Provision

R E S O L U T I O N

A RESOLUTION MAKING A PROVISIONAL ORDER TO THE EFFECT THAT THE WORK OF IMPROVEMENT OF CERTAIN STREETS AND ALLEYS, AND PARTS THEREOF, WITH INTERSECTIONS, WITHIN THE PROPOSED CITY OF LAS VEGAS, NEVADA, SPECIAL IMPROVEMENT DISTRICT NO. 411 SHALL BE DONE:

WHEREAS, the City Council of the City of Las Vegas (the "City Council" and the "City", respectively, herein), in the County of Clark and State of Nevada, pursuant to Chapter 271 of the Nevada Revised Statutes, and all laws that are supplemental thereto, has directed the City Engineer of the City (the "City Engineer" herein) to file with the City Clerk, who is also the Clerk of the City Council (the "City Clerk" herein), in conjunction with a total project that will include the construction and installation along Decatur Boulevard of street paving 86 feet in width; a raised median island or a two-way center left turn lane, or a combination thereof; traffic control devices; curbs and gutters; sidewalks; streetlights; sanitary sewer laterals; potable water laterals; driveway approaches; and drainage facilities (the "Project" herein), certain preliminary plans, assessment plats, typical sections of certain contemplated improvements, preliminary estimates of the costs and estimates of the maximum benefits that will inure from such improvements and to the respective assessable lots and parcels of property that will be benefited thereby, all in connection with the proposed construction and installation, by way of a special improvement district that consists of eight (8) separate and distinct assessment units, of certain improvements along certain streets within certain areas of the City, such improvements being

more specifically described as follows:

Providing for the grading, gravelling, macadamizing, paving, draining and otherwise improving of Decatur Boulevard, and portions thereof, including street intersections, as is more particularly described in the Notice of Hearing (the "Notice of Hearing" herein) that is provided for in Section 4 of this Resolution as ASSESSMENT UNIT NO. I,

Providing for the installation of curbs and gutters along Decatur Boulevard, and portions thereof, as is more particularly described in the Notice of Hearing as ASSESSMENT UNIT NO. II,

Providing for the installation of sidewalks along Decatur Boulevard, and portions thereof, as is more particularly described in the Notice of Hearing as ASSESSMENT UNIT NO. III,

Providing for the installation of a street lighting system and all facilities that are incidental thereto along Decatur Boulevard, and portions thereof, as is more particularly described in the Notice of Hearing as ASSESSMENT UNIT NO. IV,

Providing for the installation of sanitary sewer laterals along Decatur Boulevard, and portions thereof, as is more particularly described in the Notice of Hearing as ASSESSMENT UNIT NO. V,

Providing for the installation of potable water laterals along Decatur Boulevard, and portions thereof, as is more particularly described in the Notice of Hearing as ASSESSMENT UNIT NO. VI,

Providing for the installation of residential driveway

approaches along Decatur Boulevard, and portions thereof, as is more particularly described in the Notice of Hearing as ASSESSMENT UNIT NO. VII and

Providing for the installation of commercial driveway approaches along Decatur Boulevard, and portions thereof, as is more particularly described in the Notice of Hearing as ASSESSMENT UNIT NO. VIII; and

WHEREAS, the City Engineer, on the 4th day of September, 1991, filed in the Office of the City Clerk, in connection with such improvements and with the City's proposed "City of Las Vegas, Nevada, Special Improvement District No. 411" (the "District" herein), the following:

A. Preliminary plans that show typical sections of the contemplated improvements, the type or types of material, together with the approximate thickness and width of each, and preliminary estimates of the cost of such improvements;

B. Preliminary estimates of the total cost of each type of construction, such estimates having been made in a lump sum or by unit prices, including without limitation the advertising, appraising, engineering and printing expenses in connection therewith and such other expenses as in the judgment of the City Engineer are necessary or appropriate to the completion of the proposed work of improvement and the payment of the cost thereof;

C. Assessment plats that show the areas that are proposed to be assessed and the amount of estimated costs that is proposed to be assessed against, and the estimated amount of the maximum benefits that are anticipated will be derived from

such improvements by, each assessable lot or parcel of property within each assessment unit of the District, such estimates as have heretofore been designated by the City Council having been computed, for the respective assessment units, on the bases that are set forth in Section 2 of this Resolution; and

D. The City Engineer's report with respect to benefits which sets forth the City Engineer's conclusions concerning the benefits that will be derived by the respective assessable lots and parcels of property from such improvements and the proper method of assessment; and

WHEREAS, an equitable adjustment shall be made for any assessment that is levied against any irregular lot or parcel of property in order that assessments that are levied according to the benefits that will be derived by the respective lots and parcels from such improvements will be equal and uniform; and

WHEREAS, the City Council has examined such plans, assessment plats, typical sections of the contemplated improvements, preliminary estimates of the costs and estimates of the maximum benefits that have been so filed with the City Clerk and the City Engineer's report with respect to such benefits and has found, and hereby does declare, all of the same to be satisfactory in all respects;

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF LAS VEGAS, NEVADA, at this regular meeting thereof that is being held on this 4th day of September, 1991, that said City Council shall, and hereby does, accept such plans, assessment plats, typical sections of the contemplated

improvements, preliminary estimates of the costs and the amount of such estimated costs that is proposed to be assessed against, and the estimated amount of the maximum benefits that are anticipated will be derived from such improvements by, each assessable lot or parcel of property in the respective assessment units of the District.

BE IT FURTHER RESOLVED that said City Council shall, and hereby does, PROVISIONALLY ORDER THAT:

SECTION 1. Those improvements, at an estimated cost of \$2,500,978.00, of which an estimated \$640,729.00 is proposed to be assessed against and paid by the assessable lots and parcels of property within the several assessment units of the District, including engineering, legal and incidental expenses, all as is more particularly hereinafter set forth and described in the plans that are herein accepted, reference to which is hereby made, and are available for public examination at the Office of the City Clerk, shall be installed.

SECTION 2. Such estimated cost shall be apportioned among the respective assessment units of the District as follows:

<u>Assessment Unit No.</u>	<u>Estimated Costs</u>	<u>Estimated Amount of Maximum Benefits *</u>
I	\$178,393.00	\$214,072.00
II	78,059.00	93,671.00
III	111,827.00	134,192.00
IV	166,742.00	200,090.00
V	54,472.00	65,367.00
VI	16,693.00	20,032.00
VII	25,757.00	30,908.00
VIII	<u>8,786.00</u>	<u>10,543.00</u>
Total		Total
Assessable	\$ 640,729.00	Benefits \$768,875.00
Other		
Improvements	<u>1,860,249.00</u>	
Total Project	<u>\$2,500,978.00</u>	

- * The actual costs of constructing and installing the improvement in any individual assessment unit may exceed the estimated cost for such improvement, or the estimated amount of the maximum benefits that are anticipated will be derived therefrom, or both, that is stated above, but in no event shall the aggregate assessment that is levied against any lot or parcel of property for all of the assessment units exceed the aggregate amount of the estimates of the maximum benefits to such lot or parcel by virtue of the construction and installation of the improvements in all of the assessment units.

