EDI-SPECIAL PROJECT GRANT**

PROJECT DESCRIPTION

The City of Las Vegas (the City) anticipates receiving a \$750,000 Economic Development Initiative Grant (EDI Grant) for downtown development activities. The City believes that public safety for the residents and businesses located in downtown Las Vegas and carrying out crime reduction initiatives are priorities to the needs of the downtown community.

In order to enhance public safety and further crime reduction initiatives in downtown Las Vegas, the City intends to acquire land on or near to E. Fremont St. and construct a downtown Las Vegas Metropolitan Police (Metro) Substation on the land acquired. The location of the new downtown Metro Substation on or near to E. Fremont St. will especially enhance public safety and crime reduction initiatives for the residents and businesses in the surrounding neighborhood, which is composed of predominantly low-to moderate-income persons.

The new downtown Metro Substation on or near to E. Fremont St. will relocate the current downtown Metro Substation at the historic Fifth Street School. The relocation will allow the historic Fifth Street School to be converted to civic, commercial, and residential uses that will enhance its position as the heart of the Las Vegas office core district.

The new downtown Metro Substation will provide employment for up to 170 police officers and civilian personnel, as well as, accommodate approximately 100 police vehicles.

The total estimated cost for the new downtown Metro Substation is \$5,686,500. The key components of the project are: 1) Land acquisition (estimated at \$2,686,500); and, 2) Construction of the structure (estimated at \$3,000,000). The City desires to apply the \$750,000 EDI Grant towards the land acquisition component of the project. The City is actively seeking a parcel of land to acquire for the new downtown Metro Substation in the area along E. Fremont St. bounded by Stewart St. to the north, Bridger Ave. to the south, Eastern Ave. to the east and Las Vegas Blvd. to the west.

The estimated completion time for the project is 24 months from the date of land acquisition. Land acquisition is estimated for completion in August 2001 and construction of the structure, as well as, full project completion is estimated for August 2003.

The entity responsible for implementing the project is the City of Las Vegas.
