii) Cory Place (60 feet wide) along either side thereof from the centerline of Soprano Lane (60 feet wide) easterly to the centerline of Upland Boulevard (80 feet wide) and along the north side thereof from the centerline of said Mohawk Street easterly to the centerline of Breanna Street (60 feet wide); (iii) Trent Avenue (60 feet wide) along the south side thereof from the centerline of said Soprano Lane easterly to the centerline of said Upland Boulevard; and (iv) Soprano Lane (60 feet wide) along the east side thereof from the centerline of said Cory Place northerly to the centerline of said Trent Avenue.

ASSESSMENT UNIT NO. III (Sidewalks)

Each lot or parcel of real property lying and being situate in the City of Las Vegas, County of Clark, State of Nevada, and being a portion of Section 36, Township 20 South, Range 60 East, M.D.M., that is benefited by the improvement and abuts (i) Alpine Street (60 feet wide) along the south side thereof from the centerline of Mohawk Street (60 feet wide) easterly to the centerline of Decatur Boulevard (120 feet wide); (ii) Cory Place (60 feet wide) along either side thereof from the centerline of Soprano Lane (60 feet wide) easterly to the centerline of Upland Boulevard (80 feet wide) and along the north side thereof from the centerline of said Mohawk Street easterly to the centerline

of Breanna Street (60 feet wide); (iii) Trent Avenue (60 feet wide) along the south side thereof from the centerline of said Soprano Lane easterly to the centerline of said Upland Boulevard; and (iv) Soprano Lane (60 feet wide) along the east side thereof from the centerline of said Cory Place northerly to the centerline of said Trent Avenue.

ASSESSMENT UNIT NO. IV (Street Lighting)

Each lot or parcel of real property lying and being situate in the City of Las Vegas, County of Clark, State of Nevada, and being a portion of Section 36, Township 20 South, Range 60 East, M.D.M., that is benefited by the improvement and abuts Cory Place (60 feet wide) along either side thereof from the centerline of Soprano Lane (60 feet wide) easterly to the centerline of Upland Boulevard (80 feet wide) and along the north side thereof from the centerline of said Mohawk Street easterly to the centerline of Breanna Street (60 feet wide).

ASSESSMENT UNIT NO. V (Commercial Driveway Approaches)

Each lot or parcel of real property lying and being situate in the City of Las Vegas, County of Clark, State of Nevada, and being a portion of Section 36, Township 20 South, Range 60 East, M.D.M., that is benefited by the improvement and abuts (i) Alpine Street (60 feet wide) along the south side thereof from the centerline of Mohawk Street (60 feet wide) easterly to the centerline of Decatur Boulevard (120 feet wide); (ii) Cory Place (60 feet wide) along either side thereof from the centerline of Soprano Lane (60 feet wide) easterly to the centerline of Upland Boulevard (80 feet wide) and along the north side thereof from

the centerline of said Mohawk Street easterly to the centerline of Breanna Street (60 feet wide); and (iii) Trent Avenue (60 feet wide) along the south side thereof from the centerline of said Soprano Lane easterly to the centerline of said Upland Boulevard.

ASSESSMENT UNIT NO. VI (Residential Driveway Approaches)

Each lot or parcel of real property lying and being situate in the City of Las Vegas, County of Clark, State of Nevada, and being a portion of Section 36, Township 20 South, Range 60 East, M.D.M., that is benefited by the improvement and abuts (i) Alpine Street (60 feet wide) along the south side thereof from the centerline of Mohawk Street (60 feet wide) easterly to the centerline of Decatur Boulevard (120 feet wide); (ii) Cory Place (60 feet wide) along either side thereof from the centerline of Soprano Lane (60 feet wide) easterly to the centerline of Upland Boulevard (80 feet wide) and along the north side thereof from the centerline of said Mohawk Street easterly to the centerline of Breanna Street (60 feet wide); (iii) Trent Avenue (60 feet wide) along the south side thereof from the centerline of said Soprano Lane easterly to the centerline of said Upland Boulevard; and (iv) Soprano Lane (60 feet wide) along the east side thereof from the centerline of said Cory Place northerly to the centerline of said Trent Avenue.

ASSESSMENT UNIT NO. VII (Alley Driveway Approach)

That certain lot or parcel of real property lying and being situate in the City of Las Vegas, County of Clark, State of Nevada, and being a portion of Section 36, Township 20 South, Range 60 East, M.D.M., that is benefited by the improvement,

abuts Alpine Street (60 feet wide) on the south side thereof and is identified by the Clark County, Nevada, Assessor's parcel number as Parcel 030-110-041.