The amounts that are proposed to be assessed shall be assessed against all of the assessable lots and parcels of property that are benefited, proportionately to the benefits that each such lot or parcel receives, and shall be assessed against the assessable lots and parcels of property that abut such improvements on the following bases:

ASSESSMENT UNIT NO. I (Street Paving)

Such estimates shall be computed on a front foot basis, i.e., on the basis that each lot or parcel of property that is to be assessed in the assessment unit shall be assessed a portion of the aggregate dollar amount that is being levied against the entire assessment unit in the proportion that the frontage of such lot or parcel that abuts the improvement, or, in the case of a lot or parcel of property that is situate within 500 feet of the improvement and abuts a street the sole access to which is the said Decatur Boulevard, in the proportion that the frontage of such lot or parcel that abuts such street, bears to the total of the frontage of all of the assessable properties that abut the improvement in the assessment unit plus the frontage of all of the assessable properties that abut the street the sole access to which is the said Decatur Boulevard; provided, however, that, if

any such lot or parcel is divided, after the date of the hearing as to the propriety and advisability of making such improvement but prior to the date on which the assessments are levied by ordinance, pursuant to NRS 271.390, into sublots or subparcels, the assessment against such lot or parcel shall be apportioned among such sublots or subparcels on an area basis, i.e., on the basis that each such subplot or subparcel shall be assessed a portion of the aggregate dollar amount that is being levied against the entire lot or parcel in the proportion that the area of such subplot or subparcel bears to the aggregate area of the entire lot or parcel. The cost of paving street intersections shall be included in the total costs that are proposed to be levied in the assessment unit and shall be assessed against the respective taxable lots and parcels of property therein on the aforesaid front foot basis.

ASSESSMENT UNIT NO. II (Curbs and Gutters)

Such estimates shall be computed on a lineal foot basis, i.e., on the basis that each lot or parcel of property that is to be assessed in the assessment unit shall be assessed a portion of the aggregate dollar amount that is being levied against the entire assessment unit in the proportion that the number of lineal feet of such lot or parcel that abut the improvement, or, in the case of a lot or parcel of property that is situate within 500 feet of the improvement and abuts a street the sole access to which is the said Decatur Boulevard, in the proportion that the frontage of such lot or parcel that abuts such street, bears to the total of the number of lineal feet of all of the assessable

properties that abut the improvement in the assessment unit plus the frontage of all of the assessable properties that abut the street the sole access to which is the said Decatur Boulevard; provided, however, that, if any such lot or parcel is divided, after the date of the hearing as to the propriety and advisability of making such improvement but prior to the date on which the assessments are levied by ordinance, pursuant to NRS 271.390, into sublots or subparcels, the assessment against such lot or parcel shall be apportioned among such sublots or subparcels on an area basis, i.e., on the basis that each such sublot or subparcel shall be assessed a portion of the aggregate dollar amount that is being levied against the entire lot or parcel in the proportion that the area of such sublot or subparcel bears to the aggregate area of the entire lot or parcel.

ASSESSMENT UNIT NO. III (Sidewalks)

Such estimates shall be computed on a lineal foot basis, i.e., on the basis that each lot or parcel of property that is to be assessed in the assessment unit shall be assessed a portion of the aggregate dollar amount that is being levied against the entire assessment unit in the proportion that the number of lineal feet of such lot or parcel that abut the improvement bears to the number of lineal feet of all of the assessable properties that abut the improvement in the assessment unit; provided, however, that, if any such lot or parcel is divided, after the date of the hearing as to the propriety and advisability of making such improvement but prior to the date on which the assess-

ments are levied by ordinance, pursuant to NRS 271.390, into sublots or subparcels, the assessment against such lot or parcel shall be apportioned among such sublots or subparcels on an area basis, i.e., on the basis that each such sublot or subparcel shall be assessed a portion of the aggregate dollar amount that is being levied against the entire lot or parcel in the proportion that the area of such sublot or subparcel bears to the aggregate area of the entire lot or parcel.

ASSESSMENT UNIT NO. IV (Street Lighting)

Such estimates shall be computed on a front foot basis, i.e., on the basis that each lot or parcel of property that is to be assessed in the assessment unit shall be assessed a portion of the aggregate dollar amount that is being levied against the entire assessment unit in the proportion that the frontage of such lot or parcel that abuts the street along which the improvement is being installed, or, in the case of a lot or parcel of property that is situate within 500 feet of the improvement and abuts a street the sole access to which is the said Decatur Boulevard, in the proportion that the frontage of such lot or parcel that abuts such street, bears to the total of the frontage of all of the assessable properties that abut the street along which the improvement is being installed in the assessment unit plus the frontage of all of the assessable properties that abut the street the sole access to which is the said Decatur Boulevard; provided, however, that, if any such lot or parcel is divided, after the date of the hearing as to the propriety and advisability of making such improvement but prior to the date on

which the assessments are levied by ordinance, pursuant to NRS 271.390, into sublots or subparcels, the assessment against such lot or parcel shall be apportioned among such sublots or subparcels on an area basis, i.e., on the basis that each such sublot or subparcel shall be assessed a portion of the aggregate dollar amount that is being levied against the entire lot or parcel in the proportion that the area of such sublot or subparcel bears to the aggregate area of the entire lot or parcel.

ASSESSMENT UNIT NO. V (Sanitary Sewer Laterals)

Such estimates shall be computed on the basis that each lot or parcel of property that is to be assessed in the assessment unit for 6-inch sanitary sewer laterals shall be assessed a portion of the aggregate dollar amount that is being levied against the entire assessment unit for 6-inch sewer laterals in the proportion that the number of 6-inch sewer laterals that are installed to serve such lot or parcel bears to the total number of 6-inch sewer laterals that are installed to serve all of the assessable properties in the assessment unit and on the basis that each lot or parcel of property that is to be assessed in the assessment unit for 8-inch sanitary sewer laterals shall be assessed a portion of the aggregate dollar amount that is being levied against the entire assessment unit for 8-inch sewer laterals in the proportion that the number of 8-inch sewer laterals that are installed to serve such lot or parcel bears to the total number of 8-inch sewer laterals that are installed to serve all of the assessable properties in the assessment unit.

ASSESSMENT UNIT NO. VI (Potable Water Laterals)

Such estimates shall be computed on the basis that each lot or parcel of property that is to be assessed in the assessment unit for 3/4ths-inch potable water laterals shall be assessed a portion of the aggregate dollar amount that is being levied against the entire assessment unit for 3/4ths-inch water laterals in the proportion that the number of 3/4ths-inch water laterals that are installed to serve such lot or parcel bears to the total number of 3/4ths-an inch water laterals that are installed to serve all of the assessable properties in the assessment unit, and on the basis that each lot or parcel of property that is to be assessed in the assessment unit for 1-inch potable water laterals shall be assessed a portion of the aggregate dollar amount that is being levied against the entire assessment unit for 1-inch water laterals in the proportion that the number of 1-inch water laterals that are installed to serve such lot or parcel bears to the total number of 1-inch water laterals that are installed to serve all of the assessable properties in the assessment unit, on the basis that each lot or parcel of property that is to be assessed in the assessment unit for 6-inch potable water laterals shall be assessed a portion of the aggregate dollar amount that is being levied against the entire assessment unit for 6-inch water laterals in the proportion that the number of 6-inch water laterals that are installed to serve such lot or parcel bears to the total number of 6-inch water laterals that are installed to serve all of the assessable properties in the assessment unit and on the basis that each lot or parcel of

property that is to be assessed in the assessment unit for 8-inch potable water laterals shall be assessed a portion of the aggregate dollar amount that is being levied against the entire assessment unit for 8-inch water laterals in the proportion that the number of 8-inch water laterals that are installed to serve such lot or parcel bears to the total number of 8-inch water laterals that are installed to serve all of the assessable properties in the assessment unit.

ASSESSMENT UNIT NO. VII (Residential Driveway Approaches)

Such estimates shall be computed on the basis that each lot or parcel of property that is to be assessed in the assessment unit shall be assessed a portion of the aggregate dollar amount that is being levied against the entire assessment unit in the proportion that the number and length of the driveway approaches that are installed to serve such lot or parcel bears to the total number and aggregate length of all of the driveway approaches that are installed to serve all of the assessable properties in the assessment unit.

ASSESSMENT UNIT NO. VIII (Commercial Driveway Approaches)

Such estimates shall be computed on the basis that each lot or parcel of property that is to be assessed in the assessment unit for Option A Driveway Approaches shall be assessed a portion of the aggregate dollar amount that is being levied against the entire assessment unit for Option A Driveway Approaches in the proportion that the number and length of the Option A Driveway Approaches that are installed to serve such lot or parcel bears to the total number and aggregate length of all of the Option A

Driveway Approaches that are installed to serve all of the assessable properties in the assessment unit and on the basis that each lot or parcel of property that is to be assessed in the assessment unit for Option B Driveway Approaches shall be assessed a portion of the aggregate dollar amount that is being levied against the entire assessment unit for Option B Driveway Approaches in the proportion that the number and length of the Option B Driveway Approaches that are installed to serve such lot or parcel bears to the total number and aggregate length of all of the Option B Driveway Approaches that are installed to serve all of the assessable properties in the assessment unit.

In each assessment unit, an equitable adjustment will be made for any assessment that is levied upon any irregular lot or parcel of property in order that the assessments that are levied according to the benefits that will be derived by the respective lots and parcels from such improvements will be equal and uniform. The portion of the costs that is proposed to be assessed against, and the estimated amount of the maximum benefits that are anticipated will be derived from the proposed improvements by, each lot or parcel of property shall be as stated in the aforesaid assessment plat. Regardless of the basis that is used for apportioning the assessments, in the case of a wedge, "V" or other irregularly shaped lot or parcel, the amount that is apportioned thereto shall be in proportion to the special benefits that will be derived thereby.

SECTION 3. The area that encompasses the streets that are proposed to be so improved and the properties that are

proposed to be so assessed (i.e., all of such assessment units) shall be designated "City of Las Vegas, Nevada, Special Improvement District No. 411".

SECTION 4. On Wednesday, the 2nd day of October, 1991, at the hour of 2:00 o'clock p.m., at the Council Chambers in the Las Vegas City Hall Complex, 400 East Stewart Avenue, Las Vegas, Nevada, or at any time prior to such date and time at the Office of the City Clerk at said City Hall, the owner or owners of any lot or parcel of property that is proposed to be assessed, any other person who is interested in any thereof or any tenant of any mobile home park that is located on any of such lots or parcels may file a written protest or objection and may appear before the City Council at such time and place and be heard as to the propriety and advisability of making such improvements, as to the cost thereof, as to the proposed method of payment therefor and as to the amount thereof that is proposed to be assessed against, and the estimated amount of the maximum benefits that are anticipated will be derived from such improvements by, the respective lots and parcels of property that are proposed to be so improved. Twenty (20) days' notice in writing of such time and place shall be given to such property owners, which notice shall be served by the City Clerk by mailing a copy thereof, postage prepaid as first-class mail, to the last known address of each last known owner of each lot or parcel of property within each assessment unit whose lot or parcel of property will be assessed for a portion of the cost of such improvements, the names and addresses of such property owners being those that

appear on the local property assessment rolls for general (ad valorem) taxes that are on file in the Office of the County Assessor of Clark County, Nevada, wherein such property is located. Such notice shall also be given to each tenant of each mobile home park that is located on any of such lots or parcels and by the City Engineer's posting of a copy of such notice in three public places at or near the site of the proposed work within each assessment unit at least twenty (20) days prior to such hearing. Proof of such mailing and posting shall be made by the affidavit of the City Clerk or of the City Engineer, as the case may be, such proof to be filed with the City Clerk; provided, however, that the fact that the person to whom any such notice is addressed does not receive the same shall not invalidate or affect the legality of the notice that is given thereby and shall not invalidate or affect the legality of any assessment or of any other of the proceedings hereunder. Notice of the time and place of such hearing shall also be given by publishing a copy of such notice in the Las Vegas Review-Journal, a newspaper that is published and of general circulation within the City, once each week for three consecutive weeks by three weekly insertions, the first such publication to be at least fifteen (15) days prior to the date of the protest hearing. Not less than fourteen (14) days shall intervene between the first publication and the last publication. Such service by publication shall be verified by the affidavit of the publisher of said newspaper and filed with the City Clerk. Such notice shall be, substantially, in the following form:

NOTICE OF HEARING ON THE IMPROVEMENT OF CERTAIN STREETS AND ALLEYS, AND PARTS THEREOF, AND PROPOSED ASSESSMENTS WITHIN THE PROPOSED CITY OF LAS VEGAS, NEVADA, SPECIAL IMPROVEMENT DISTRICT NO. 411.

NOTICE IS HEREBY GIVEN to the owner or owners of each lot or parcel of property within the proposed "City of Las Vegas, Nevada, Special Improvement District No. 411" (the "District" herein), to each tenant of each mobile home park that is located on any of such lots or parcels and to all other interested persons that:

The City Council of the City of Las Vegas, Nevada (the "City Council" and the "City", respectively, herein), has provisionally ordered that, as a portion of a total project that will include the construction and installation along Decatur Boulevard of street paving 86 feet in width; a raised median island or a two-way center left turn lane, or a combination thereof; traffic control devices; curbs and gutters; sidewalks; streetlights; sanitary sewer laterals; potable water laterals; driveway approaches; and drainage facilities (the "Project" herein), certain improvements be installed along certain streets within those certain areas of the City that are hereinafter more particularly described as follows:

ASSESSMENT UNIT NO. I (Street Paving)

The portion of the Project the costs of which will be assessed against the taxable lots and parcels of property in ASSESSMENT UNIT NO. I shall consist of the installation of pavement sections 8 feet in width (or, in the case of any portion of said street that is adjacent to a lot or parcel of property

the development of which was approved by said City Council subject to the construction and installation by the owner or owners thereof of full half-street improvements, 34 feet in width) along the west side of Decatur Boulevard (100 feet wide) and portions thereof, within the City, from a point that is approximately 82 feet north of the centerline of Cheyenne Avenue (100 feet wide) northerly to a point that is approximately 90 feet south of the centerline of Craig Road (110 feet wide), except where adequate improvements have previously been installed, together with the necessary installation, removal and relocation of any and all utilities and any and all appurtenances that are deemed to be necessary in order to complete the same, as is more particularly shown on the plats, diagrams and plans of the work and of the locality that is to be improved as filed in the Office of the City Clerk.

ASSESSMENT UNIT NO. II (Curbs and Gutters)

The portion of the Project the costs of which will be assessed against the taxable lots and parcels of property in ASSESSMENT UNIT NO. II shall consist of the installation of standard "L" type curbs and gutters along the west side of Decatur Boulevard (100 feet wide) and portions thereof, within the City, from a point that is approximately 82 feet north of the centerline of Cheyenne Avenue (100 feet wide) northerly to a point that is approximately 90 feet south of the centerline of Craig Road (110 feet), except where adequate improvements have previously been installed, together with the necessary installation, removal and relocation of any and all utilities and

any and all appurtenances that are deemed to be necessary in order to complete the same, as is more particularly shown on the plats, diagrams and plans of the work and of the locality that is to be improved as filed in the Office of the City Clerk.