ASSESSMENT UNIT NO. VIII (Potable Water Laterals)

Each lot or parcel of real property lying and being situate in the City of Las Vegas, County of Clark, State of Nevada, and being a portion of Section 36, Township 20 South, Range 60 East, M.D.M., that is benefited by the improvement and abuts (i) Alpine Street (60 feet wide) along the south side thereof from the centerline of Mohawk Street (60 feet wide) easterly to the centerline of Decatur Boulevard (120 feet wide); and (ii) Cory Place (60 feet wide) along either side thereof from the centerline of Soprano Lane (60 feet wide) easterly to the centerline of Upland Boulevard (80 feet wide) and along the north side thereof from the centerline of said Mohawk Street easterly to the centerline of Breanna Street (60 feet wide).

ASSESSMENT UNIT NO. IX (Sanitary Sewer Laterals)

Each lot or parcel of real property lying and being situate in the City of Las Vegas, County of Clark, State of Nevada, and being a portion of Section 36, Township 20 South, Range 60 East, M.D.M., that is benefited by the improvement and abuts (i) Alpine Street (60 feet wide) along the south side thereof from the centerline of Mohawk Street (60 feet wide) easterly to the centerline of Decatur Boulevard (120 feet wide); (ii) Cory Place (60 feet wide) along either side thereof from the centerline of Soprano Lane (60 feet wide) easterly to the centerline of Upland Boulevard (80 feet wide) and along the north side thereof from

the centerline of said Mohawk Street easterly to the centerline of Breanna Street (60 feet wide); (iii) Trent Avenue (60 feet wide) along the south side thereof from the centerline of said Soprano Lane easterly to the centerline of said Upland Boulevard; and (iv) Soprano Lane (60 feet wide) along the east side thereof from the centerline of said Cory Place northerly to the centerline of said Trent Avenue.

ASSESSMENT UNIT NO. X (Sanitary Sewer Collection Mains)

Each lot or parcel of real property lying and being situate in the City of Las Vegas, County of Clark, State of Nevada, and being a portion of Section 36, Township 20 South, Range 60 East, M.D.M., that is benefited by the improvement and abuts (i) Trent Avenue (60 feet wide) along the south side thereof from the centerline of Soprano Lane (60 feet wide) easterly to the centerline of Upland Boulevard (80 feet wide); and (ii) Soprano Lane (60 feet wide) along the east side thereof from the centerline of Cory Place (60 feet wide) northerly to the centerline of said Trent Avenue.

ASSESSMENT UNIT NO. XI (Scholl Drive Improvements)

Each lot or parcel of real property lying and being situate in the City of Las Vegas, County of Clark, State of Nevada, and being a portion of Section 35, Township 20 South, Range 60 East, M.D.M., that is benefited by the improvements and abuts Scholl Drive (51 feet wide) along the east side thereof from the centerline of Charleston Boulevard (100 feet wide) northerly to a point that is approximately 452 feet north of the centerline of said Charleston Boulevard.

ASSESSMENT UNIT NO. XII (Lorenzi Boulevard Improvements)

Each lot or parcel of real property lying and being situate in the City of Las Vegas, County of Clark, State of Nevada, being a portion of Section 35, Township 20 South, Range 60 East, M.D.M., that is benefited by the improvements and abuts Lorenzi Boulevard (60 feet wide) along the west side thereof from the centerline of Charleston Boulevard (100 feet wide) northerly to a point that is approximately 700 feet north of the centerline of said Charleston Boulevard.

The proposed improvements will result in no substantial change in the existing street elevations or grades.

Each person who is interested is hereby advised that the plans, plats, typical sections, preliminary estimates of the total cost, the description of the lots and parcels of property that are proposed to be assessed, the portion of the cost that is proposed to be assessed thereagainst and the estimated amount of the maximum benefits that are anticipated will be derived from such improvements by each such lot or parcel with respect to the respective assessment units are on file in the Office of the City Clerk and may be inspected by any property owner or other interested person during the regular office hours of that Office.