ASSESSMENT UNIT NO. III (Sidewalks)

The portion of the Project the costs of which will be assessed against the taxable lots and parcels of property in ASSESSMENT UNIT NO. III shall consist of the installation of standard concrete sidewalks 5 feet in width along the west side of Decatur Boulevard (100 feet wide) and portions thereof, within the City, from a point that is approximately 82 feet north of the centerline of Cheyenne Avenue (100 feet wide) northerly to a point that is approximately 90 feet south of the centerline of Craig Road (110 feet wide), except where adequate improvements have previously been installed, together with the necessary installation, removal and relocation of any and all utilities and any and all appurtenances that are deemed to be necessary in order to complete the same, as is more particularly shown on the plats, diagrams and plans of the work and of the locality that is to be improved as filed in the Office of the City Clerk.

ASSESSMENT UNIT NO. IV (Street Lighting)

The portion of the Project the costs of which will be assessed against the taxable lots and parcels of property in ASSESSMENT UNIT NO. IV shall consist of the installation of streetlights and any and all appurtenances along the west side of Decatur Boulevard (100 feet wide) and portions thereof, within the City, from a point that is approximately 82 feet north of the

centerline of Cheyenne Avenue (100 feet wide) northerly to a point that is approximately 90 feet south of the centerline of Craig Road (110 feet wide), except where adequate improvements have previously been installed, together with the necessary installation, removal and relocation of any and all utilities and any and all appurtenances that are deemed to be necessary in order to complete the same, as is more particularly shown on the plats, diagrams and plans of the work and of the locality that is to be improved as filed in the Office of the City Clerk.

ASSESSMENT UNIT NO. V (Sanitary Sewer Laterals)

The portion of the Project the costs of which will be assessed against the taxable lots and parcels of property in ASSESSMENT UNIT NO. V shall consist of sanitary sewer laterals that extend between the existing sanitary sewer collection main and the front property lines of such properties, as the same are required by the City in accordance with the guidelines that are hereinafter set forth or are otherwise requested by the owners of the individual lots or parcels of property, along the west side of Decatur Boulevard (100 feet wide) and portions thereof, within the City, from a point that is approximately 82 feet north of the centerline of Cheyenne Avenue (100 feet wide) northerly to a point that is approximately 90 feet south of the centerline of Craig Road (110 feet wide), except where adequate improvements have previously been installed, together with the necessary installation, removal and relocation of any and all utilities and any and all appurtenances that are deemed to be necessary in order to complete the same, as is more particularly shown on the

plats, diagrams and plans of the work and of the locality that is to be improved as filed in the Office of the City Clerk.

ASSESSMENT UNIT NO. VI (Potable Water Laterals)

The portion of the Project the costs of which will be assessed against the taxable lots and parcels of property in ASSESSMENT UNIT NO. VI shall consist of potable water laterals that extend between the existing water distribution main and the front property lines of such properties, as the same are required by the City in accordance with the guidelines that are hereinafter set forth or are otherwise requested by the owners of the individual lots or parcels of property, along the west side of Decatur Boulevard (100 feet wide) and portions thereof, within the City, from a point that is approximately 82 feet north of the centerline of Cheyenne Avenue (100 feet wide) northerly to a point that is approximately 90 feet south of the centerline of Craig Road (110 feet wide), except where adequate improvements have previously been installed, together with the necessary installation, removal and relocation of any and all utilities and any and all appurtenances that are deemed to be necessary in order to complete the same, as is more particularly shown on the plats, diagrams and plans of the work and of the locality that is to be improved as filed in the Office of the City Clerk.

ASSESSMENT UNIT NO. VII (Residential Driveway Approaches)

The portion of the Project the costs of which will be assessed against the taxable lots and parcels of property in ASSESSMENT UNIT NO. VII shall consist of the installation of standard residential driveway approaches along the west side of

Decatur Boulevard (100 feet wide) and portions thereof, within the City, from a point that is approximately 82 feet north of the centerline of Cheyenne Avenue (100 feet wide) northerly to a point that is approximately 90 feet south of the centerline of Craig Road (110 feet wide), except where adequate improvements have previously been installed, together with the necessary installation, removal and relocation of any and all utilities and any and all appurtenances that are deemed to be necessary in order to complete the same, as is more particularly shown on the plats, diagrams and plans of the work and of the locality that is to be improved as filed in the Office of the City Clerk.

ASSESSMENT UNIT NO. VIII (Commercial Driveway Approaches)

The portion of the Project the costs of which will be assessed against taxable lots and parcels assessable property in ASSESSMENT UNIT NO. VIII shall consist of the installation of one of two elective types of commercial driveway approaches along the west side of Decatur Boulevard (100 feet wide) and portions thereof, within the City, from a point that is approximately 82 feet north of the centerline of Cheyenne Avenue (100 feet wide) northerly to a point that is approximately 90 feet south of the centerline of Craig Road (110 feet wide), except where adequate improvements have previously been installed, together with the necessary installation, removal and relocation of any and all utilities and any and all appurtenances that are deemed to be necessary in order to complete the same, as is more particularly shown on the plats, diagrams and plans of the work and of the locality that is to be improved as filed in the Office of the

City Clerk.

Except as is shown on the plans and specifications, as the same have been filed in the Office of the City Clerk of the City (the "City Clerk" herein), the improvements are more particularly described as follows:

ASSESSMENT UNIT NO. I (Street Paving)

The street paving shall consist of fog seal over 4 inches of asphaltic concrete pavement, a prime cost, 4 inches of Type II aggregate base and 9 inches of Type I aggregate base; together with the installation, removal and relocation of any and all utilities and any and all appurtenances that are deemed to be necessary in order to complete the same, as is more particularly shown by the plats, diagrams and plans of the work and of the locality that is to be improved as filed in the Office of the City Clerk.

ASSESSMENT UNIT NO. II (Curbs and Gutters)

The curbs and gutters shall be standard Portland cement "L" type over 9 inches of Type I or Type II aggregate base; together with the installation, removal and relocation of any and all utilities and any and all appurtenances that are deemed to be necessary in order to complete the same, as is more particularly shown by the plats, diagrams and plans of the work and of the locality that is to be improved as filed in the Office of the City Clerk.

ASSESSMENT UNIT NO. III (Sidewalks)

The sidewalks shall consist of 4 inches of standard Portland cement slabs over 5 inches of Type II aggregate base; together

with the installation, removal and relocation of any and all utilities and any and all appurtenances that are deemed to be necessary in order to complete the same, as is more particularly shown by the plats, diagrams and plans of the work and of the locality that is to be improved as filed in the Office of the City Clerk.

ASSESSMENT UNIT NO. IV (Street Lighting)

The street lighting system shall consist of 250 watt high pressure sodium vapor luminaires, steel lighting standards on concrete bases and underground circuits; together with the installation, removal and relocation of any and all utilities and any and all appurtenances that are deemed to be necessary in order to complete the same, as is more particularly shown by the plats, diagrams and plans of the work and of the locality that is to be improved as filed in the Office of the City Clerk.

ASSESSMENT UNIT NO. V (Sanitary Sewer Laterals)

The sanitary sewer laterals shall be 6-inch or 8-inch, as the same are required by the City or are otherwise requested by the owners of the respective lots or parcels of property, polyvinyl chloride sewer laterals between the sanitary sewer collection main to and the front property lines; together with the installation, removal and relocation of any and all utilities and any and all appurtenances that are deemed to be necessary in order to complete the same, as is more particularly shown by the plats, diagrams and plans of the work and of the locality that is to be improved as filed in the Office of the City Clerk.

If the owner of any lot or parcel of property within the

assessment unit fails to designate the size, number or location, or any combination thereof, of the sanitary sewer laterals that such owner desires to have installed to serve such lot or parcel or requests that no sewer lateral be installed to serve such lot or parcel, the size, number or location, as the case may be, of such lateral or laterals shall be determined by the City in the following manner:

A. The City will not require the installation of any sewer lateral to serve any lot or parcel if a sewer lateral that can be installed from a sanitary sewer collection main that has been installed in a side street would provide adequate sewer service to such lot or parcel.

B. If the lot or parcel in question cannot adequately be served by a sewer lateral or laterals from a sewer main that has been installed in a side street, one 6-inch lateral shall be installed at the lower side of such lot or parcel unless the area thereof exceeds 2.5 acres;

C. If the lot or parcel in question cannot adequately be served by a sewer lateral or laterals from a sewer main that has been installed in a side street and the area thereof exceeds 2.5 acres, one 8-inch lateral shall be installed at the lower side of such lot or parcel unless the area thereof exceeds 5 acres; and

D. If the lot or parcel in question cannot adequately be served by a sewer lateral or laterals from a sewer main that has been installed in a side street and the area thereof exceeds 5 acres, one 8-inch lateral shall be installed at the lower side

of such lot or parcel and one additional 8-inch lateral shall be installed at the lower side of the mid-point of such lot or parcel unless a lateral or laterals that would render such additional 8-inch lateral unnecessary can be installed to serve such lot or parcel from a sewer main that has been installed in a side street.

ASSESSMENT UNIT NO. VI (Potable Water Laterals)

The potable water laterals shall be 3/4ths of an inch, 1-inch, 6-inch or 8-inch, as the same are required by the City or are otherwise requested by the owners of the respective lots or parcels of property, polyvinyl chloride potable water laterals between the water distribution main and the front property lines; together with the installation, removal and relocation of any and all utilities and any and all appurtenances that are deemed to be necessary in order to complete the same, as is more particularly shown by the plats, diagrams and plans of the work and of the locality that is to be improved as filed in the Office of the City Clerk.

If the owner of any lot or parcel of property within the assessment unit fails to designate the size, number or location, or any combination thereof, of the potable water laterals that such owner desires to have installed to serve such lot or parcel or requests that no water lateral be installed to serve such lot or parcel, the size, number or location, as the case may be, of such lateral or laterals shall be determined by the City in the following manner:

A. The City will not require the installation of any

water lateral to serve any lot or parcel if a water lateral that can be installed from a water distribution main that has been installed in a side street would provide adequate water service to such lot or parcel;

B. If the lot or parcel in question cannot adequately be served by a water lateral or laterals from a water main that has been installed in a side street, one 6-inch lateral shall be installed at the mid-point of the frontage of such lot or parcel unless the area thereof exceeds 2.5 acres.

C. If the lot or parcel in question cannot adequately be served by a water lateral from a water main that has been installed in a side street and the area thereof exceeds 2.5 acres, one 8-inch water lateral shall be installed at the mid-point of the frontage of such lot or parcel unless the area thereof exceeds 5 acres; and

D. If the lot or parcel in question cannot adequately be served by a water lateral from a water main that has been installed in a side street and the area thereof exceeds 5 acres, one 8-inch lateral shall be installed at the lower side of the mid-point of such lot or parcel and one additional 8-inch lateral shall be installed at the lower side of such lot or parcel unless a lateral or laterals that would render such additional 8-inch lateral unnecessary can be installed to serve such lot or parcel from a water main that has been installed in a side street.

In no event, however, shall a water distribution lateral be installed in the same trench in which a sanitary sewer lateral is installed.

ASSESSMENT UNIT NO. VII (Residential Driveway Approaches)

The residential driveway approaches shall consist of 6 inches of standard Portland cement over 6 inches of Type II aggregate base; together with the installation, removal and relocation of any and all utilities and any and all appurtenances that are deemed to be necessary in order to complete the same, as is more particularly shown by the plats, diagrams and plans of the work and of the locality that is to be improved as filed in the Office of the City Clerk.

ASSESSMENT UNIT NO. VIII (Commercial Driveway Approaches)

The commercial driveway approaches shall consist, at the election of the owners of the respective lots and parcels of property, of either 6 inches of standard Portland cement that is reinforced with #4 rebar over 6 inches of Type II aggregate base (the "Option A Driveway Approaches" herein) or a radius driveway with a cross gutter, consisting of 6 inches of standard Portland cement that is reinforced with #4 rebar over 6 inches of Type II aggregate base, and a sidewalk and access ramp for the handicapped, consisting of 4 inches of standard Portland cement over 5 inches of Type II aggregate base (the "Option B Driveway Approaches" herein); together with the installation, removal and relocation of any and all utilities and any and all appurtenances that are deemed to be necessary in order to complete the same, as is more particularly shown by the plats, diagrams and plans of the work and of the locality that is to be improved as filed in the Office of the City Clerk.

All of the plats, diagrams and plans that are on file in

the Office of the City Clerk with respect to said described assessment units are deemed by the City Engineer of the City and by said City to be essential to the construction of such improvements.

It is anticipated that, of the \$2,500,978.00 that is the total estimated cost of the Project, an estimated \$640,729.00 shall be apportioned among the several assessment units of the proposed District and shall be assessed against and paid by the assessable lots and parcels of property within the respective assessment units, as follows:

<u>Assessment Unit No.</u>	<u>Estimated Costs</u>	<u>Estimated Amount of Maximum Benefits*</u>
I	\$178,393.00	\$214,072.00
II	78,059.00	93,671.00
III	111,827.00	134,192.00
IV	\$166,742.00	\$200,090.00
V	54,472.00	65,367.00
VI	16,693.00	20,032.00
VII	25,757.00	30,908.00
VIII	<u>8,786.00</u>	<u>10,543.00</u>
Total		Total
Assessable	\$640,729.00	Benefits \$768,875.00
Other		
Improvements	<u>1,860,249.00</u>	
Total Project	\$2,500,978.00	

- * The actual costs of constructing and installing the improvement in any individual assessment unit may exceed the estimated cost for such improvement, or the estimated amount of the maximum benefits that are anticipated will be derived therefrom, or both, that is stated above, but in no event shall the aggregate assessment that is levied against any lot or parcel of property for all of the assessment units exceed the aggregate amount of the estimates of the maximum benefits to such lot or parcel by virtue of the construction and installation of the improvements in all of the assessment units.

The amounts that are proposed to be assessed shall be assessed against all of the assessable lots and parcels of property that are benefited, proportionately to the benefits that each such lot or parcel receives, and shall be assessed against the assessable lots and parcels of property that abut such improvements on the following bases:

ASSESSMENT UNIT NO. I (Street Paving)

Such estimates shall be computed on a front foot basis, i.e., on the basis that each lot or parcel of property that is to be assessed in the assessment unit shall be assessed a portion of the aggregate dollar amount that is being levied against the entire assessment unit in the proportion that the frontage of such lot or parcel that abuts the improvement, or, in the case of a lot or parcel of property that is situate within 500 feet of the improvement and abuts a street the sole access to which is the said Decatur Boulevard, in the proportion that the frontage of such lot or parcel that abuts such street, bears to the total of the frontage of all of the assessable properties that abut the improvement in the assessment unit plus the frontage of all of the assessable properties that abut the street the sole access to which is the said Decatur Boulevard; provided, however, that, if any such lot or parcel is divided, after the date of the hearing as to the propriety and advisability of making such improvement but prior to the date on which the assessments are levied by ordinance, pursuant to NRS 271.390, into sublots or subparcels, the assessment against such lot or parcel shall be apportioned among such sublots or subparcels on an area basis, i.e., on the

basis that each such subplot or subparcel shall be assessed a portion of the aggregate dollar amount that is being levied against the entire lot or parcel in the proportion that the area of such subplot or subparcel bears to the aggregate area of the entire lot or parcel. The cost of paving street intersections shall be included in the total costs that are proposed to be levied in the assessment unit and shall be assessed against the respective taxable lots and parcels of property therein on the aforesaid front foot basis.