On Wednesday, the 2nd day of June, 1993, at the hour of 2:00 o'clock p.m., at the Council Chambers in the Las Vegas City Hall Complex, 400 East Stewart Avenue, Las Vegas, Nevada 89101, or at any time prior to such date and time, at the Office of the City Clerk at said City Hall, the owner or owners of any lot or

parcel of property that is proposed to be assessed, any other person who is interested in any thereof or any tenant of any mobile home park that is located on any of such lots or parcels may file a written protest or objection and may appear before the City Council at such time and place and be heard as to the propriety and advisability of constructing and installing such improvements, as to the cost thereof, as to the proposed method of the payment therefor and as to the amount thereof that is proposed to be assessed against, and the estimated amount of the maximum benefits that are anticipated will be derived from such improvements by, the respective lots and parcels of property that abut the improvements that are proposed to be so constructed and installed. If any person wishes to object to the amount of the maximum benefits that are estimated will inure to his lot or parcel of property from the proposed improvements or to the legality of the proposed assessment thereagainst in any respect, such person is entitled to be represented at such hearing by counsel.

Any owner of any of such lots or parcels, any other person who is interested in any thereof or any tenant of any mobile home park that is located on any of such lots or parcels who wishes to make any protest or objection must make such protest or objection in writing at the Office of the City Clerk at least three (3) days before the time that is set for such hearing. In this connection, a person should object to the formation of the District in the manner as aforesaid if his or her support therefor is based upon a statement or representation

concerning the District that is not contained in the language of this notice. Any person who files a written protest or objection three days before the time of such hearing as aforesaid shall have the right, within thirty (30) days after the City Council has finally passed upon such protest or objection, to commence an action or suit in any court of competent jurisdiction to correct or set aside such determination, but thereafter all actions or suits that attack the validity of the proceedings or the amount of benefits, or both, shall be perpetually barred.

NOTE: A PERSON'S ONLY CHANCE TO PRESENT EVIDENCE TO DEMONSTRATE THAT (A) THE MAKING OF SUCH IMPROVEMENTS IS IMPROPER OR ILL ADVISED, (B) THE COST THEREOF IS EXCESSIVE, (C) THE PROPOSED METHOD OF PAYMENT THEREFOR IS IMPROPER OR (D) THE AMOUNT OF THE ESTIMATED COSTS THAT ARE PROPOSED TO BE ASSESSED AGAINST THE LOT OR PARCEL OF PROPERTY THAT HE OR SHE OWNS OR IS OTHERWISE INTERESTED OR ON WHICH IS LOCATED A MOBILE HOME PARK OF WHICH HE OR SHE IS A TENANT, OR THE ESTIMATED AMOUNT OF THE MAXIMUM BENEFITS THAT ARE ANTICIPATED WILL BE DERIVED BY SUCH LOT OR PARCEL FROM THE PROPOSED IMPROVEMENT THEREOF, OR BOTH, ARE EXCESSIVE WILL BE AT SUCH HEARING. NO SUCH PERSON WILL BE ABLE TO PRESENT ANY ADDITIONAL EVIDENCE IN SUPPORT OF HIS OR HER PROTEST OR OBJECTION IN ANY SUCH ACTION OR SUIT IN ANY COURT.

If the owners of more than one-half of the frontage that is proposed to be assessed for the improvements that are proposed to be constructed and installed in ASSESSMENT UNIT NO. I, ASSESSMENT UNIT NO. IV or ASSESSMENT UNIT NO. X or for the street paving, curb and gutter and sidewalk improvements that are proposed to be constructed and installed in ASSESSMENT UNIT NO. XI and ASSESSMENT UNIT NO. XII, of more than one-half of the lineal footage that is proposed to be assessed for the

improvements that are proposed to be constructed and installed in ASSESSMENT UNIT NO. II or ASSESSMENT UNIT NO. III or of the lots and parcels of property that are proposed to be assessed for more than one-half of the cost of the improvements that are proposed to be installed in ASSESSMENT UNIT NO. VIII or ASSESSMENT UNIT NO. IX shall file written protests of objections thereto, the particular improvement for that particular assessment unit shall not be constructed or installed; provided, however, that since not more than 1,320 feet, including street intersections, remain unimproved with street paving, curbs and gutters, sidewalks, streetlights or sanitary sewer collection mains, or any combination thereof, along any of the streets that are proposed to be improved in ASSESSMENT UNIT NO. I, ASSESSMENT UNIT NO. II, ASSESSMENT UNIT NO. III, ASSESSMENT UNIT NO. IV, ASSESSMENT UNIT NO. X, ASSESSMENT UNIT NO. XI and ASSESSMENT UNIT NO. XII, or along the side thereof that is to be so improved, as the case may be, between the street paving, curbs and gutters, sidewalks, streetlights and sanitary sewer collection mains, respectively, that presently exist along such streets or such side, as the case may be, or that presently exist in streets that intersect such street or such side, as the case may be, the City Council may, pursuant to NRS 271.306(2)(b), order the construction and installation of the street paving improvements in ASSESSMENT UNIT NO. I, the construction and installation of the curb and gutter improvements in ASSESSMENT UNIT NO. II, the construction and installation of the sidewalk improvements in ASSESSMENT UNIT NO. III, the construction and installation of the street lighting