ASSESSMENT UNIT NO. II (Curbs and Gutters)

Such estimates shall be computed on a lineal foot basis, i.e., on the basis that each lot or parcel of property that is to be assessed in the assessment unit shall be assessed a portion of the aggregate dollar amount that is being levied against the entire assessment unit in the proportion that the number of lineal feet of such lot or parcel that abut the improvement, or, in the case of a lot or parcel of property that is situate within 500 feet of the improvement and abuts a street the sole access to which is the said Decatur Boulevard, in the proportion that the frontage of such lot or parcel that abuts such street, bears to the total of the number of lineal feet of all of the assessable properties that abut the improvement in the assessment unit plus the frontage of all of the assessable properties that abut the street the sole access to which is the said Decatur Boulevard; provided, however, that, if any such lot or parcel is divided, after the date of the hearing as to the propriety and advisability of making such improvement but prior to the date on

which the assessments are levied by ordinance, pursuant to NRS 271.390, into sublots or subparcels, the assessment against such lot or parcel shall be apportioned among such sublots or subparcels on an area basis, i.e., on the basis that each such subplot or subparcel shall be assessed a portion of the aggregate dollar amount that is being levied against the entire lot or parcel in the proportion that the area of such subplot or subparcel bears to the aggregate area of the entire lot or parcel.

ASSESSMENT UNIT NO. III (Sidewalks)

Such estimates shall be computed on a lineal foot basis, i.e., on the basis that each lot or parcel of property that is to be assessed in the assessment unit shall be assessed a portion of the aggregate dollar amount that is being levied against the entire assessment unit in the proportion that the number of lineal feet of such lot or parcel that abut the improvement bears to the number of lineal feet of all of the assessable properties that abut the improvement in the assessment unit; provided, however, that, if any such lot or parcel is divided, after the date of the hearing as to the propriety and advisability of making such improvement but prior to the date on which the assessments are levied by ordinance, pursuant to NRS 271.390, into sublots or subparcels, the assessment against such lot or parcel shall be apportioned among such sublots or subparcels on an area basis, i.e., on the basis that each such subplot or subparcel shall be assessed a portion of the aggregate dollar amount that is being levied against the entire lot or parcel in the propor-

tion that the area of such subplot or subparcel bears to the aggregate area of the entire lot or parcel.

ASSESSMENT UNIT NO. IV (Street Lighting)

Such estimates shall be computed on a front foot basis, i.e., on the basis that each lot or parcel of property that is to be assessed in the assessment unit shall be assessed a portion of the aggregate dollar amount that is being levied against the entire assessment unit in the proportion that the frontage of such lot or parcel that abuts the street along which the improvement is being installed, or, in the case of a lot or parcel of property that is situate within 500 feet of the improvement and abuts a street the sole access to which is the said Decatur Boulevard, in the proportion that the frontage of such lot or parcel that abuts such street, bears to the total of the frontage of all of the assessable properties that abut the street along which the improvement is being installed in the assessment unit plus the frontage of all of the assessable properties that abut the street the sole access to which is the said Decatur Boulevard; provided, however, that, if any such lot or parcel is divided, after the date of the hearing as to the propriety and advisability of making such improvement but prior to the date on which the assessments are levied by ordinance, pursuant to NRS 271.390, into sublots or subparcels, the assessment against such lot or parcel shall be apportioned among such sublots or subparcels on an area basis, i.e., on the basis that each such subplot or subparcel shall be assessed a portion of the aggregate dollar amount that is being levied against the entire lot or

parcel in the proportion that the area of such subplot or subparcel bears to the aggregate area of the entire lot or parcel.

ASSESSMENT UNIT NO. V (Sanitary Sewer Laterals)

Such estimates shall be computed on the basis that each lot or parcel of property that is to be assessed in the assessment unit for 6-inch sanitary sewer laterals shall be assessed a portion of the aggregate dollar amount that is being levied against the entire assessment unit for 6-inch sewer laterals in the proportion that the number of 6-inch sewer laterals that are installed to serve such lot or parcel bears to the total number of 6-inch sewer laterals that are installed to serve all of the assessable properties in the assessment unit and on the basis that each lot or parcel of property that is to be assessed in the assessment unit for 8-inch sanitary sewer laterals shall be assessed a portion of the aggregate dollar amount that is being levied against the entire assessment unit for 8-inch sewer laterals in the proportion that the number of 8-inch sewer laterals that are installed to serve such lot or parcel bears to the total number of 8-inch sewer laterals that are installed to serve all of the assessable properties in the assessment unit.

ASSESSMENT UNIT NO. VI (Potable Water Laterals)

Such estimates shall be computed on the basis that each lot or parcel of property that is to be assessed in the assessment unit for 3/4ths-inch potable water laterals shall be assessed a portion of the aggregate dollar amount that is being levied against the entire assessment unit for 3/4ths-inch water laterals

in the proportion that the number of 3/4ths-inch water laterals that are installed to serve such lot or parcel bears to the total number of 3/4ths-an inch water laterals that are installed to serve all of the assessable properties in the assessment unit, and on the basis that each lot or parcel of property that is to be assessed in the assessment unit for 1-inch potable water laterals shall be assessed a portion of the aggregate dollar amount that is being levied against the entire assessment unit for 1-inch water laterals in the proportion that the number of 1-inch water laterals that are installed to serve such lot or parcel bears to the total number of 1-inch water laterals that are installed to serve all of the assessable properties in the assessment unit, on the basis that each lot or parcel of property that is to be assessed in the assessment unit for 6-inch potable water laterals shall be assessed a portion of the aggregate dollar amount that is being levied against the entire assessment unit for 6-inch water laterals in the proportion that the number of 6-inch water laterals that are installed to serve such lot or parcel bears to the total number of 6-inch water laterals that are installed to serve all of the assessable properties in the assessment unit and on the basis that each lot or parcel of property that is to be assessed in the assessment unit for 8-inch potable water laterals shall be assessed a portion of the aggregate dollar amount that is being levied against the entire assessment unit for 8-inch water laterals in the proportion that the number of 8-inch water laterals that are installed to serve such lot or parcel bears to the total number of 8-inch water

laterals that are installed to serve all of the assessable properties in the assessment unit.

ASSESSMENT UNIT NO. VII (Residential Driveway Approaches)

Such estimates shall be computed on the basis that each lot or parcel of property that is to be assessed in the assessment unit shall be assessed a portion of the aggregate dollar amount that is being levied against the entire assessment unit in the proportion that the number and length of the driveway approaches that are installed to serve such lot or parcel bears to the total number and aggregate length of all of the driveway approaches that are installed to serve all of the assessable properties in the assessment unit.

ASSESSMENT UNIT NO. VIII (Commercial Driveway Approaches)

Such estimates shall be computed on the basis that each lot or parcel of property that is to be assessed in the assessment unit for Option A Driveway Approaches shall be assessed a portion of the aggregate dollar amount that is being levied against the entire assessment unit for Option A Driveway Approaches in the proportion that the number and length of the Option A Driveway Approaches that are installed to serve such lot or parcel bears to the total number and aggregate length of all of the Option A Driveway Approaches that are installed to serve all of the assessable properties in the assessment unit and on the basis that each lot or parcel of property that is to be assessed in the assessment unit for Option B Driveway Approaches shall be assessed a portion of the aggregate dollar amount that is being levied against the entire assessment unit for Option B Driveway

Approaches in the proportion that the number and length of the Option B Driveway Approaches that are installed to serve such lot or parcel bears to the total number and aggregate length of all of the Option B Driveway Approaches that are installed to serve all of the assessable properties in the assessment unit.

In each assessment unit, an equitable adjustment will be made for any assessment that is levied upon any irregular lot or parcel of property in order that the assessments that are levied according to the benefits that will be derived by the respective lots and parcels from such improvements will be equal and uniform. The portion of the costs that is proposed to be assessed against, and the estimated amount of the maximum benefits that are anticipated will be derived from the proposed improvements by, each lot or parcel of property shall be as is stated in the aforesaid assessment plat. Regardless of the basis that is used for apportioning the assessments, in the case of a wedge, "V" or other irregularly shaped lot or parcel, the amount that is apportioned thereto shall be in proportion to the special benefits that will be derived thereby.

The areas that are proposed to be assessed within the respective assessment units which the City Council proposes to have so improved are as follows:

ASSESSMENT UNIT NO. I (Street Paving)

Each lot or parcel of real property lying and being situate in the City of Las Vegas, County of Clark, State of Nevada, and being a portion of Section 1 or Section 12, Township 20 South, Range 60 East, M.D.M., or a portion of Section 6 or

Section 7, Township 20 South, Range 61 East, M.D.M., that abuts Decatur Boulevard (100 feet wide), or portions thereof, along the west side thereof from a point that is approximately 82 feet north of the centerline of Cheyenne Avenue (100 feet wide) northerly to a point that is approximately 90 feet south of the centerline of Craig Road (110 feet wide) or abuts either Martinelli Court (51 feet wide at its access to said Decatur Boulevard) or Prince Court (51 feet wide at its access to said Decatur Boulevard) along both sides and the ends thereof from the west right-of-way line of said Decatur Boulevard westerly to the ends of the respective cul-de-sacs.

ASSESSMENT UNIT NO. II (Curbs and Gutters)

Each lot or parcel of real property lying and being situate in the City of Las Vegas, County of Clark, State of Nevada, and being a portion of Section 1 or Section 12, Township 20 South, Range 60 East, M.D.M., or a portion of Section 6 or Section 7, Township 20 South, Range 61 East, M.D.M., that abuts Decatur Boulevard (100 feet wide), or portions thereof, along the west side thereof from a point that is approximately 82 feet north of the centerline of Cheyenne Avenue (100 feet wide) northerly to a point that is approximately 90 feet south of the centerline of Craig Road (110 feet wide) or abuts either Martinelli Court (51 feet wide at its access to said Decatur Boulevard) or Prince Court (51 feet wide at its access to said Decatur Boulevard) along both sides and the ends thereof from the west right-of-way line of said Decatur Boulevard westerly to the ends of the respective cul-de-sacs.

ASSESSMENT UNIT NO. III (Sidewalks)

Each lot or parcel of real property lying and being situate in the City of Las Vegas, County of Clark, State of Nevada, and being a portion of Section 1 or Section 12, Township 20 South, Range 60 East, M.D.M., or a portion of Section 6 or Section 7, Township 20 South, Range 61 East, M.D.M., that abuts Decatur Boulevard (100 feet wide), or portions thereof, along the west side thereof from a point that is approximately 82 feet north of the centerline of Cheyenne Avenue (100 feet wide) northerly to a point that is approximately 90 feet south of the centerline of Craig Road (110 feet wide).

ASSESSMENT UNIT NO. IV (Street Lighting)

Each lot or parcel of real property lying and being situate in the City of Las Vegas, County of Clark, State of Nevada, and being a portion of Section 1 or Section 12, Township 20 South, Range 60 East, M.D.M., or a portion of Section 6 or Section 7, Township 20 South, Range 61 East, M.D.M., that abuts Decatur Boulevard (100 feet wide), or portions thereof, along the west side thereof from a point that is approximately 82 feet north of the centerline of Cheyenne Avenue (100 feet wide) northerly to a point that is approximately 90 feet south of the centerline of Craig Road (110 feet wide) or abuts either Martinelli Court (51 feet wide at its access to said Decatur Boulevard) or Prince Court (51 feet wide at its access to said Decatur Boulevard) along both sides and the ends thereof from the west right-of-way line of said Decatur Boulevard westerly to the ends of the respective cul-de-sacs.

ASSESSMENT UNIT NO. V (Sanitary Sewer Laterals)

Each lot or parcel of real property lying and being situate in the City of Las Vegas, County of Clark, State of Nevada, and being a portion of Section 1 or Section 12, Township 20 South, Range 60 East, M.D.M., or a portion of Section 6 or Section 7, Township 20 South, Range 61 East, M.D.M., that is served by a sanitary sewer lateral that is installed by way of the District and abuts Decatur Boulevard (100 feet wide), or portions thereof, along the west side thereof from a point that is approximately 82 feet north of the centerline of Cheyenne Avenue (100 feet wide) north to a point that is approximately 90 feet south of the centerline of Craig Road (110 feet wide).

ASSESSMENT UNIT NO. VI (Potable Water Laterals)

Each lot or parcel of real property lying and being situate in the City of Las Vegas, County of Clark, State of Nevada, and being a portion of Section 1 or Section 12, Township 20 South, Range 60 East, M.D.M., or a portion of Section 6 or Section 7, Township 20 South, Range 61 East, M.D.M., that is served by a potable water lateral that is installed by way of the District and abuts Decatur Boulevard (100 feet wide), or portions thereof, along the west side thereof from a point that is approximately 82 feet north of the centerline of Cheyenne Avenue (100 feet wide) north to a point that is approximately 90 feet south of the centerline of Craig Road (110 feet wide).

ASSESSMENT UNIT NO. VII (Residential Driveway Approaches)

Each lot or parcel of real property lying and being situate in the City of Las Vegas, County of Clark, State of

Nevada, and being a portion of Section 1 or Section 12, Township 20 South, Range 60 East, M.D.M., or a portion of Section 6 or Section 7, Township 20 South, Range 61 East, M.D.M., that is served by a residential driveway approach that is constructed and installed by way of the District and abuts Decatur Boulevard (100 feet wide), or portions thereof, along the west side thereof from a point that is approximately 82 feet north of the centerline of Cheyenne Avenue (100 feet wide) north to a point that is approximately 90 feet south of the centerline of Craig Road (110 feet wide).

ASSESSMENT UNIT NO. VIII (Commercial Driveway Approaches)

Each lot or parcel of real property lying and being situate in the City of Las Vegas, County of Clark, State of Nevada, and being a portion of Section 1 or Section 12, Township 20 South, Range 60 East, M.D.M., or a portion of Section 6 or Section 7, Township 20 South, Range 61 East, M.D.M., that is served by a commercial driveway approach that is constructed and installed by way of the District and abuts Decatur Boulevard (100 feet wide), or portions thereof, along the west side thereof from a point that is approximately 82 feet north of the centerline of Cheyenne Avenue (100 feet wide) north to a point that is approximately 90 feet south of the centerline of Craig Road (110 feet wide).