improvements in ASSESSMENT UNIT NO. IV, the construction and installation of the sanitary sewer collection main improvements in ASSESSMENT UNIT NO. X, the construction and installation of the street paving, curb and gutter and sidewalk improvements in ASSESSMENT UNIT NO. XI or the construction and installation of the street paving, curb and gutter and sidewalk improvements in ASSESSMENT UNIT NO. XII, or any combination thereof, in which event the construction and installation of such improvements, or any thereof, at the option of the City Council, shall not be stayed, defeated or prevented by written complaints, protests or objections thereto. The improvements that are proposed to be constructed and installed in ASSESSMENT UNIT NO. V, ASSESSMENT UNIT NO. VI and ASSESSMENT UNIT NO. VII and the driveway approach improvements that are proposed to be constructed and installed in ASSESSMENT UNIT NO. XI and ASSESSMENT UNIT NO. XII will be constructed and installed to serve each particular lot or parcel of property at the location and in the number and length as are specified by the owner or owners thereof, and no such improvement will be constructed and installed to serve any such lot or parcel without the approval of the owner or owners thereof.

After such hearing, the City Council will make a determination as to the advisability of so improving such streets and portions thereof, will determine the kind and character of the improvements that are to be so constructed and installed and will enter into a contract with the bidder that submits the lowest responsive and responsible bid for the doing of such work and the furnishing of all of the necessary materials in response

to a duly advertised invitation for construction bids.

After the making of such contract, the City Council will determine what portion of the cost of such work, including without limitation the expenses that are incidental thereto, will be assessed against the respective assessable lots and parcels of property that will be specially benefited thereby, and the assessments will be levied in accordance with the laws of the State of Nevada. In no event will an assessment exceed the estimated amount of the maximum benefits that are anticipated will be derived by the lot or parcel of property upon which the same is levied, and, in the event that the estimated assessment that is shown on the preliminary assessment roll that is on file in the Office of the City Clerk with respect to any lot or parcel of property that is proposed to be assessed exceeds the estimated amount of the maximum benefits that are anticipated will inure to such lot or parcel by reason of the construction and installation of such improvements, such disparity will be eliminated by reducing the amount of such assessment after the City Council has determined as aforesaid what portion of such costs and expenses will be assessed against the respective assessable lots and parcels. The City Council will provide that each assessment may be payable without interest or demand during a specified period, at the election of the owner or owners of the lot or parcel of property against which it is assessed, or in twenty (20) substantially equal semiannual installments of principal. The City Council will also provide the time and terms for the payment of such assessments and for the rate of interest per annum

that will be borne by the deferred installments thereof, which rate shall not exceed by more than three percent (3%) the Index of Twenty Bonds that was most recently published before the date on which the ordinance that levies the assessments is adopted, and will fix the penalties that are to be collected upon delinquent payments.

By order of the City Council of the City of Las Vegas,
Nevada.

Dated this 5th day of May, 1993.

KATHLEEN M. TIGHE, City Clerk

SECTION 5. That the City Clerk be, and she hereby is, authorized, empowered and directed to invite bids for the performance of the work that is contemplated in this Resolution by advertising an invitation for such bids at least once a week for three (3) consecutive weeks by three (3) weekly insertions in said Las Vegas Review-Journal; provided, however, that not less than fourteen (14) days shall intervene between the first publication and the last publication; provided, further, that the last publication shall be at least five (5) days prior to the day on which the bids are to be received; and provided, further, that no contract shall be made or awarded until after the public hearing that is hereinabove provided for.

INTRODUCED, PASSED AND ADOPTED this 5th day of May, 1993.

JAN LAVERTY JONES, Mayor 5/10/93

ATTEST:

KATHLEEN M. TIGHE, City Clerk