The proposed improvements will result in no substantial change in the existing street elevations or grades.

Each person who is interested is hereby advised that the plans, plats, typical sections, preliminary estimates of the total cost, the description of the lots and parcels of property

that are proposed to be assessed, the portion of the cost that is proposed to be assessed thereagainst and the estimated amount of the maximum benefits that are anticipated will be derived by each such lot or parcel of property with respect to the respective assessment units are on file in the Office of the City Clerk and may be inspected by any property owner or other interested person during the regular office hours of that Office.

On Wednesday, the 2nd day of October, 1991, at the hour of 2:00 o'clock p.m., at the Council Chambers in the Las Vegas City Hall Complex, 400 East Stewart Avenue, Las Vegas, Nevada 89101, or at any time prior to such date and time, at the Office of the City Clerk at said City Hall, the owner or owners of any lot or parcel of property that is proposed to be assessed, any other person who is interested in any thereof or any tenant of any mobile home park that is located on any of such lots or parcels may file a written protest or objection and may appear before the City Council at such time and place and be heard as to the propriety and advisability of making such improvements, as to the cost thereof, as to the proposed method of the payment therefor and as to the amount thereof that is proposed to be assessed against, and the estimated amount of the maximum benefits that are anticipated will be derived from such improvements by, the respective lots and parcels of property that are proposed to be so improved.

Any owner of any of such lots or parcels, any other person who is interested in any thereof or any tenant of any

mobile home park that is located on any of such lots or parcels who wishes to make any protest or objection must make such protest or objection in writing at the Office of the City Clerk at least three days before the time that is set for such hearing. In this connection, a person should object to the formation of the District in the manner as aforesaid if his or her support therefor is based upon a statement or representation concerning the District that is not contained in the language of this notice. Any person who files a written protest or objection three days before the time of such hearing as aforesaid shall have the right, within thirty (30) days after the City Council has finally passed upon such protest or objection, to commence an action or suit in any court of competent jurisdiction to correct or set aside such determination, but thereafter all actions or suits that attack the validity of the proceedings or the amount of benefits, or both, shall be perpetually barred.

NOTE: A PERSON'S ONLY CHANCE TO PRESENT EVIDENCE TO DEMONSTRATE THAT (A) THE MAKING OF SUCH IMPROVEMENTS IS IMPROPER OR ILL ADVISED, (B) THE COST THEREOF IS EXCESSIVE, (C) THE PROPOSED METHOD OF PAYMENT THEREFOR IS IMPROPER OR (D) THE AMOUNT OF THE ESTIMATED COSTS THAT ARE PROPOSED TO BE ASSESSED AGAINST THE LOT OR PARCEL OF PROPERTY THAT HE OR SHE OWNS OR IS OTHERWISE INTERESTED OR ON WHICH IS LOCATED A MOBILE HOME PARK OF WHICH HE OR SHE IS A TENANT, OR THE ESTIMATED AMOUNT OF THE MAXIMUM BENEFITS THAT ARE ANTICIPATED WILL BE DERIVED BY SUCH LOT OR PARCEL FROM THE PROPOSED IMPROVEMENT THEREOF, OR BOTH, ARE EXCESSIVE WILL BE AT SUCH HEARING. NO SUCH PERSON WILL BE ABLE TO PRESENT ANY ADDITIONAL EVIDENCE IN SUPPORT OF HIS OR HER PROTEST OR OBJECTION IN ANY SUCH ACTION OR SUIT IN ANY COURT.

If the owners of more than one-half of the frontage that

is proposed to be assessed for the improvements that are proposed to be constructed and installed in ASSESSMENT UNIT NO. I or ASSESSMENT UNIT No. IV, or of more than one-half of the lineal footage that is proposed to be assessed for the improvements that are proposed to be constructed and installed in ASSESSMENT UNIT NO. II or ASSESSMENT UNIT NO. III, shall file written protests or objections thereto, the particular improvement for that particular assessment unit shall not be constructed and installed; provided, however, that, since one-half or more of the total cost of the entire Project will be paid for other than by the levy of special assessments, the City Council may, pursuant to NRS 271.305(7)(b)(1), order the construction and installation of the street paving in ASSESSMENT UNIT NO. I, the construction and installation of the curbs and gutters in ASSESSMENT UNIT NO. II, the construction and installation of the sidewalks in ASSESSMENT UNIT NO. III or the construction and installation of the street lighting system in ASSESSMENT UNIT NO. IV, or any combination thereof, in which event the construction and installation of such improvements shall not be stayed, defeated or prevented by written complaints, protests or objections thereto. If the owners of the lots or parcels of property that are proposed to be assessed for more than one-half of the costs of the improvements that are to be installed in ASSESSMENT UNIT NO. V or ASSESSMENT UNIT NO. VI shall file written protests or objections thereto, the particular improvements for that particular assessment unit shall not be installed. The improvements that are to be constructed and installed in

ASSESSMENT UNIT NO. VII and ASSESSMENT UNIT NO. VIII will be constructed and installed to serve each particular lot or parcel of property at the location and in the number and size as are specified by the owner thereof, and no such improvement will be constructed and installed to serve any such lot or parcel without the approval of the owner thereof.

After such hearing, the City Council will make a determination as to the advisability of so improving such streets and parts thereof, will determine the kind and character of such improvements that are to be so made and will enter into a contract with the bidder that submits the lowest responsive and responsible bid for the doing of such work and the furnishing of all of the necessary materials in response to a duly advertised invitation for construction bids.

After the making of such contract, the City Council will determine what portion of the cost of such work, including without limitation the expenses that are incidental thereto, will be assessed against the respective assessable lots and parcels of property that will be specially benefited thereby, and the assessments will be levied in accordance with the laws of the State of Nevada. In no event will an assessment exceed the estimated amount of the maximum benefits that are anticipated will be derived by the lot or parcel of property upon which the same is levied. The City Council will provide that each assessment may be payable without interest or demand during a specified period, at the election of the owner or owners of the lot or parcel of property against which it is assessed, or in

twenty (20) substantially equal semiannual installments of principal. The City Council will also provide the time and terms for the payment of such assessments and for the rate of interest per annum that will be borne by the deferred installments thereof, which rate shall not exceed by more than three percent (3%) the Index of Twenty Bonds that was most recently published before the date on which the ordinance that levies the assessments is adopted, and will fix the penalties that are to be collected upon delinquent payments.

By order of the City Council of the City of Las Vegas,
Nevada.

Dated this 4th day of September, 1991.

KATHLEEN M. TIGHE, City Clerk

SECTION 5. That the City Clerk is hereby authorized to invite bids for the performance of the work that is contemplated in this Resolution by advertising the invitation for such bids at least once a week for three (3) consecutive weeks by three (3) weekly insertions in said Las Vegas Review-Journal; provided, however, that not less than fourteen (14) days shall intervene between the first publication and the last publication, provided, further, that the last publication shall be at least five (5) days prior to the receipt of bids; and provided, further, that no contract shall be made or awarded until after the public hearing that is hereinabove provided for.

INTRODUCED, PASSED AND ADOPTED this 4th day of September, 1991.

JAN LAVERTY JONES, Mayor
Approved
vs
9-9-91

ATTEST:

KATHLEEN M. TIGHE, City Clerk
